Transcription Practice for the International Phonetic Alphabet Andrzej Porzuczek, Konrad Szcześniak, 2019-12-02
This book will serve to help learners transcribe the sounds of English by means of the International Phonetic Alphabet and use phonetic transcriptions of words in dictionaries. It will be of special interest to university students of linguistics and phonetics since transcription skills will give them a clearer more systematic picture of English pronunciation and spelling. Because the book assumes no prior knowledge of phonetics it can be used by anyone looking to improve their pronunciation. In this regard it will benefit especially those readers who speak English as a foreign language. They will find a rich collection of exercises focusing on a variety of pronunciation phenomena. These exercises feature common fixed expressions such as spitting image thus in addition to learning to use the transcription alphabet learners can also enrich their vocabularies. This handbook is designed for work in the classroom but thanks to its presentation of solutions and explanations of relevant problems it can also be used in individual study. *Phonetic Transcription Exercises* Jimmy G.
