dringende Warnung an alle demokratischen Staaten die sich im Prozess einer zunehmenden gesellschaftlichen Spaltung befinden     *Mastering Community* Christine Porath,2022-03-08 From the author of Mastering Civility a thoroughly researched exploration of the impact and importance of building thriving communities with actionable steps on how to create them in your work and broader life In her powerful new book Christine Porath explores how the rise of technology and modern workplace practices have fractured our communications yet left us always on digitally Through now common practices like hot desking and remote work even without the added isolation of social distancing we experienced during the pandemic our human interactions have decreased and so too have our happiness levels This lack of a human factor is sparking a crisis in mental health that will have repercussions for years to come leaving people lonelier and making the bottom line suffer too What Christine has discovered in her research is that leaders organizations and managers of all stripes may recognize there is a cost but have no idea as to implement the cure Community With her signature depth and grasp of research across myriad industries including business healthcare hospitality and sports Christine extrapolates from the statistics on the experiences of hundreds of thousands of people across six continents to show us the potential for change

Through sharing information about the community empowering decision making discretion and autonomy creating a respectful environment offering feedback providing a sense of meaning and boosting member well being anyone can help a community truly flourish The applications are endless the stories are positive and uplifting and will inspire the reader to establish and grow their community be it in the workplace or the PTA and make it thrive     **The Good Enough Job** Simone Stolzoff,2023-05-23 Superb Oliver Burkeman A challenge to the tyranny of work and a call to reclaim our lives from its

clutches From the moment we ask children what they want to be when they grow up we exalt the dream job as if it were life s ultimate objective Many entangle their identities with their jobs with predictable damage to happiness wellbeing and even professional success In The Good Enough Job journalist Simone Stolzoff traces how work has come to dominate Americans lives and why we find it so difficult to let go Based on groundbreaking reporting and interviews with Michelin star chefs Wall Street bankers overwhelmed teachers and other workers across the American economy Stolzoff exposes what we lose when we expect work to be more than a job Rather than treat work as a calling or a dream he asks what it would take to reframe work as a part of life rather than the entirety of our lives What does it mean for a job to be good enough Through provocative critique and deep reporting Stolzoff punctures the myths that keep us chained to our jobs By exposing the lies we and our employers tell about the value of our labor The Good Enough Job makes the urgent case for reclaiming our lives in a world centered around work     *Connecting Generations* Hayim Herring,2019-05-08 Social isolation loneliness and suicide are conditions we often associate with the elderly But in reality these issues have sharply increased across younger generations Baby Boomers Gen X ers Millennials and post Millennials all report a declining number of friends and an increasing number of health issues associated with loneliness Even more concerning it appears that the younger the generation the greater the

