Who Standard Acupuncture Point Locations:

WHO Standard Acupuncture Point Locations in the Western Pacific Region, 2008-06-05 Acupuncture has been practiced for more than 2500 years in the Western Pacific region and has become a global therapeutic method in recent decades. However, it was reported that acupuncturists differed by up to 25% in the acupuncture points they used, raising doubts and uncertainty regarding the efficacy and safety of acupuncture treatment as well as causing difficulties in the fields of acupuncture research and education. Member States therefore increasingly began to demand standardization in acupuncture point locations. Responding to this request, the WHO Western Pacific Regional Office initiated a project to reach consensus on acupuncture point locations and thus convened 11 serial meetings resulting in these guidelines. This Standard acupuncture point locations in the Western Pacific Region stipulates the methodology for locating acupuncture points on the surface of the human body as well as the locations of 361 acupuncture points. The Standard is applicable for teaching, research, clinical service, publication, and academic exchanges involving acupuncture.

The Principles and Practical Application of Acupuncture Point Combinations David Hartmann, 2019-09-19 A foundation textbook explaining how point combinations work in acupuncture practice. The book explains how each point works and how best to combine points for good clinical results. Students and practitioners need to respond to clinical challenges in creative and flexible ways, and this book guides them in the art of construction of effective treatment protocols. Clinically useful combinations are presented throughout along with case studies showing the application of theory to practice.

Acupuncture - Basic Research and Clinical Application Gerhard Litscher, 2018-10-09 This book is a printed edition of the Special Issue Acupuncture Basic Research and Clinical Application that was published in *Medicines*.

Integrating East Asian Medicine into Contemporary Healthcare
E-Book Volker Scheid, Hugh MacPherson, 2011-10-24 Traditional East Asian healthcare systems have moved rapidly from the fringes of healthcare systems in the West towards the centre over the past 50 years. This change of status for traditional medicines presents their practitioners with both opportunities and challenges as the focus shifts from one of opposition towards one of integration into biomedically dominated healthcare systems. Integrating East Asian Medicine into Contemporary Healthcare examines the opportunities and challenges of integrating East Asian medicine into Western healthcare systems from an interdisciplinary perspective. Volker Scheid and Hugh MacPherson bring together contributions from acknowledged experts from a number of different disciplines including clinical researchers, Chinese Medicine practitioners, historians, medical anthropologists, experts in the social studies of science, technology, and medicine to examine and debate the impact of the evidence-based medicine movement on the ongoing modernization of East Asian medicines. The book considers the following questions: What are the values, goals, and ethics implicit within traditional East Asian medical practices? What claims to effectiveness and safety are made by East Asian medical practices? What is at stake in subjecting these medical practices to biomedical models of evaluation? What constitutes best practice? How is it to be defined and

measured What are the ideologies and politics behind the process of integration of East Asian medical practices into modern health care systems What can we learn from a variety of models of integration into contemporary healthcare *Acupuncture in Modern Medicine* Lucy L Chen,Tsung O. Cheng,2013-03-06 This book contains four integrated sections 1 Acupuncture Research 2 New Developments in Acupuncture 3 Acupuncture Therapy for Clinical Conditions and 4 Assessment and Accessibility in Acupuncture Therapy Section 1 provides updates on acupuncture research From acupuncture effects in modulation of immune system to the role of nitric oxide in acupuncture mechanisms chapters in this section offer readers the newest trends in acupuncture research Section 2 summarizes new developments in acupuncture The included chapters discuss new tools and methods in acupuncture such as laser acupuncture sham needles and new technologies Section 3 discusses acupuncture therapy for clinical conditions The chapters in this section provide comprehensive and critical views of acupuncture therapy and its application in common clinical practice Section 4 takes a new look at the issues related to assessment and accessibility in acupuncture therapy These issues are central to developing new standards for outcome assessment and policies that will increase the accessibility to acupuncture therapy **When Traditional Medicine Met the World Health Organization** Seung Hoon Choi,2025-02-05 Originating from ancient Chinese medicine Traditional East Asian Medicine TEAM has a history spanning more than two thousand years TEAM gained global recognition in the early 21st century with its inclusion in the World Health Organization s International Classification of Diseases 11th Revision ICD 11 This achievement is one result of the standardization efforts promoted by the author during a five year tenure as a Regional Adviser at WHO WPRO from 2003 At that time the standardization of TEAM encompassed standard terminology acupuncture point locations diagnostic classifications and clinical practice guidelines These initiatives have revolutionized TEAM This book provides a vivid account of the process presented as a journal **WHO benchmarks for the practice of acupuncture** ,2021-04-19 With the increasing use of acupuncture in clinical settings worldwide there is a need to develop benchmarks for the practice of acupuncture against which actual acupuncture treatment can be compared and evaluated This document presents a stepwise guidance for the administration of acupuncture treatment provides the minimum infrastructure requirements for delivering an acupuncture service and emphasizes the key elements for the safe practice of acupuncture This document offers a useful reference point to evaluate acupuncture practice which will benefit policymakers health workers education providers and the public in general It forms an integral part of the updated benchmark series targeting key modalities of traditional medicine intervention and contributing to the establishment of a reference toolkit for countries The Burden of Stress and Depression – New Insight Into Faster and Efficient Treatment Ravid Doron,Gang Chen,Matthew O. Parker,Alon Shamir,2022-09-19 Acupuncture in Neurological Conditions Val Hopwood,Clare Donnellan,2010-07-23 Written by two leading experts in the field Acupuncture in Neurological Conditions aims to improve patient care by combining Western and Traditional Chinese Medicine TCM concepts of treatment The language of TCM is

