Parker, 2021-03-11 Coercive Control provides a beacon for survivors of partner abuse Parker s nonjudgmental empathic voice offers knowledge gleaned from years of experience Survivors gain answers to frequently asked questions Am I being abused Why do they hurt me Why do I feel so crazy What can I change Why do they believe they should control us How do I recognize abuse of power How do I heal Each chapter contains illustrative vignettes and suggestions for reflection to assist readers in discovering what they want Coercive Relationships lifts the private shame survivors feel by connecting their abusers actions to societal values and beliefs that permit all forms of violence      *Not To People Like Us* Susan Weitzman, 2008-08-01 This important book brings the ignored population of abused upper income women to light revealing for the first time the depth and severity of upscale abuse How is it possible for a highly educated woman with a career and resources of her own to stay in a marriage with an abusive husband How can a man be considered a pillar of his community run a successful business and regularly give his wife a black eye That we can even ask these startling questions proves how convinced we are that domestic abuse is restricted to the lower classes In *Not to People Like Us* psychotherapist Susan Weitzman dramatically challenges this assumption It is the first book to explore a previously overlooked population of emotionally and physically battered wives the upper educated and upper income women who rarely report abuse and remain trapped by their own silence Weitzman draws on an in depth study to document the shocking nature and incidence of abuse among the wives of professors physicians and CEOs many of them professionals and executives themselves With keen insight and profound sensitivity she reveals the unique path taken by the upscale wife the early warning signs the dilemmas and decisions the dangerous desire to cover up and maintain appearances The first book to condemn the legal and social service system for failing to recognize domestic violence among upper income

families Not to People Like Us offers crucial information to help women find their way out of abusive relationships and toward safety and independence

**Women Escaping Violence** Elaine J. Lawless, 2013-03-07 The statistics are alarming Some say that once every nine minutes a woman in the United States is beaten by her spouse or partner Others claim that once every four minutes a woman in the world is beaten by her spouse or partner More women go to emergency rooms in the United States for injuries sustained at the hands of their spouses and partners than for all other injuries combined Shelters for battered women are filled beyond capacity every single day of the year Despite the overwhelming evidence that violence in our homes is a daily reality most of us are not willing to acknowledge this private violence or talk about it openly Women Escaping Violence brings women's stories to the attention of the academy as well as the reading public While we may be unwilling or unable to talk about the issue of battered women many of us are ready to read what women have to say about their endangered lives Considerable scholarship is emerging in the area of domestic violence including many self help books about how to identify and escape abuse Women Escaping Violence offers the unique view of battered women's stories told in their own words as well as a feminist analysis of how these women use the power of narrative to transform their sense of self and regain a place within the larger society Lawless shares with the reader the heart wrenching experiences of battered women who have escaped violence by fleeing to shelters with little more than a few items hastily shoved into a plastic bag and often with small children in tow The book includes women's stories as they are told and retold within the shelter in the presence of other battered women and of caregivers It analyzes the uses made of these narratives by those seeking to counsel battered women as well as by the women themselves

**War Is Not Over When It's Over** Ann Jones, 2010-09-14 From the renowned authority on domestic violence a startlingly original inquiry into the aftermath of wars and their impact on the least visible victims women In 2007 the International Rescue Committee which brings relief to countries in the wake of war wanted to understand what really happened to women in war zones Answers came through the point and click of a digital camera On behalf of the IRC Ann Jones spent two years traveling through Africa East Asia and the Middle East giving cameras to women who had no other means of telling the world what war had done to their lives The photography project which moved from Liberia to Syria and points in between quickly broadened to encompass the full

consequences of modern warfare for the most vulnerable Even after the definitive moments of military victory women and children remain blighted by injury and displacement and are the most affected by the destruction of communities and social institutions And along with peace often comes worsening violence against women both domestic and sexual Dramatic and compelling animated by the voices of brave and resourceful women War Is Not Over When It s Over shines a powerful light on a phenomenon that has long been cast in shadow      *Health Care Ethics* Beth Furlong,2018-01-16 Theory of health care ethics Principles of health care ethics The moral status of gametes and embryos storage and surrogacy The ethical challenges of the new reproductive technology Ethics and aging in America Healthcare ethics committees roles memberships structure and difficulties Ethics in the management of health information systems Technological advances in health care blessing or ethics nightmare Ethics and safe patient handling and mobility Spirituality and healthcare organizations A new era of health care the ethics of healthcare reform Health inequalities and health inequities The ethics of epidemics Ethics of disasters planning and response Domestic violence changing theory changing practice Looking toward the future      **SHELTERS FOR BATTERED WOMEN AND THEIR CHILDREN** Albert L. Adams,Josephine Donovan,1995-11-14 *Animals and Women* is a collection of pioneering essays that explores the theoretical connections between feminism and animal defense Offering a feminist perspective on the status of animals this unique volume argues persuasively that both the social construction and oppressions of women are inextricably connected to the ways in which we comprehend and abuse other species Furthermore it demonstrates that such a focus does not distract from the struggle for women s rights but rather contributes to it This wide ranging multidisciplinary anthology presents original material from scholars in a variety of fields as well as a rare early article by Virginia Woolf Exploring the leading edge of the species gender boundary it addresses such issues as the relationship between abortion rights and animal rights the connection between woman battering and animal abuse and the speciesist basis for much sexist language Also considered are the ways in which animals have been

regarded by science literature and the environmentalist movement A striking meditation on women and wolves is presented as is an examination of sexual harassment and the taxonomy of hunters and hunting Finally this compelling collection suggests that the subordination and degradation of women is a prototype for other forms of abuse and that to deny this connection is to participate in the continued mistreatment of animals and women The Shame Borne in Silence Rabbi Abraham J.
