

A close-up, cinematic shot of a man's face, likely from a video game. He has dark hair, a high forehead, and a serious, intense expression. His eyes are looking directly at the camera. He is wearing a dark red or maroon jacket. The background is a blurred city street at night, with warm lights from buildings and street lamps. Overlaid on the image in a white, hand-painted, distressed font is the text "PRIDE AND DESPAIR".

Yakuza Pride H.J. Brues,2011-06-13 When yakuza underboss Shigure Matsunaga meets Kenneth Harris at a boring social event he s surprised to find himself attracted to the blond gaijin with the mismatched eyes Shigure is even more pleased when he discovers Ken not only speaks Japanese fluently but is fluent in Japan s ways even the more violent of the martial arts Ken s expertise at kendo is not his most striking quality it s the passion beneath his quiet almost fragile exterior that ignites Shigure s lust and the two come together as explosively as they spar Shigure is a dangerous man in a dangerous position He s been trying to keep the peace with the Daito kai his hated rivals but the danger on the streets is escalating threatening those Shigure most wants to protect He may claim to love his gaijin but before he can keep Ken safe Shigure will have to overcome hostility from his people a hidden enemy and the most insidious opponent of all his own hard won pride

Martial Arts and the Quest for Legitimacy Mark S. Williams,2018-03-27 Mixed martial arts or MMA is widely regarded as the fastest growing sport Events fill stadiums around the world and draw vast television audiences earning strong revenue through pay per view at a time when other sports have abandoned it In 2016 the Ultimate Fighting Championship was bought by the massive talent agency WME IMG for 4 billion Despite this success much of the public remains uneasy with the sport which critics have denounced as human cockfighting Through an exploration of violence class gender race and nationalism the author finds that MMA is both an expression of the positive values of martial arts and a spectacle defined by narcissism hate and patriarchy The long term success of MMA will depend on the ability of promoters and athletes to resist indulging in spectacle at the expense of sport **Ali vs. Inoki** Josh Gross,2016-06-09 Named one of the 40 Best Books of

Antonio Inoki for the so called martial arts championship of the world Broadcast from Tokyo to a potential audience of 1.4 billion in 34 countries the spectacle foreshadowed and in many ways led to the rise of mixed martial arts as a major sport The unique contest was controversial and panned by wrestling and boxing supporters alike but the real action was behind the scenes Egos competing interests and a general sense of apprehension over what would happen in the ring led to hodgepodge rules thrown together at the last minute Bizarre plans to save Ali if the fight got out of hand were even concocted In Ali vs Inoki author Josh Gross gets inside Ali's head leading up to the match by resurrecting pre fight interviews Gross also introduces us to Inoki the most famous face in Japan who was instrumental in shaping modern mixed martial arts

with them The author who was reared and educated in Japan is uniquely qualified to interpret the value orientations of a society in which suicide is all too common He finds that the traits leading to homogeneity and extreme adaptability in that society as a whole are the very traits that can produce painful reactions in the individual Those traits are described as monism groupism authoritarianism familism and accommodationism and together they comprise the Japanese social character Because the individual's behavior is based on the images assumptions and ideas about the world that make up his or her culture conformism in the individual is one major manifestation of Japan's social character In Japan the need to fill one's socially prescribed role may make it doubly difficult to think independently and creatively and to find solutions for the resulting stress Suicide notes and other personal documents reveal the painful cost of modern Japan's success story as the examination of individual suicides is related both to the theoretical framework of Durkheim's types of suicide and to the sociological patterns that characterize suicide in Japan It is in personal value orientations however that Iga finds the common ground between suicide and economic success American readers will find especially interesting the contrast between value orientations in Japan and in the United States Nearly the opposite of the Japanese traits described above American values of rationalism individualism competition and change create their own problems There is much to be learned from this expert analysis of the problem of suicide in Japan This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1986 **Jason Station** Aelan Arneaud, 2007
