Work Effectively in a Business Environment Elizabeth Haverfield, 2015-10-01 Work and Employment in a Changing Business Environment Stephen Taylor, Graham Perkins, 2021-06-03

Work and Employment in a Changing Business Environment is the definitive textbook for the new CIPD Advanced Level 7 module. It provides students with an understanding of the major contemporary trends in the HR business environment and discussion of significant areas of HR and Learning and Development (L & D) activity that derive from or are given additional prominence as a result of environmental developments. It provides students with an understanding of ways in which major long term environmental developments affect employment work and people management in organizations as well as a thorough grounding in current and short term developments in the people management environment. These areas include globalisation, technology, the economy, labour markets, society, politics, public policy and employment regulation. This book also includes expert coverage of how change, innovation and creativity can promote improvements in organisational productivity. Most importantly, this brand new textbook covers the key elements that students on HR masters courses will need in their future careers, including flexibility, agility and resilience, productivity, ethics and values, sustainability, equality, diversity and inclusion, wellbeing and working internationally. Case studies and examples demonstrate how the theory applies in practice and pause and review boxes will help students think critically about the content. Work and Employment in a Changing Business Environment is ideal reading for all postgraduate students on both CIPD and non CIPD accredited courses. Online supporting resources include powerpoint slides for every chapter.
