This document is a result of efforts and collaborations of a large group of people and is the amalgamation of two previous documents along with some original prose. The two documents that serve as the basis of this work are a pest management strategic plan developed through a grant to P. Knight (Mississippi State) and Charles Gilliam (Auburn) and a crop profile on the production of evergreen trees produced by R. Mizell and G. Knox for EPA. We have elected to alphabetize the contributors following the first four authors of the two main documents. Other contributions consisted of reviewing and editing of the document for which S. Arthers, E. Buss, D. Held, J. C. Horng and W. Klingemen deserve special thanks. The rest of the authors in the alphabetized list contributed by attending and participating in the planning meetings held in November of 2009. This effort was partially funded by a competitive grant from the USDA-SCRI program to Mizell, Knox, Funderburk, Hale, Klingemen, Mansion and Norcini.
