Rethinking Turkey-Iraq Relations Mehmet Akif Kumral, 2016-08-31 This book explores key historical episodes to understand the reasons and consequences of the enduring partiality problem in cooperation between Turkey and Iraq. Notwithstanding their mutual material interdependence and common cultural heritage these two close neighbors have stayed far from achieving comprehensive cooperation. The author examines contextual discursive dynamics shaping Turkey-Iraq partial cooperation around critical events such as the Saadabad Baghdad pacts, the Gulf War, the US Invasion, and the war against ISIS. Leading pro-government Turkish daily newspapers of the period are analyzed to highlight ambivalent ontological rhetorical modes and ambiguous political narratives frames that perpetuate paradoxes of partiality in Ankara's rationalization and contextualization of cooperation with Baghdad and Erbil.

The Culture and Politics of Populist Masculinities Outi Hakola, Janne Salminen, Juho Turpeinen, Oscar Winberg, 2021-04-09 The ideologies and practices of various populist movements are centered on issues of gender, especially idealized notions of masculinity. Offering cultural, political, and historical approaches from a range of interdisciplinary and international perspectives, *The Culture and Politics of Populist Masculinities* analyzes articulations and performances that link populism to masculinity. In particular, the collection studies political participation in the form of public debates, media, and popular culture. The authors emphasize that in order to understand what can be defined as populism, we need to look at the culture that it inhabits and the efforts to claim, challenge, and reclaim the popular. Writing from a wide range of international contexts, the contributors to *The Culture and Politics of Populist Masculinities* explore how populist masculinities are articulated and performed, whether there is something problematic about a specifically masculine populism, and whether there is hope for a pluralist, inclusive, even progressive form of masculine populism. *Culture and Politics of Populist Masculinities*, an international range of contributors, explore how populist masculinities are articulated and performed, whether there is something problematic about a specifically masculine populism, and whether there is hope for a pluralist, inclusive, even progressive form of masculine populism.

Discourses of Denial Thomas Discenna, 2017-09-22 *Discourses of Denial* explores the myriad ways that the labor of those employed by universities is situated as somehow distinct from ordinary labor. Focusing on a variety of sites where academic labor is discursively constructed in popular consciousness, including among the professoriate itself, its critics, and detractors, the unionization struggles of graduate students, the invisibility of contingent academics, and the resistance to the unionization of student athletes, *Merging Critical Rhetoric (CR) with Critical Discourse Analysis (CDA)*, this study examines the myth that academic work is not the same as other labor. Pason 2011, p. 1786. The denial of academic labor functions to underwrite an attack on labor in all of its variations, producing what Berardi 2009 calls a new kind of worker who values labor as the most interesting part of his or her life and therefore no longer opposes the prolongation of the working day but is actually ready to lengthen it out of personal choice and will. p. 79. The professoriate is therefore not a retrograde figure of more genteel times but the emblematic

figure of late capitalism's transition to cognitive labor and with it an unceasing colonization of the human lifeworld

The Populism-Euroscepticism Nexus Juan Roch, 2023-12-19 This book explores the modes of European Union EU contestation which are mobilized by radical parties and seeks to unearth the relationship of such contestation with populist discourses. It looks specifically at how rightist and leftist parties articulate populist discourses with representations and problematizations of Europe and the EU by examining the left wing Podemos in Spain and the right wing Alternative for Deutschland AfD in Germany. It argues that radical parties also build their Euroscepticism on other hegemonic discourses and populism is only one possible discursive articulation to mobilize the contestation of the EU. It examines whether populism discourses may serve or not as a stimulus for EU contestation and as such shows the implications that this may have for the persistence of Euroscepticism in Western European democracies. This book will be of key interest to scholars and students of radical parties, democracy, democratic and political theory, populism, Euroscepticism, discourse studies and more broadly to comparative politics and European studies.
