New Criticism and Pedagogical Directions for Contemporary Black Women Writers LaToya Jefferson-James, 2022-03-03

New Criticism and Pedagogical Directions for Contemporary Black Women Writers is a collection of critical and pedagogical essays that shed new light on the creative depths of Black women writers. On the one hand, some Black women writers have been heavily anthologized; they have more often than not been restricted by critical metanarratives. Some of their works have been lionized while others remain neglected. On the other hand, some Black women writers have been ignored and understudied. This collection corrects the gaps in our critical thinking about Black women writers by introducing them to a new generation of undergraduate and graduate students and by presenting pedagogical essays to our colleagues currently working in the field.

Octavia E. Butler Mary Ellen Snodgrass, 2023-01-04 Slow to rise in the literary world, Octavia Estelle Butler cultivated musings on earth's future, reaching massive critical acclaim in the process. This companion will complement book club discussions and classroom lessons for the closest possible readings of Butler's science fiction and her texts on racism and pollution. A maven of speculative fiction so prescient that it hovers between tocsin and prophecy, Butler survives through her print stories, essays, novels, and musings on individualism and compromise. This book guides the reader on a variety of Butler pieces, from her most obscure titles to her historical entries and pieces that speculate upon science, metaphysics, linguistics, psychology, writing, and religion. The text serves as a guide through the depths of Octavia Butler's works and reinforces the reasons for which her name so often appears on reading lists for higher learning.

Our Mothers, Our Powers, Our Texts Teresa N. Washington, 2005-06-27 Washington writes supple and thoughtful prose and creatively integrates African and African-derived terminology which never distracts the reader. I consider *Our Mothers, Our Powers, Our Texts* not only a brilliant study but also a model to be emulated. Ouseyounou B. Traore, William Patterson University. *j* is a Yoruba word that signifies a spiritual power of vast potential as well as the human beings who exercise that power. Although both men and women can have *j*, its owners and controllers are women, the literal and cosmic Mothers who are revered as the gods of society. Because of its association with female power, its invisibility and profundity, *j* is often misconstrued as witchcraft. However, as Teresa N. Washington points out in *Our Mothers, Our Powers, Our Texts*, *j* is central to the Yoruba ethos and cosmology. Not only does it underpin the concepts of creation and creativity but, as a force of justice and retribution, *j* is essential to social harmony and balance. As Africans were forced into exile and enslavement, they took *j* with them and continued its work of creating, destroying, harming, and healing in the New World. Washington seeks out *j*'s subversive power of creation and re-creation in a diverse range of African texts, from both men and women, from both oral and contemporary literature and across space and time. She guides readers to an understanding of the symbolic, methodological, and spiritual issues that are central to important works by African writers but are rarely elucidated by Western criticism. She begins with an examination of the ancient forms of *j* in Yoruba culture, which creates a framework for innovative readings of important

works by Africana writers including Zora Neale Hurston Toni Morrison Ben Okri Wole Soyinka Jamaica Kincaid and Ntozake Shange This rich analysis will appeal to readers of Africana literature African religion and philosophy feminist studies and comparative literature

Armstrong,1996-12 Most human bodies have two arms two legs hands feet a head Yet the body as we perceive it is ultimately a cultural construct defined by the values and meanings each individual and each culture ascribes to it Beyond its corporeal realities the implications of the body how we adorn alter heal and please it are potentially endless limited only by the manner in which we frame it Revealing how the human body has served as as metaphor for social process the anthology unveils the body as intrinsically configured by politics gender racial categories fears of pollution and commercial forces which exploit and regulate it Historical snapshots of American bodies over the past two and a half centuries the essays in this volume cover such diverse subjects as sailor tattoos maritime cannibalism in the early 1800 s birth control rest cures for neurasthenia and more recently anorexia boxing cyberpunk and plastic surgery Drawing from history literary and cultural studies and film studies *American Bodies* is an eclectic stimulating collection that will challenge many fundamental beliefs about our physical form **Psience Fiction** Damien Broderick,2018-05-12 Science fiction has often been considered the literature of futuristic technology fantastic warfare among the stars or ruinous apocalypses on Earth The last century however saw through John W

Campbell the introduction of psience fiction which explores such themes of mental powers as telepathy precognition of the future teleportation etc and symbolic machines that react to such forces The author surveys this long ignored literary shift through a series of influential novels and short stories published between the 1930s and the present This discussion is framed by the sudden surge of interest in parapsychology and its absorption not only into the SF genre but also into the real world through military experiments such as the Star Gate Program **Dawn** Octavia E. Butler** Gregory J.

Hampton, Kendra R. Parker, 2020-02-20 Octavia E Butler is widely recognized today as one of the most important figures in contemporary science fiction Bringing together leading and emerging scholars and covering Butler's complete works from the bestselling novel *Kindred* to her short stories and major novel sequences *Patternmaster* *Xenogenesis* and *The Parables* this is the most comprehensive Companion to Butler scholarship available today *The Bloomsbury Handbook to Octavia E Butler* covers the full range of contemporary scholarly themes and approaches to the author's work including Cyborgs and the posthuman Race and African American history Afrofuturism Gender and sexuality New perspectives from Religious Studies the Environmental Humanities and Disability Studies New discoveries from the Butler archives at the Huntington Library The book includes a comprehensive bibliography of works by Butler and secondary scholarship on her work as well as an afterword by the novelist Tananarive Due *Contemporary African American Fiction* Robert Butler, 1998 The book

argues that from its very beginnings African American journey narratives are distinctively non teleological that is they typically resist being directed toward an end point in a particular place and instead exult in movement through indefinite space They view movement as intrinsically valuable a process of endless becoming rather than a carefully mapped journey resulting in a completed state of being rooted in a fixed place As such these journeys are a compelling metaphor of the American desire for the new life consisting of unlimited personal development The writers examined in this book offer a unique set of variations on this kind of open journey *Black Female Vampires in African American Women's Novels, 1977-2011* Kendra R. Parker, 2018-11-09 This book critically situates the figure of the black female vampire in several fields of study including literary studies cultural studies gender studies and critical race studies Black female vampires continue to appear as important literary devices and revealing indicators of cultural attitudes and trends about African American women

s bodies This book examines five novels written by four African American women writers to investigate what it means to represent African American womanhood through the lens of vampirism interrogate how these representations connect to or stem from historical representations of African American women and explore how representations of black female vampires in African American women s literature simultaneously negate reinforce or dismantle stereotypes of African American women

African American Literature Beyond Race Gene Andrew Jarrett, 2006-04 An anthology of 16 stories and excerpts from novels by African American writers includes critical essays on each author by a variety of scholars *Of Modern Dragons; and other essays on Genre Fiction*: John Lennard, 2016-10-09 A volume of essays exploring some of the best genre fiction of the last 40 years
