World-Class Brain Harald S. Harung,Frederick Travis,2025-05-30 This book tells the story of world class performers and offers an easy to read introduction to research showing that their brain function is different from the brains of average performers No surprise there But what is surprising is that regardless of whether these top performers are athletes musicians or CEOs their brains share one feature that makes them stand out more integrated functioning Their brains work in a more coherent relaxed wakeful and efficient way Other features these top performers have in common include intensely happy and fulfilling peak experiences and a greater moral sense Readers also learn how they too can effortlessly develop greater brain integration About the authors Dr Harald S Harung is an interdisciplinary peak performance researcher at Oslo Metropolitan University in Norway For many years he taught Leadership ethics and world class performance to classes of up to 500 students Harald holds a Ph D from the University of Manchester and has worked as a researcher at Oxford University naval officer CEO of an engineering company and president of an international business college Dr Frederick Travis has been Director of the Center for Brain Consciousness and Cognition at Maharishi International University in the US since 1990 His work has focused on brain development from birth to adulthood higher states of consciousness and the effects of meditation experiences on the brain Fred and Harald were the first researchers in the world to find a brain basis of high performance

Project-Based Learning Applied to the Language Classroom Juliana Franco Tavares/ Louise Emma Potter,2018-03-05 In Project Based Learning Applied to the Language Classroom the authors propose a way to develop PBL in the language classrooms taking into account all of the obstacles and specifics involved in teaching a foreign language It is about teaching English as a second or foreign language using Project Based Learning PBL We approach this combination because many people seem to think about implementing PBL in their language classes and ask questions about how to do it but feel that there aren t enough materials based on this methodology In fact most researchers and writers we have come across discuss the applications of PBL in the students mother tongue to subjects such as Math History Literature Social Studies and Science However there are few published works about the specifics of PBL in foreign language classes Besides it seems obvious to us that the main difficulty in developing projects in a second or foreign language lies exactly on the fact that communication may be hindered when students do not have enough knowledge in the target language Prosperity for all in the global
