**Stronghold** Tucker Malarkey, 2019-09-05 Stronghold is Tucker Malarkey s enthralling account of an unlikely visionary Guido Rahr and his crusade to protect the world s last bastion of wild salmon One of the most determined creatures on earth salmon have succeeded in returning from the sea to their birth rivers to spawn for hundreds of thousands of years no matter what the

obstacles But our steady incursions into their habitats mean increasingly few are making it pushing these fish to near extinction In this improbable and inspiring story we follow Guido on a wild and at times dangerous adventure from Oregon to Alaska and then to one of the world s last remaining wildernesses in the Russian Far East Along the way Guido contends with scientists conservationists Russian oligarchs and corrupt officials and befriends some unexpected allies in an attempt to secure a stronghold for the endangered salmon an extraordinary keystone of our ecosystem whose demise would reverberate across the planet This book is a remarkable work of natural history a clarion call for a sustainable future and a riveting insight into a fish whose future is closely linked to our own

the rise of professional ecological organizations the establishment of university faculties and the creation of government agencies advising on conservation natural resources and the prevention of pollution Like all sciences ecology continues to yield new findings and surprising revelations New technologies now address existential challenges facing our world This book documenting the rise of ecology is an inspiring history portending an important role in the twenty first century Key Features The author is the acknowledged authority on the history of ecology The content is familiar to members of the Ecological Society of America but has not previously been assembled into a single narrative Appropriate for a course in the history of ecology Provides a broad perspective on ecology Related Titles Egerton F N A Centennial History of the Ecological Society of America ISBN 978 0 3673 7763 2 Rieppel O Phylogenetic Systematics Haeckel to Hennig ISBN 978 0 3678 7645 6 Dronamraju K A Century of Geneticists Mutation to Medicine ISBN 978 1 4987 4866 7
