Reading Duncan Reading Stephen Collis, Graham Lyons, 2012-12-01 In Reading Duncan thirteen scholars and poets examine first what and how the American poet Robert Duncan read and performed what and how he wrote Harold Bloom wrote of the searing anxiety of influence writers experience as they grapple with the burden of being original but for Duncan this was another matter altogether Indeed according to Stephen Collis No other poet has so openly expressed his admiration for and gratitude toward his predecessors Part one emphasizes Duncan's acts of reading tracing a variety of his derivations including Sarah Ehlers's demonstration of how Milton shaped Duncan's early poetic aspirations Siobhán Scarry's unveiling of the many sources including translation and correspondence drawn into a single Duncan poem and Clement Oudart's exploration of Duncan's use of foreign words to fashion a language to which no one is native In part two the volume turns to examinations of poets who can be seen to in some way derive from Duncan and so in turn reveals another angle of Duncan's derivative poetics J. P. Craig traces Nathaniel Mackey's use of Duncan's would-be shaman Catherine Martin sees Duncan's influence in Susan Howe's development of a poetics where the twin concepts of trespass and permission hold comparable sway and Ross Hair explores poet Ronald Johnson's reading to steal These and other essays collected here trace paths of poetic affiliation and affinity and hold them up as provocative possibilities in Duncan's own inexhaustible work

Uniting Regions and Nations through the Looking Glass of Literature Karoline Szatek-Tudor, 2017-03-07 This volume of essays emphasizes the common theme that bodies of water may segregate but ironically also unite nations and their readers through the literature that authors from various countries produce It reveals the importance of valuing literature that over time has travelled down bubbling streams across lakes along ocean waves and white water rivers because fiction drama and poetry know neither actual nor artificial boundaries and therefore they cross fertilize and even transform beliefs practices and roles across cultures Topics examined here range from South Africa's on-going crises that in part mirror those of Somalia and Mozambique to poetry that has been reinvented as a literature in movement and to philosopher Henri Bergson's influence on other philosophers as well as Nikos Kazantzakis author of Zorba the Greek The scholars contributing to this collection hail from across the globe allowing the

work to add to conversations on regional and international literary study with special emphasis on writings from such places as Japan Luxembourg the Caribbean the United States Hungary South Africa Greece and Turkey *Poetry For Beginners* Margaret Chapman, Kathleen Welton, 2010-01-19 Poetry is one of those subjects almost impossible to define as it can be so many things at once It can be kids whispering limericks on the playground secret languages used by revolutionaries and spies or the written strength of oppressed people Poetry is how millions of people across time have used language to try to better understand love hate war religion oppression joy sorrow sex and death Poetry is one of the oldest forms of writing in the world yet also constantly evolving Despite its complexities poetry is probably the way most people learned how to read Poetry For Beginners is a fun lively and accessible guide and expands one's understanding and knowledge of poetry through the ages From ancient Greece to the present Poetry For Beginners traces the wonders of the written word and shows how it is relevant in daily life Contextual Practice Stephen Fredman, 2010 Fredman makes the original argument that some of the most innovative works of poetry and art in the postwar period 1945 1970 engaged in a contextual practice a term that refers both to a way of making art characterized by assemblage and to a new relationship between art and life an erotic poetics **Canon Vs. Culture** Jan Groak, 2013-06-17 Canon Vs Culture explores the consequences of one of the main educational shifts of the last quarter century the changes from academic inquiry conducted through a selected list of accepted authorities to an investigation of the cultural operations of an entire society Digital Poetics Loss Pequeño Glazier, 2002 In Digital Poetics Loss Glazier argues that the increase in computer technology and accessibility specifically the World Wide Web has created a new and viable place for the writing and dissemination of poetry Glazier's work not only introduces the reader to the current state of electronic writing but also outlines the historical and technical contexts out of which electronic poetry has emerged and demonstrates some of the possibilities of the new medium Glazier examines three principal forms of electronic textuality hypertext visual kinetic text and works in programmable media He considers avantgarde poetics and its relationship to the on line age the relationship between web pages and book technology and the way in which certain kinds of web constructions are in and of themselves a type of writing With convincing alacrity Glazier argues that the materiality of electronic writing has changed the idea of writing itself He concludes that electronic space is the true home of poetry and in the 20th century has become the ultimate space of poesis Digital Poetics will attract a readership of scholars and students interested in contemporary creative writing and the po *Caribbean Without Borders* Raquel Puig, Dorsía Smith, 2008-12-18 Caribbean Studies is an emerging field As such many topics within this discipline have yet to be explored and developed This collection of essays is one of the forerunners dedicated to a comprehensive study of the literature language and culture of the Caribbean By exploring the works of such prominent literary scholars as Samuel Selvon and Lorna Goodison as well as the myriad of issues pertaining to the Caribbean experience this volume provides an engaging overview of literary language and cultural analysis Because of this wide range of essays this text meets a need to

examine the Caribbean in its complexity which is rarely addressed **Grammalepsy** John Cayley, 2018-09-20 Collecting and recontextualizing writings from the last twenty years of John Cayley's research based practice of electronic literature Grammalepsy introduces a theory of aesthetic linguistic practice developed specifically for the making and critical appreciation of language art in digital media As he examines the cultural shift away from traditional print literature and the changes in our culture of reading Cayley coins the term grammalepsy to inform those processes by which we make understand and appreciate language Framing his previous writings within the overall context of this theory Cayley eschews the tendency of literary critics and writers to reduce aesthetic linguistic making even when it has multimedia affordances to writing Instead Cayley argues that electronic literature and digital language art allow aesthetic language makers to embrace a compositional practice inextricably involved with digital media which cannot be reduced to print dependent textuality
