The Spirit Moves West Rebecca Y. Kim, 2015-01-02 With the extraordinary growth of Christianity in the global south has come the rise of reverse missions in which countries in Asia Africa and Latin America send missionaries to re evangelize the West In The Spirit Moves West Rebecca Kim uses South Korea as a case study of how non Western missionaries target Americans particularly white Americans She draws on four years of interviews participant observation and surveys of South Korea's largest non denominational missionary sending agency University Bible Fellowship in order to provide an inside look at this growing phenomenon Known as the Asian Protestant Superpower South Korea is second only to the United States in the number of missionaries it sends abroad approximately 22 000 in over 160 countries Conducting her research both in the US and in South Korea Kim studies the motivations and methods of these Korean evangelicals who have since the 1970s sought to bring the gospel back to America By offering the first empirically grounded examination of this much discussed phenomenon Kim explores what non Western missions will mean to the future of Christianity in America and around the world The Death and Resurrection of the Church Rustin E. Brian, 2021-02-25 The church as we know it in North America is dying Statistics make this overwhelmingly clear And yet despite this observation the church remains a resurrection people How might these seemingly contradictory observations hold true Taking a cue from Romans 5 Rustin Brian suggests that resurrection necessarily implies death The church is called to follow Christ This is a call to come and die The Christian affirmation is that death is not truly the end though but rather the beginning of new and unending life in him And so the first statement must be tempered by stating that the church is going through death on the way to resurrection This book is truly one of two halves then The first half examines the present death of the church The second half examines the possibility of resurrection for the church Throughout key factors for decline are considered such as poor and destructive evangelistic practices civil religion moral therapeutic deism and consumerism In the end Brian suggests that the church embrace its peculiarity the things that make us dare it be said a religion As we embrace our strange beliefs therefore and discontinue our obsession with growth and relevance we just might discover the possibility for renewed and resurrected faith amidst the The Secular Northwest Tina Block, 2016-07-22 The image of a rough frontier where death that we are experiencing working men were tempted away from church on Sundays by more profane concerns was perpetuated by postwar church leaders who decried the decline of religious involvement In this pioneering book Tina Block debunks the myth of a godless frontier revealing a Pacific Northwest that consciously rejected the trappings of organized religion but not necessarily spirituality and not necessarily God Secularism was not only the domain of the working man women families and middle class communities all helped to shape the region s secular identity But rejection of religion led to family gender and class tensions Drawing on oral histories census data newspapers and archival sources Block explores the dynamics of Northwest secularity grounded in the cultural permeability of the Canada United States border the independent spirit of those who called the

Beaman, Steven Tomlins, 2014-12-04 The essays in this book not only examine the variety of atheist expression and experience in the Western context they also explore how local national and international settings may contribute to the shaping of atheist identities By addressing identity at these different levels the book explores how individuals construct their own atheist or non religious identity how they construct community and how identity factors into atheist interaction at the social or institutional levels. The book offers an interdisciplinary comparative approach to the analysis of issues relating to atheism such as demography community engagement gender politics stigmatism and legal action It covers such themes as secularization the social context of atheism in various Western countries the shifting of atheist identities based on different cultural and national contexts the role of atheism in multicultural settings how the framework of reasonable accommodation applies to atheism interactions and relationships between atheism and religion and how atheism is represented for political and legal purposes Featuring contributions by international scholars at the cutting edge of atheism studies this volume offers unique insights into the relationship between atheism and identity It will serve as a useful resource for academics journalists policy makers and general readers interested in secular and religious studies identity construction and identity politics as well as atheism in general Lost in Canada? ,1979 Wilderness Area United States. as a positive sum game in which countries and businesses benefit from building ties across geographic space rather than the zero sum game implied by the global war for talent and brain drain metaphors The book empirically demonstrates its thesis by examination of the case of Korea a state archetypical of those that have been embracing economic globalization while facing a demographic crisis and one where the dominant narrative on the recruitment of skilled foreigners is largely negative It reveals the unique benefits that foreign students and professionals can provide to Korea by enhancing Korean firms competitiveness in the global marketplace and by generating new jobs for Korean citizens rather than taking them away As this research and its key findings are relevant to other advanced societies that seek to utilize skilled foreigners for economic development the arguments made in this book offer insights that extend well beyond the Korean experience The Living Church .1954 Hearings United States.
