Routledge International Handbook on Narrative and Life History Ivor Goodson, Ari Antikainen, Pat Sikes, Molly Andrews, 2016-10-04 In recent decades there has been a substantial turn towards narrative and life history study. The embrace of narrative and life history work has accompanied the move to postmodernism and post structuralism across a wide range of disciplines: sociological studies, gender studies, cultural studies, social history, literary theory, and most recently psychology. Written by leading international scholars from the main contributing perspectives and disciplines, *The Routledge International Handbook on Narrative and Life History* seeks to capture the range and scope as well as the considerable complexity of the field of narrative study and life history work by situating these fields of study within the historical and contemporary context. Topics covered include: The historical emergences of life history and narrative study; Techniques for conducting life history and narrative study; Identity and politics; Generational history; Social and psycho-social approaches to narrative history. With chapters from expert contributors, this volume will prove a comprehensive and authoritative resource to students, researchers, and educators interested in narrative theory, analysis, and interpretation. **The Living History Anthology** Martha B. Katz-Hyman, Cliff Jones, Susan J. McCabe, Mary Seelhorst, 2018-12-07 The *Living History Anthology* brings together twenty-six practical essays on the craft of establishing and running living history museums. Contributions cover all aspects of developing and running a living history site. Including contributions on strategic planning, human resource management, research programs, collection policies, and engagement with varied audiences, including indigenous groups, the book demonstrates how to approach such tasks from a living history perspective. Topics unique to the sector, such as re-enactment, historic trade crafts, and working with machinery and livestock, are also covered. Each essay is briefly introduced and contextualized by the editors, while the collection is bookended by a new foreword and afterword from Debra A. Reid and an introduction from the editors. Representing the collective wisdom of the Association for Living History Farm and Agricultural Museums (ALHFAM) members across the decades, *The Living History Anthology* provides a valuable resource for all living history practitioners. It should also be of interest to students and scholars studying living history. Living History David B.
