**Youth Activism in Environmental Politics, 2nd Edition** Matt Henn, Sarah Pickard, 2023-02-02 Recently important new research has emerged to explain the large intergenerational cleavages in values and political preferences in many contemporary societies In most established democracies and many newer democracies young people are more likely to possess progressive values and are much more cosmopolitan in their outlook socially liberal accepting of cultural diversity and outward looking than older generations They tend to reject mainstream electoral politics and authoritarian nationalist forms of populism in favour of alternative progressive political parties and movements Indeed there is burgeoning evidence of a global tendency towards young people's support for and participation in new styles of non-institutionalised political action that seem to better fit their life styles and to permit the actualisation of their political aspirations Although there is a considerable body of existing literature that examines the rise of such values and political participation preferences there is little work that focuses on the relationship with the prioritisation of environmental issues and environmental activism as evidenced in the September 2019 global climate strikes The goal of the current Research Topic is to explore the contemporary realities and patterns of youth participation in environmental politics in different societies As such we welcome manuscripts of original research and conceptualization that address the different practices of youth as they seek to effect environmental change and also their motivations for doing so Contributions are welcome from scholars youth practitioners and activists operating in a range of different settings and using diverse disciplinary and

multidisciplinary and interdisciplinary perspectives

### **Theater and Cultural Politics for a New World** Chinua

Thelwell, 2016-10-14 Theater and Cultural Politics for a New World presents a radical re examination of the ways in which demographic shifts will impact theater and performance culture in the twenty first century Editor Chinua Thelwell brings together the revealing insights of artists scholars and organizers to produce a unique intersectional conversation about the transformative potential of theater Opening with a case study of the New WORLD Theater and moving on to a fascinating range of essays the book looks at five main themes Changing demographics Future aesthetics Making institutional space Critical multiculturalism Polyculturalism *Jewish Radical Feminism* Joyce Antler, 2020-04-14 Finalist 2019 PROSE Award

in Biography given by the Association of American Publishers Fifty years after the start of the women s liberation movement a book that at last illuminates the profound impact Jewishness and second wave feminism had on each other Jewish women were undeniably instrumental in shaping the women s liberation movement of the 1960s 70s and 80s Yet historians and participants themselves have overlooked their contributions as Jews This has left many vital questions unasked and unanswered until now Delving into archival sources and conducting extensive interviews with these fierce pioneers Joyce Antler has at last broken the silence about the confluence of feminism and Jewish identity Antler s exhilarating new book features dozens of compelling biographical narratives that reveal the struggles and achievements of Jewish radical feminists in Chicago New York and Boston as well as those who participated in the later self consciously identified Jewish feminist movement that fought gender inequities in Jewish religious and secular life Disproportionately represented in the movement Jewish women s liberationists helped to provide theories and models for radical action that were used throughout the United States and abroad Their articles and books became classics of the movement and led to new initiatives in academia politics and grassroots organizing Other Jewish identified feminists brought the women s movement to the Jewish mainstream and Jewish feminism to the Left For many of these women feminism in fact served as a portal into Judaism Recovering this deeply hidden history Jewish Radical Feminism places Jewish women s activism at the center of feminist and Jewish narratives The stories of over forty women s liberationists and identified Jewish feminists from Shulamith Firestone and Susan Brownmiller to Rabbis Laura Geller and Rebecca Alpert illustrate how women s liberation and Jewish feminism unfolded over the course of the lives of an extraordinary cohort of women profoundly influencing the social political and religious revolutions of our era **Federal Register** , 2007 **Test, Measure, Punish** Erin Michaels, 2025-06-24

