The Oxford Handbook of American Women's and Gender History

Ellen Hartigan-O'Connor, Lisa G. Materson, 2018-09-04 From the first European encounters with Native American women to today's crisis of sexual assault The Oxford Handbook of American Women's and Gender History boldly interprets the diverse history of women and how ideas about gender shaped their access to political and cultural power in North America Over twenty nine chapters this handbook illustrates how women's and gender history can shape how we view the past looking at how gender influenced people's lives as they participated in migration colonialism trade warfare artistic production and community building Theoretically cutting edge each chapter is alive with colorful historical characters from young Chicanas transforming urban culture to free women of color forging abolitionist doctrines Asian migrant women defending the legitimacy of their marriages and transwomen fleeing incarceration Together their lives constitute the history of a continent Leading scholars across multiple generations demonstrate the power of innovative research to excavate a history hidden in plain sight Scrutinizing silences in the historical record from the inattention to enslaved women's opinions to the suppression of Indian women's involvement in border diplomacy the authors challenge the nature of historical evidence and remap what counts in our interpretation of the past Together and separately these essays offer readers a deep understanding of the variety and centrality of women's lives to all dimensions of the American past even as they show that the boundaries of women American and history have shifted across the centuries

Women's Rights in Islam Asmaa Shehata, 2023-11-20 The issue of Muslim women's rights never seems outdated and has become trendy in the post 9 11 environment That is the mainstream media and Western politicians often view Muslim women as victims of male patriarchy and frequently justify Western involvement in the Middle East and in other Muslim majority countries at least in part to rescue women Within this realm Nawal El Saadawi is a famous Egyptian writer whose writings focus on the struggle of Muslim women and are widely read in the Middle East and many Western societies as well Because of her bold feminist views on politics religions and gender she is described as the Simone de Beauvoir of the Arab world After the death of El Saadawi in 2021 a flurry of arguments and criticism in the Egyptian press and women's press around the world is created in which different social media platforms were filled with numerous comments and discussions of her writings and arguments Whereas some mourned El Saadawi and her dedication to women's issues others celebrated her death wishing her the worst punishment in the afterlife for what they described as her destructive thoughts This monograph genuinely analyzes her views on five controversial issues marriage polygamy divorce inheritance rights and veiling in light of Qur'anic exegeses offered by two classical scholars i.e. Muhammad ibn Jarir Al Tabari and Ismail ibn Umar Ibn Kathir and two contemporary Muslim feminists i.e. Amina Wadud and Azizah Al Hibri By taking a critical look at her views the book contributes not only to this ongoing debate but adds value to assessing El Saadawi's work and helps readers gain a greater understanding of her writings as well It also enables readers to comprehend the current tension between feminism and Islam by understanding the

perspectives of both sides Since El Saadawi s writings are available in the Western countries the book would appeal to academics researchers on Islam and gender and Middle Eastern women as well as to lay audiences interested in women and gender in Muslim societies

The Woman Question in Islamic Studies Kecia Ali,2024-09-17 The interconnected ways that sexism functions in academic Islamic studies and how to shift professional norms toward parity Despite remarkable shifts in the demographics of Islamic studies in recent decades the field continues to be dominated by men who often relegate other scholars and their work particularly research on gender to its periphery while treating subfields in which men predominate as more rigorous and central In *The Woman Question in Islamic Studies* Kecia Ali explores the interconnected ways that sexism functions in academic Islamic studies Examining publications citations curricula and media representations Ali finds that despite the growth and depth of scholarship on Islam and gender men continue to overlook women s scholarship even in work that purports to discuss gender issues Moreover media and social media dynamics make talking about Islam and Muslims for broader audiences especially fraught for scholars who are not men particularly when the topic is gender or sexuality Combining broad surveys with more focused analyses of a smaller set of texts Ali shows that textbooks and syllabi continue to exclude women as historical actors and scholars and to marginalize gender and sexuality as subject matter Finally she provides a Beginner s Guide to Eradicating Sexism in Islamic Studies offering practical strategies to help scholars avoid common pitfalls in their own work and contribute to broader professional transformations