feelings of disconnection Regardless of age it feels as though we're living through a period of ongoing disequilibrium because we're not able to adapt quickly enough to the social and technological changes swirling around us These powerful changes have not only isolated individuals from their own peers but have contributed to becoming an age segregated society And yet we need fulfilling relationships with people our own age and across the generations to lead lives that are rich in meaning and purpose Even in those rare communities where young and old live near each other they lack organic settings that encourage intergenerational relationships In addition it isn't technology but generational diversity that is our best tool for navigating the changes that affect so many aspects of our lives whether it's work entertainment education or family dynamics We can't restore yesterday's model of community where only those who were older transmitted wisdom downward to the generation below But we can relearn how much members of different generations have to offer each other and recreate intergenerational communities for the 21st century where young old and everyone in between is equally valued for their perspectives and where each generation views itself as having a stake in the other's success Here Hayim Herring focuses more deeply on how Baby Boomers Gen Xers and Millennials perceive one another and looks underneath the generational labels that compound isolation He offers ways we can prepare current and future generations for a world in which ongoing interactions with people from multiple generations become the norm and reexperience how enriching intergenerational relationships are personally and communally     **Being Social** Kimberley Brownlee,David Jenkins,Adam Neal,2022 This pioneering collection of original essays aims to remedy the neglect of social needs and rights in human rights theory and practice by exploring the social dimensions of the human rights minimum     **Boys** Rachel Giese,2018-12-11 A vital and sweeping examination of today's boy crisis demonstrating the ways in which we raise boys into a culture of toxic masculinity and offering solutions that can liberate us all Whether they're being urged to man up or warned that boys don't cry young men are subjected to damaging messages about manliness they must muzzle their emotions and never show weakness dominate girls and compete with one another Boys What It Means to Become a Man examines how these toxic rules can hinder boys' emotional and social development If girls can expand the borders of femaleness could boys also be set free of limiting damaging expectations about manhood and masculinity Could what's been labelled the boy crisis be the beginning of a revolution in how we raise young men Drawing on extensive research and interviews with educators activists parents psychologists sociologists and young men Giese mother to a son herself examines the myths of masculinity and the challenges facing boys today She reports from boys' only sex education classes and recreational sports leagues talks to parents of transgender children and plays video games with her son She tells stories of boys navigating the transition into manhood and how the upheaval in cultural norms about sex sexuality and the myths of masculinity have changed the coming-of-age process for today's boys With lively reportage and clear-eyed analysis Giese reveals that the movement for gender equality has the potential to liberate us all     *Sabbath as Resilience* Kenneth J. People everywhere are feeling the stress of modern life in ways not seen for generations Emerging from the fog of the first pandemic in one hundred years they face economic uncertainty political acrimony war and the threat of war environmental degradation and technological advances that amaze and frighten in equal measure Time and space condense as unrelenting connectedness blurs the lines between work and play fact and fiction need and desire The devices meant to improve lives dominate them in what theologian Walter Brueggemann calls the tyranny of now People are looking for accessible solutions to complex problems People need resilience but are ill equipped to find it In this book the Fellows of the Mockler Center at Gordon Conwell Theological Seminary offer a solution not from the well trodden psychological disciplines or the lure of New Age mysticism but in a concept as old as the Scriptures themselves the divine gift of Sabbath The authors explore in detail Jesus words Sabbath was made for humanity not humanity for the Sabbath proposing five areas values time space people and faith where a more comprehensive understanding of Sabbath can build resilience by reshaping personal and professional identities in accord with God s will and purpose     [Big Friendship](#) Aminatou Sow,Ann Friedman,2020-07-14 An inspiring and entertaining testament to the power of friendship from the hosts of the hit podcast Call Your Girlfriend Deeply compelling ROXANE GAY A New York Times bestseller A close friendship is one of the most important relationships a human life can contain But most people don t talk about what it takes to stay close for the long haul Now two friends Aminatou Sow and Ann Friedman tell the story of their messy and life affirming Big Friendship in this honest and hilarious book Through interviews with friends and experts they also come to understand that their struggles are not unique This book is a call to value your friendships in all of their complexity to actively choose them and sometimes fight for them A deeply funny and immensely heartfelt look into what makes a friendship last despite time distance trials and major life changes ELLE An inspiration ARIEL LEVY Wonderful HILLARY RODHAM CLINTON Thoughtful and highly readable New York Times     *[How We Show Up](#)* Mia Birdsong,2020-06-02 An Invitation to Community and Models for Connection After almost every presentation activist and writer Mia Birdsong gives to executives think tanks and policy makers one of those leaders quietly confesses how much they long for the profound community she describes They have family friends and colleagues yet they still feel like they re standing alone They re winning at the American Dream but they re lonely disconnected and unsatisfied It seems counterintuitive that living the good life the well paying job the nuclear family the upward mobility can make us feel isolated and unhappy But in a divided America where only a quarter of us know our neighbors and everyone is either a winner or a loser we ve forgotten the key element that helped us make progress in the first place community In this provocative groundbreaking work Mia Birdsong shows that what separates us isn t only the ever present injustices built around race class gender values and beliefs but also our denial of our interdependence and need for belonging In response to the fear and discomfort we feel we ve built walls and instead of leaning on each other we find ourselves leaning on concrete Through research interviews and stories of lived experience How We Show Up returns us to our inherent connectedness where we

find strength safety and support in vulnerability and generosity in asking for help and in being accountable Showing up literally and figuratively points us toward the promise of our collective vitality and leads us to the liberated well being we all want
