Melayu Maznah Mohamad, 2013-07-01 People within the Malay world hold strong but diverse opinions about the meaning of the word Melayu which can be loosely translated as Malayness Questions of whether the Filipinos are properly called e Malaye or the Mon Khmer speaking Orang Asli in Malaysia can generate heated debates So too can the question of whether it is appropriate to speak of a kebangsaan Melayu Malay as nationality as the basis of membership within an aspiring postcolonial nation state a political rather than a cultural community embracing all residents of the Malay states including the immigrant Chinese and Indian population In Melayu The Politics Poetics and Paradoxes of Malayness the contributors examine the checkered wavering and changeable understanding of the word Melayu by considering hitherto unexplored case studies dealing with use of the term in connection with origins nations minority majority politics Filipino Malays Riau Malays Orang Asli Straits Chinese literature women s veiling vernacular television social dissent literary women and modern Sufism Taken as a whole this volume offers a creative approach to the study of Malayness while providing new perspectives to the studies of identity formation and politics of ethnicity that have wider implications beyond the Southeast Asian region **Union Catalog of Philippine Materials of Sixty-four Government Agency Libraries of the Philippines** University of the Philippines. Inter-departmental Reference Service, 1962 *Countries and Territories of the World* , **Japanese Pan-Asianism and the Philippines from the Late Nineteenth Century to the End of World War II** Sven Matthiessen, 2015-10-20 In Japanese Pan Asianism and the Philippines from the Late 19th Century to the End of World War II Going to the Philippines Is Like Coming Home Sven Matthiessen examines the development of Japanese Pan Asianism and the perception of the Philippines within this ideology Due to the archipelago s previous colonisation by Spain and the US the Philippines was a special case among the Japanese occupied territories during the war Matthiessen convincingly proves that the widespread pro Americanism among the Philippine population made it impossible for Japanese administrators to implement a pan Asianist ideology that centred on a return to Asian values The expectation among some Japanese Pan Asianists that going to the Philippines was like coming home was never fulfilled **The Philippine Government** , **A History of the Philippines** Jose Maria S. Luengo, 1992 **God's Destiny for Your Nation** John Sin Hock Tay, 2008 *Islamic Identity, Postcoloniality, and Educational Policy* J. Milligan, 2005-07-31 Tensions between Muslim communities and state institutions are endemic in many parts of the world For decades successive colonial and independent governments in the Philippines have deployed educational policy as a tool to mitigate one such conflict between Muslims and Christians a conflict which has claimed more than 100 000 lives since the 1970 s Postcolonial Education and Islamic Identity in the Southern Philippines offers a postcolonial critique of this century long educational project in an effort to understand

how educational policy has failed Muslim Filipinos and to seek insight from their experience into the potential and pitfalls of educational responses to ethnic and religious tensions

Generations Les Washington, 2002 The arrival of those twenty Africans though they were not the first Africans in America represented the vanguard of an institution and an industry that would for 246 years survive in the unkempt median lying between the merging lanes of the sociopolitical practices of the past and the oncoming traffic of advancing sociopolitical concepts of the future Unlike the simple annotation in Rolfe's diary announcing the arrival of the 1619 Africans the concept of advanced sociopolitical thinking arrived on the scene with the proverbial bang Whereas Rolfe's announcement was a precursor to the institution of slavery the new concept of natural individual rights was a precursor of its demise Entering the sociopolitical spectrum from the lanes of evolving religious freedom the notion of the natural rights of the individual was ultimately destined to clash with slavery's abject denial of such rights The convergence of these two events as though engaged in a turf war over morality would years later crash into each other with the sound of cannon fire

Imagining Japan in Post-war East Asia Paul Morris, Naoko Shimazu, Edward Vickers, 2014-03-26 In the decades since her defeat in the Second World War Japan has continued to loom large in the national imagination of many of her East Asian neighbours While for many Japan still conjures up images of rampant military brutality at different times and in different communities alternative images of the Japanese Other have vied for predominance in ways that remain poorly understood not least within Japan itself *Imagining Japan in Postwar East Asia* analyses the portrayal of Japan in the societies of East and Southeast Asia and asks how and why this has changed in recent decades and what these changing images of Japan reveal about the ways in which these societies construct their own identities It examines the role played by an imagined Japan in the construction of national selves across the East Asian region as mediated through a broad range of media ranging from school curricula and textbooks to film television literature and comics Commencing with an extensive thematic and comparative overview chapter the volume also includes contributions focusing specifically on Chinese societies the mainland PRC Hong Kong and Taiwan Korea the Philippines Malaysia and Singapore These studies show how changes in the representation of Japan have been related to political social and cultural shifts within the societies of East Asia and in particular to the ways in which these societies have imagined or constructed their own identities Bringing together contributors working in the fields of education anthropology history sociology political science and media studies this interdisciplinary volume will be of interest to all students and scholars concerned with issues of identity politics and culture in the societies of East Asia and to those seeking a deeper understanding of Japan's fraught relations with its regional neighbours

Hard Interests, Soft Illusions Natasha Hamilton-Hart, 2012-02-17 In *Hard Interests, Soft Illusions* Natasha Hamilton Hart explores the belief held by foreign policy elites in much of Southeast Asia Indonesia Malaysia the Philippines Thailand Singapore and Vietnam that the United States is

a relatively benign power She argues that this belief is an important factor underpinning U S preeminence in the region because beliefs inform specific foreign policy decisions and form the basis for broad orientations of alignment opposition or nonalignment Such foundational beliefs however do not simply reflect objective facts and reasoning processes Hamilton Hart argues that they are driven by both interests in this case the political and economic interests of ruling groups in Southeast Asia and illusions Hamilton Hart shows how the information landscape and standards of professional expertise within the foreign policy communities of Southeast Asia shape beliefs about the United States These opinions frequently rest on deeply biased understandings of national history that dominate perceptions of the past and underlie strategic assessments of the present and future Members of the foreign policy community rarely engage in probabilistic reasoning or effortful knowledge testing strategies This does not mean she emphasizes that the beliefs are insincere or merely instrumental rationalizations Rather cognitive and affective biases in the ways humans access and use information mean that interests influence beliefs how they do so depends on available information the social organization and practices of a professional sphere and prevailing standards for generating knowledge

My Country and My People 6 , *Remodelling to Prepare for Independence* Ian Morley,2023-12-01 Remodelling to Prepare for Independence The Philippine Commonwealth Decolonisation Cities and Public Works c 1935 46 illuminates the implications of the USA s final phase of colonial rule in the Philippine Islands It explores the Filipino side of decolonisation and the management of the built environment in the years immediately prior to self rule This book shakes off the collaboration vs resistance paradigm that empire histories generally follow and consequently yields an original vantage point to comprehend transition within an Asian society in the years immediately prior to during and after World War Two This will not only deepen insight of the American Empire but also grants the opportunity to tie Philippine political cultural change to the global history of urban planning s advancement Accordingly it opens a new window to rethink Filipino ethno history and societal evolution alongside the opportunity to compare the Philippines with other nations that undertook planning projects as part of their decolonisation process and early postcolonial advancement The book utilises theoretical frames in order to help creatively excavate the era 1935 46 for the purpose of not just revealing what public works occurred but to also uncover what those projects meant to the Commonwealth Government the BPW s staff and the public who benefitted from public works projects The book will be relevant to students and researchers of Urban History Asian and American Empire History and Imperial and Colonial Studies Architects planners and members of the public who are interested in the form and meaning of urban environments designed constructed in the past will also find the publication to be of great interest