The risk of closure and repression in schools In the last two decades education officials have closed a rising number of public schools nationwide related to low performance These schools are mainly located in neglected neighborhoods with high concentrations of poverty Despite this credible threat of closure relatively few individual schools threatened with closure for low performance in the United States are actually shut down Yet as Erin Michaels argues the looming threat is ever present Test Measure Punish critically shifts the focus from school shutdowns to the more typical situation within these strained public schools operating under persistent

risk of closure Many K 12 schools today face escalating sanctions if they do not improve according to repressive state mandates which in turn incentivize schools to put into place nonstop test drills and strict student conduct rules Test Measure Punish traces how threats of school closure have distorted education to become more punitive which disproportionately impacts even targets Black and Latinx communities and substantially hurts student social development This book addresses how these new punitive schooling conditions for troubled schools reproduce racial inequalities Michaels centers her research in a suburban upstate New York high school serving mainly working class Black and Latinx students She reveals a new model of schooling based on testing and security regimes that expands the carceral state making the students feel dejected criminalized and suspicious of the system their peers and themselves Test Measure Punish offers a new theory of schooling inequality and shows in vivid detail why state led school reforms represent a new level of racialized citizenship in an already fragmented public education system

*The Politics of Truth and Reconciliation in South Africa* Richard Wilson, 2001-05-02 The South African Truth and Reconciliation Commission TRC was set up to deal with the human rights violations of apartheid during the years 1960 1994 However as Wilson shows the TRC s restorative justice approach to healing the nation did not always serve the needs of communities at a local level Based on extended anthropological fieldwork this book illustrates the impact of the TRC in urban African communities in Johannesburg While a religious constituency largely embraced the commission s religious redemptive language of reconciliation Wilson argues that the TRC had little effect on popular ideas of justice as retribution This provocative study deepens our understanding of post apartheid South Africa and the use of human rights discourse It ends on a call for more cautious and realistic expectations about what human rights institutions can achieve in democratizing countries

*Democracy for Hire* Dennis W. Johnson, 2016-10-18 Though they work largely out of the public eye political consultants image merchants and kingmakers to candidates play a crucial role in shaping campaigns They persuaded Barry Goldwater to run for president groomed former actor Ronald Reagan for the California governorship helped derail Bill Clinton s health care initiative and carried out the swiftboating of John Kerry As Dennis Johnson argues in this sweeping history of political consulting in the United States they are essential to modern campaigning often making positive contributions to democratic discourse and yet they have also polarized the electorate with their biting messages During the nineteenth and early twentieth centuries political campaigns were run by local political parties volunteers and friends of candidates but as party loyalties among voters began to weaken and political parties declined as sources of manpower and strategy professional consultants swept in to fill the void Political consulting emerged as a profession in the 1930s with publicists Leone Baxter and Clem Whitaker the husband and wife team who built their business in part with a successful campaign to destroy Upton Sinclair s 1934 bid for governor of California With roots in advertising and public relations political consulting has since developed into a highly professionalized business generating hundreds of millions of dollars In fact some of the top campaign consulting firms have merged with others to form multinational public relations

conglomerates serving not just candidates but also shaping public advocacy campaigns for businesses and nonprofits Johnson an academic who has also worked on campaigns alongside the likes of James Carville and pollster Paul Begala suffuses his history with the stories of the colorful characters who have come to define the profession of consulting from its beginning to the present More than just the story of the making of a political business Democracy for Hire s wide ranging history helps us to better understand the very contours of modern American politics

**Routledge Handbook of Sport and Politics** Alan Bairner, John Kelly, Jung Woo Lee, 2016-10-04 Sport is frequently considered to be an aspect of popular culture that is or should be untainted by the political. However, there is a broad consensus among academics that sport is often at the heart of the political and the political is often central to sport. From the 1936 Olympic Games in Nazi Germany to the civil unrest that preceded the 2014 World Cup in Brazil, sport and politics have remained symbiotic bedfellows. The Routledge Handbook of Sport and Politics goes further than any other book in surveying the complex embedded relationships between sport and politics. With sections addressing ideologies, nation and statehood, corporate politics, political activism, social justice, and the politics of sports events, it introduces the conceptual foundations that underpin our understanding of the sport-politics nexus and examines emergent issues in this field of study. Including in-depth case studies from North America, South America, Europe, the Middle East, Africa, and Asia, this is an essential reference for anybody with an interest in the social scientific study of sport.
