Word-of-Mouth: Influences on the choice of Recommendation Sources Klaus Schöfer, 2001-05-16 Inhaltsangabe Abstract The idea of understanding consumer behaviour as a sequential decision making process is one that is common in marketing The decision making process itself is presented as a logical flow of activities working from problem recognition to purchase to post purchase evaluation This decision making process is affected by a number of other more complex influences Some of these influences relate to the wider environment in which the decision is being made while others relate to the individual who makes the decision In this context one of the most widely accepted notions in consumer behavior is that word of mouth communication hereafter WOM plays an important role in shaping consumers attitudes and behaviors More specifically WOM communications between consumers are a topic of interest in both the pre purchase and post purchase decision making literature Research into the diffusion of innovations has focused on modelling the role of WOM in product adoption at various stages of the diffusion process WOM has also been studied as a mechanism through which consumers convey both informational and normative influences in the product evaluation Finally WOM has been identified as an important post purchase complaining option Although WOM plays an important role in consumer pre purchase and post purchase decision making research into this phenomenon has been fragmented Importantly relatively little attention has been directed at understanding key issues with respect to WOM recommendation sources and the factors that influence their use The aim of the present work is to add to this small body of empirical research The main part of this paper is divided into two chapters Chapter 2 that follows an introduction to the work is a theoretical one It is a review of the literature on consumer decision making and the individual and environmental influences on it Emphasis is being placed on WOM communication and its role in understanding consumer behaviour Chapter 3 focuses on the choice of WOM recommendation

sources Empirical research is presented which explores the influences on the choice over WOM recommendation sources
