High-throughput Image Reconstruction and Analysis A. Ravishankar Rao,Guillermo A. Cecchi,2009 This innovative volume surveys the latest image acquisition advances in serial block face techniques in scanning electron microscopy knife edge scanning microscopy and 4D imaging of multi component biological systems The book introduces parallel processing for biological applications You learn advanced parallelization techniques for decomposing a problem domain and mapping it onto a parallel processing architecture using the message passing interface MPI and OpenMP Case studies show how these techniques have been successfully used in simulation tasks data mining and graphical visualization of biological datasets You also find coverage of methods for developing scalable biological image databases and for facilitating greater interactive visualization of large image sets

Quality Analysis and Packaging of Seafood Products Ashutosh Kumar Shukla,Ravishankar C N,2024-11-08 Quality Analysis and Packaging of Seafood Products provides information on basics of packaging and novel packaging technologies and their potential application for fishery products Dealing specifically with the seafood packaging and quality aspects the book is a complete resource for ensuring better quality of fish products Divided into three parts the title deals with seafood nutrition and quality packaging options including new technologies and smart and edible biodegradable packages In addition it covers the quality aspects such as biochemical quality and hazards associated with processing and packaging of fishery products The book also includes standard guidelines and regulations on the use of packaging materials for fishery products besides covering sustainability aspects which are crucial for the future fishery industry Edited by global experts in the area of seafood processing and packaging this book is the ultimate guide on conventional and advanced packaging technologies and their potential applications in fish preservation It is dedicated to all researchers and specialists in seafood processing and technology as well as packaging materials besides food companies and fish processing industries Covers the packaging of fishery products and their effect on the quality of aquatic products Explores the use of smart edible and biodegradable seafood packaging Brings technical and scientific background of both conventional and advanced fish packaging technologies Includes sustainability and legislative aspects of different packaging technologies which are useful for the seafood industry

Sustainable Global Resources of Seaweeds Volume 2 Ambati Ranga Rao,Gokare A. Ravishankar,2022-03-26 Marine plant life is an abundant source of nutrients that enhance the daily diet In recent years consuming diets rich in seaweeds or their extracts have been shown to provide health benefits due to being rich in macronutrients micronutrients and nutraceuticals The commercial value of seaweeds for human consumption is increasing annually and some countries harvest several million tons annually The seaweeds industry is valued at around 12 billion in 2017 and supports millions of families worldwide Seaweeds production grew globally by 30 million tons in 2016 Seaweeds have seen increasing usage in the food industry due to their abundance of beneficial nutrients vitamins and 3 fatty acids To date there have been no books that comprehensively cover up to date information on seaweeds cultivation

processing extraction and nutritional properties This text lays out the properties and effects of seaweeds from their use as bioresources to their use in the feed industry to their applications in wastewater management and biofuels Sustainable Global Resources of Seaweeds Volume 2 Industrial Perspectives offers a complete overview of the application of seaweeds into food pharmaceuticals and other health based applications The first section focuses on the various foods derived from seaweeds including extensive insight into the beneficial nutrients these plants contain The many functional foods derived from sea plants are covered in detail including foods from tropical seaweeds macroalgae Monostroma Caulerpa Palmaria Gracillaria Porphyra Laminaria Fucus Undaria and many more The chapters delve further into the nutritional makeup of these foods their health benefits and chemical makeup A second section is dedicated to the pharmaceutical applications of seaweeds and their many health benefits With chapters devoted to vitamin sources health properties and pharmaceutical applications this section acts as a single source for researchers exploring the pharmaceutical applications and possibilities of seaweeds Research development and commercial applications are explored plus a complete picture of the multitude of health benefits derived from these plentiful and beneficial plants For researchers in search of a comprehensive and up to date source on the application of nutrient rich seaweeds from across the world into novel foods and pharmaceuticals look no further than this volume

Carbon Nanomaterials-Based Sensors Jamballi G. Manjunatha, Chaudhery Mustansar Hussain, 2022-04-28 Carbon Nanomaterials Based Sensors Emerging Research Trends in Devices and Applications covers the most recent research and design trends for carbon nanomaterials based sensors for a variety of applications including clinical and environmental uses and more Carbon nanomaterials based sensors can be used with high sensitivity stability and accuracy compared to other techniques Written by experts in their given fields from around the world this book helps researchers solve the particular challenges they face when developing new types of sensors It instructs how to make sensitive selective robust fast response and stable carbon nanomaterial based sensors as well as how to utilize them in real life Covers the environmental monitoring and analytical implications of electro analytical methods one of the most dynamically developing branches of carbon nanomaterials Includes a complete discussion of functionalized nanostructure materials reformulated with noble materials and advanced characteristics for improved applications when compared to standard materials Covers sustainability and challenges in the commercialization of carbon nanomaterials based sensors

