The Pursuit of History John

Tosh, 2021-08-11 This classic introduction to the study of history invites the reader to stand back and consider some of its most fundamental questions what is the point of studying history How do we know about the past Does an objective historical truth exist and can we ever access it In answering these central questions John Tosh argues that despite the impression of fragmentation created by Postmodernism in recent years history is a coherent discipline which still bears the imprint of its nineteenth century origins Consistently clear sighted he provides a lively and compelling guide to a complex and sometimes controversial subject while making his readers vividly aware of just how far our historical knowledge is conditioned by the character of the sources and the methods of the historians who work on them History does not stand still and this updated seventh edition deals with complex and wide ranging material in a clear and accessible way that is up to date with current historiographical trends A fuller treatment is given to the importance of digitization both in the section on source criticism and in relation to public history reflecting its growing importance within historical study Both the text and references have been expanded to include a fuller range of both American and global scholarship and the book concludes with a forthright reminder that historical perspective illuminates major problems in the present Lucid and engaging this edition retains the

user friendly features that make it a favourite with both students and lecturers including marginal glosses illustrations and suggestions for further reading Along with its companion website this is an essential guide to the theory and practice of history

argues that in aligning their tradition with the contemporary wellness industry Western Buddhists evade the consequences of Buddhist thought This book shows that with concepts such as vanishing nihility extinction contingency and no self Buddhism like all potent systems of thought articulates a notion of the real Raw unflinching acceptance of this real is held by Buddhism to be at the very core of human awakening Yet these preeminent human truths are universally shored up against in contemporary Buddhist practice contravening the very heart of Buddhism The author's critique of Western Buddhism is threefold It is immanent in emerging out of Buddhist thought but taking it beyond what it itself publicly concedes negative in employing the democratizing deconstructive methods of Fran ois Laruelle's non philosophy and re descriptive in applying Laruelle's concept of philofiction Through applying resources of Continental philosophy to Western Buddhism A Critique of Western Buddhism suggests a possible practice for our time an anthropotechnic or religion transposed from its seductive but misguiding idealist haven

Interview with

History Pamela J. Ray, James E. Files, 2007-09-19 looks behind the scenes at some of the most shocking and horrific things going on here in America starting with the daytime assassination of President John F Kennedy and the implications it serves up to the citizens of a free country. The author Pamela Ray along with James Files former CIA Mob hit man the infamous grassy knoll shooter explore the truths behind some basic questions still lingering decades after the JFK assassination. Why was President Kennedy killed? Who benefited? Who had the power to cover it up? And more specifically Did Lee Harvey Oswald spend time with James Files the week before November 22 1963? Why Did Files and Oswald have the same CIA controller David A Phillips? Was there a military and CIA presence in Dealey Plaza when the fatal shots were fired? What is the Military Industrial Complex and why were American citizens warned about it by President Eisenhower in his farewell address to the nation? Are some of the same players from 1963 involved in todays headlines? What does all this indicate? These questions and more will be looked at as Ray and Files discuss the events surrounding the fateful day in Dallas when a whole new form of government took over. During the course of Interview with History the authors delve into other related shadowy underworld subjects where it is hard to tell where Organized Crime stops and the CIA and other U S government agencies begin.

National Service Life Stories Peter Gurney, Matthew Grant, Joel Morley, 2025-01-25 National service was a defining feature for a generation of young men in post war Britain. Around 2.3 million of them were called up between the end of World War Two and 1963 when conscription ended. However national service was forgotten almost before it had ended a process aided subsequently by professional historians who have been reluctant to assess its longer term influence on British social and political history. Based on original oral interviews with well over one hundred men this book explores the ways in which compulsory military participation reverberated in the memories of interviewees long beyond the end of conscription and how these early military experiences shaped their later life stories. Unlike existing accounts that tend to rely on memoirs written by officers or else oral interviews that concentrate narrowly on the details of military service this study focusses instead on men from working class backgrounds and it situates national service in the context of the life course and the wider transformations that have occurred in British society since.