uniquely combined with that of evidence based clinical reasoning to provide an approach relevant to both acupuncture and physiotherapy clinical practice All major types of neurological conditions encountered in clinical practice are examined Chinese medical patterns relevant to the application of acupuncture are described as well as key patterns of dysfunction based on a Western medical perspective The place of acupuncture within the overall management of different neurological conditions is also discussed Clinical reasoning options from both TCM and Western medical perspectives are provided and illustrated by real cases from clinical practice forming a sound platform for true integrated medicine Fully evidence based Provides clinical reasoning options from TCM and Western medical perspectives Illustrates clinical reasoning with real cases from clinical practice Provides detailed examination of all major types of neurological conditions encountered in clinical practice

Application and Evaluation of Acupuncture in the Treatment of Neurological Diseases Liming Lu, Nenggui Xu, Myeong Soo Lee, Chunzhi Tang, Yong Tang, Bing Zhu, 2023-06-21 Neurological disorders such as Alzheimer's disease and Parkinson's disease are an important cause of disability and death worldwide and pose a serious burden on the global health system over the past 30 years Acupuncture as the most widely used traditional Chinese medicine therapy in the world has been widely used in 183 countries and regions Acupuncture can treat more than 300 kinds of diseases especially for neurological diseases Due to the unique advantages of acupuncture such as good therapeutic effect and low side effects many researchers have conducted extensive clinical studies on the effectiveness and safety of acupuncture in the treatment of neurological diseases laying a foundation for the practicability and scientific vigor of this complementary and alternative therapeutic approach There are still many problems unanswered in the current clinical research on acupuncture for the treatment of neurological diseases First of all clinical research is lagging behind due to the lack of emphasis on modern advanced methods and analytical techniques e.g. artificial intelligence omics analysis bioinformatics analysis data mining and multidisciplinary integration process Secondly the quality of reports on most clinical studies of acupuncture treatment for neurological diseases is extremely low Most clinical studies have not adopted standardized methodological evaluations authoritative disease diagnosis standards and efficacy evaluation standards The lack of compliance regulations and strict study design reduces the accuracy and authenticity of the research Thirdly there is a lack of integrated assessment of the distribution of evidence for acupuncture treatment of neurological diseases Therefore strictly designed clinical research and in depth and systematic analysis method are currently needed to provide high quality evidence for acupuncture treatment of neurological diseases In this Research Topic we hope to further understand the role of acupuncture in the treatment of neurological diseases through clinical research and secondary research The range of acupuncture includes manual acupuncture electro acupuncture body needling auricular acupuncture scalp acupuncture laser acupuncture and acupressure etc Neurological diseases include stroke meningitis encephalitis tetanus Alzheimer's disease and other dementias Parkinson's disease epilepsy multiple sclerosis motor neurone disease migraine tense type headaches headaches from drug overuse and

An Overview Of Traditional Chinese Medicine Research Chun-su Yuan, 2024-07-09. For over 3,000 years, traditional Chinese medicine (TCM) has made great contributions to the health and well-being of Chinese people. The practice of TCM has also been adapted in many Asian countries for centuries. Nowadays in China, along with Western medicine, TCM is well integrated in the Chinese healthcare system as one of two mainstream medical practices. In the past several decades, the fast economic growth of China has not only promoted the use of TCM beyond Chinese-speaking countries but also inspired researchers to perform modern scientific research on TCM for disease treatment and health maintenance. The American Journal of Chinese Medicine (AJCM) is the oldest complementary and integrative medical journal in the U.S. In this book, the most read and influential research studies published in the AJCM in recent years were selected and organized in five sections.