Neurotransmitters in Plants Akula Ramakrishna, Victoria Vladimirovna Roshchina, 2018-09-03 Key features Presents the latest trends and developments of neuromediators in plants Provides in depth coverage of plants enriched in neurotransmitters especially serotonin melatonin and dopamine and how they are used in medicine pharmacy and food nutrition Discusses the physiological role of the neurotransmitters biomediators in non nervous systems including the analysis of effects on the growth and development and stress defense Covers the occurrence of the substances that act in human and animal nervous system in plants as a phenomenon of the universal irritability feature for biologists Reveals the

occurrence and possible physiological functions of biogenic amines in plants food and human health New scientific data confirm the origin of neurotransmitters in the ancient ocean whose inhabitants use the compounds in their relationships One example is the algae *Ulvaria* whose image is represented on the cover During evolution plant and microbial cells stored the neurotransmitters that play multifunctional roles today Researchers have paid special attention to their functions in plants the oxygen well of our planet This book provides powerful tools for both analyzing and manipulating organisms considering the functions of neurotransmitters in plant cells and the practical application of knowledge about acetylcholine catecholamines serotonin melatonin histamine gamma aminobutyric acid and glutamine for ecology agriculture medicine and food industries *Neurotransmitters in Plants Perspectives and Applications* presents information on the location and biosynthesis where neurotransmitters occur the molecular biology of some enzymes participating in the process their role in vivo and in vitro processes their functions in plant environmental adaptation in plants their role in enriching the food and medicinal value of plants

Nanotechnology Applications in the Food Industry V Ravishankar Rai, Jamuna A Bai, 2018-01-31 Nanotechnology is increasingly used in the food industry in the production processing packaging and preservation of foods It is also used to enhance flavor and color nutrient delivery and bioavailability and to improve food safety and in quality management *Nanotechnology Applications in the Food Industry* is a comprehensive reference book containing exhaustive information on nanotechnology and the scope of its applications in the food industry The book has five sections delving on all aspects of nanotechnology and its key role in food industry in the present scenario Part I on Introduction to Nanotechnology in Food Sector covers the technological basis for its application in food industry and in agriculture The use of nanosized foods and nanomaterials in food the safety issues pertaining to its applications in foods and on market analysis and consumer perception of food nanotechnology has been discussed in the section Part II on Nanotechnology in Food Packaging reviews the use of nanopolymers nanocomposites and nanostructured coatings in food packaging Part III on Nanosensors for Safe and Quality Foods provides an overview on nanotechnology in the development of biosensors for pathogen and food contaminant detections and in sampling and food quality management Part IV on Nanotechnology for Nutrient Delivery in Foods deals with the use of nanotechnology in foods for controlled and effective release of nutrients Part V on Safety Assessment for Use of Nanomaterials in Food and Food Production deliberates on the benefits and risks associated with the extensive and long term applications of nanotechnology in food sector

Nutraceuticals and Health Care Jasmeet Kour, Gulzar Ahmad Nayik, 2021-11-24 *Nutraceuticals and Health Care* explores the role of plant based nutraceuticals as food ingredients and as therapeutic agents for preventing various diseases The book assesses the role of nutraceuticals in addressing cardiovascular disease cancer diabetes and obesity by highlighting the derivatives extraction chemistry mechanism of action pharmacology bioavailability and safety of specific nutraceuticals It analyzes twenty one nutraceuticals in a systematic way providing a welcomed reference for nutrition researchers nutritionists and dieticians as well as other

scientists studying related areas in food science technology or agriculture Students studying related topics will also benefit from this material Serves as a foundation for analyzing the efficiency and validity of various plant derived nutraceuticals Explores the use of nutraceuticals as a therapeutic tool in the prevention of chronic and degenerative diseases Highlights the derivatives extraction chemistry mechanism of action pharmacology bioavailability and safety of specific nutraceuticals

We See It All Jon Fasman, 2021-01-26 This investigation into the legal political and moral issues surrounding how the police and justice system use surveillance technology asks the question what are citizens of a free country willing to tolerate in the name of public safety As we rethink the scope of police power Jon Fasman s chilling examination of how the police and the justice system use the unparalleled power of surveillance technology how it affects privacy liberty and civil rights becomes more urgent by the day Embedding himself within police departments on both coasts Fasman explores the moral legal and political questions posed by these techniques and tools By zeroing in on how facial recognition automatic license plate readers drones predictive algorithms and encryption affect us personally Fasman vividly illustrates what is at stake and explains how to think through issues of privacy rights civil liberties and public safety How do these technologies impact how police operate in our society How should archaic privacy laws written for an obsolete era that of the landline and postbox be updated Fasman looks closely at what can happen when surveillance technologies are combined and put in the hands of governments with scant regard for citizens civil liberties pushing us to ask Is our democratic culture strong enough to stop us from turning into China with its architecture of control **Social and Preventive Pharmacy** K.