Wiesner-Hanks,2011-06-24 **GENDER IN HISTORY** Praise for the first edition Wiesner Hanks accomplishes a near impossible feat a review of what is known about the construction of gender and the character of women s lives in all known cultures over the course of human history Theoretically sophisticated and doing justice to the historical and cross cultural record yet assimilable by students *Choice* *Gender in History* brilliantly explores the influence of gender constructs in political social economic and cultural affairs The remarkable cultural geographical and chronological range of Wiesner Hanks research is matched only by the sophistication nuance and clarity of her analysis This book offers a rare and valuable global perspective on gender roles in human history Jerry H Bentley University of Hawaii Over the past two decades considerations of gender have revolutionized the study of history Yet most books on the subject remain narrowly focused on a specific time period or particular region of the world *Gender in History Global Perspectives Second Edition* continues to redress this inequity by providing a concise overview of the construction of gender in many world cultures over a period stretching from the Paleolithic era to modern times Thoroughly updated to reflect current developments in the field the new edition features entirely new sections which address primates slavery colonialism masculinity transgender issues and other relevant topics As in the well received first edition material is presented thematically to reveal the connections between gender and structures such as the family economy law religion sexuality and the state Wiesner Hanks also investigates precisely what it meant to be a man or woman throughout history how these roles were shaped by various institutions and how they in turn were

influenced by gender The author presents material within each chapter chronologically to highlight the ways in which gender structures have varied over time The new edition of Gender in History Global Perspectives offers rich insights into all that is currently known about gender roles throughout world history A companion website is available at www.wiley.com/go/wiesnerhanks Yalla, Feminismus! Diah Ariani Arimbi, 2009 A study that discusses the construction of gender and Islamic identities in literary writing by four prominent Indonesian Muslim women writers Titis Basino P I Ratna Indraswari Ibrahim Abidah El Kaliegy and Helvy Tiana Rosa *Feminism and Islam* Mai Yamani, Andrew Allen, 1996-12 In an age when Western feminism is continuously undergoing redefinition the struggles of women in Muslim countries are often overlooked This volume illustrates how women in Islamic societies have become more actively involved not only in learning their rights under the sharia Islamic law but in rereading this law to improve their status and gain increased equality and freedom Surveying Iran Saudi Arabia Lebanon Egypt and Arab societies in general Feminism and Islam brings together renowned women researchers and academics historians political scientists lawyers sociologists social anthropologists and literary critics to examine the phenomenon of feminism within the Islamic cultural framework Introducing a feminism which is Islamic in its form and context the essays focus on such subjects as crimes of honor and the construction of gender in Arab societies law and the desire for social control women and entrepreneurship family legislation and the political strategies of feminists in the Islamic world Back cover *Demystifying Shariah* Sumbul Ali-Karamali, 2020-08-11 A direct counterpoint to fear mongering headlines about shariah law a Muslim American legal expert tells the real story eliminating stereotypes and assumptions with compassion irony and humor Through scare tactics and deliberate misinformation campaigns anti Muslim propagandists insist wrongly that shariah is a draconian and oppressive Islamic law that all Muslims must abide by They circulate horror

stories encouraging Americans to fear the takeover of shariah law in America and even mounting anti shariah protests with zero evidence that shariah has taken over any part of our country That s because it hasn t It would be almost funny if it weren t so terrifyingly wrong as puzzling as if Americans suddenly began protesting the Martian occupation of Earth Demystifying Shariah explains that shariah is not one set of punitive rules or even law the way we think of law rigid and enforceable but religious rules and recommendations that provide Muslims with guidance in various aspects of life Sumbul Ali Karamali draws on scholarship and her degree in Islamic law to explain shariah in an accessible engaging narrative style its various meanings how it developed and how the shariah based legal system operated for over a thousand years She explains what shariah means not only in the abstract but in the daily lives of Muslims She discusses modern calls for shariah what they mean and whether shariah is the law of the land anywhere in the world She also describes the key lies and misunderstandings about shariah circulating in our public discourse and why so many of them are nonsensical This engaging guide is intended to introduce you to the basic principles goals and general development of shariah and to answer questions like How do Muslims engage with shariah What does shariah have to do with our Constitution What does shariah have to do with the way the world looks like today And why do we all Muslims or not need to care

Advancing the Legal Status of Women in Islamic Law Mona Samadi, 2021-05-25 Mona Samadi examines the sources of gender differences within the Islamic legal tradition and describes how Islamic law entitles individuals to justice according to their status abilities and potential In the case of men and women s capabilities the underlying principle is that they are entitled to the same rights as long as their capabilities are the same In the legal construction of women s status women have been prescribed lacking the same abilities and capabilities as men As such their status and rights differ justifying men to be the maintainers of women By presenting the historical development of women s status and how women s legal status is debated in contemporary Muslim societies Mona Samadi convincingly provides various methods for facilitating change within the Islamic legal theory framework
