Zetetic Cosmogony Thomas Winship, Rectangle, 2017-06-22 2017 Reprint of 1899 Second Edition Modern flat Earth hypotheses originated with the English writer Samuel Rowbotham 1816 1884 Based on conclusions derived from the Bedford Level experiment Rowbotham published Zetetic Astronomy He later expanded into a book Earth Not a Globe proposing the Earth is a flat disc centered at the North Pole and bounded along its southern edge by a wall of ice Antarctica with the Sun and Moon 3 000 miles and the cosmos 3 100 miles above Earth He also published a leaflet titled The Inconsistency of Modern Astronomy and its Opposition to the Scriptures which argued that the Bible alongside our senses supported the idea that the earth was flat and immovable and this essential truth should not be set aside for a system based solely on human conjecture Rowbotham and followers like T Winship Rectangle gained attention in debates with leading scientists such as Alfred Russel Wallace Rowbotham created a Zetetic Society in England and New York shipping over a thousand copies of Zetetic Zetetic Astronomy John Hampden, 1881 **One Hundred Proofs That the Earth Is Not a Globe William** Astronomy Carpenter, 2022-08-10 In One Hundred Proofs That the Earth Is Not a Globe William Carpenter presents a compelling yet controversial argument against the widely accepted heliocentric model of the Earth Utilizing a blend of scientific reasoning and rhetorical persuasion Carpenter meticulously outlines a series of proofs intended to validate his flat Earth theory Written in a polemical style the book draws upon a range of observations and experiments that Carpenter interprets through a critical lens of skepticism towards mainstream science thereby situating itself within the 19th century debates on geology astronomy and scientific authority William Carpenter an English writer and anti establishment thinker was inspired to challenge prevailing scientific paradigms based on his own observations and frustrations with established cosmology His background in literature and a burgeoning interest in controversial theories of his time inform the depth of his arguments Carpenter's work reflects an era marked by rapid scientific advancement and his rejection of scientific consensus illustrates his commitment to a contrarian viewpoint one that resonated with certain segments of society seeking alternatives to orthodoxy This book is recommended for readers interested in the history of scientific debate and the cultural implications of disproven theories Carpenter's bold assertions invite critical engagement and encourage readers to examine the validity of scientific claims Whether approached as a historical artifact or a philosophical challenge One Hundred Proofs That the Earth Is Not a Globe offers a fascinating glimpse into a world where the boundaries of scientific inquiry were tested One Hundred Proofs That the Earth Is Not a Globe William Boyd Carpenter, 2017-08-19 Parallax the Founder of the Zetetic

Winship, 2020-09-07 Thomas Winship presents forty one distinct arguments in support of the flat earth theory and the associated Zetetic astronomy This book began life as a shorter pamphlet It was only after significant popular interest that Mr Winship decided to expand Zetetic Cosmogony into a lengthy encompassing book Drawing upon observations made by those working in science and the naval professions Winship presents a series of points with the intention of verifying and proving that the earth is a flat plane rather than an oblate spheroid Quoting dozens of distinct works and sources the author is lively and passionate in advancing each of his points voicing disdain for conventional astronomers as he goes To some extent this book can be considered a summation of the Flat Earth Society s years of work to convince the world's scientific community and public We encounter explanations of phenomena such as circumnavigation oddities observed by sailors the motions of the sun moon and stars and even the construction of long distance railways. The appendices include a number of testimonials short essays plus poetry written by advocates of the flat earth theory **Zetetic Astronomy** Samuel Birley Rowbotham.1849 Testing the Globe: A Zetetic Investigation Samuel Rowbotham, William Carpenter, Rob Skiba, 2018-09-30 This is a compilation of books written in the late 19th century It includes Zetetic Astronomy by Samuel PARALLAX Rowbatham and 100 Proofs Earth Not a Globe by William Carpenter along with a Preface Introduction and commentary throughout written by Rob Skiba It is dedicated to those willing to hear the whole matter to those daring enough to entertain a thought even without first accepting it and who have the guts to actually take the time to investigate the matter before condemning it The subject is Flat Earth If you dare to read this book from cover to cover you will begin to see why this taboo topic is coming to the forefront once again trending so high on Google and YouTube and why believe it or not you may actually know some Is the Earth a Globe Alexander Gleason, 2016-11-26 Is the Bible from Heaven or is the Earth a Globe First published as a 95 page soft cover book in 1890 to expound upon these guestions The 402 page second edition was released in 1893 We release this 160 page modern edition of the second portion of that book Is the Earth A Globe for new consideration In this portion Gleason disproves the arguments generally advanced in favor of the so called Copernican theory and then proceeds to demonstrate beyond any reasonable doubt that the earth is not a globe that it does not move or rotate that the sun moves that the moon is not an opaque or non luminous body etc The writer shows to the satisfaction of common sense that the modern universally accepted and taught theoretical astronomy which claims the earth to be a globe revolving around the sun etc is based on very weak arguments indeed and that on the contrary it is not at all antagonistic to true science to accept the teachings of the Bible as they read Lutheran Witness April 21 1891 "The" True Figure and Dimensions of the Earth, Newly Determined ... in a Letter Addressed to George Biddell Airy, Esq., M. A. Astronomer Royal Johannes von Gumpach, 1862 Zetetic Cosmogony Thomas Winship, 2017-09-19 Modern astronomical teaching affirms that the world we live on is a globe which rotates revolves and spins away in space at brain reeling rates of speed that the sun is a million and a half times the size of the earth globe and nearly a hundred million miles distant from it that the moon is about a

quarter the size of the earth that it receives all its light from the sun and is thus only a reflector and not a giver of light that it attracts the body of the earth and thus causes the tides that the stars are worlds and suns some of them equal in importance to our own sun himself and others vastly his superior that these worlds inhabited by sentient beings are without number and occupy space boundless in extent and illimitable in duration the whole of these interlaced bodies being subject to and supported by universal gravitation the foundation and father of the whole fabric To fanciful minds and theoretical speculators the so called science of modern astronomy furnishes a field unsurpassed in any science for the unrestrained license of the imagination and the building up of a complicated conjuration of absurdities such as to overawe the simpleton and make him gape with wonder to deceive even those who truly believe their assumptions to be facts and to make men doubt Divine Revelation with as little discrimination as they were formerly called upon to believe If the reader will carefully follow and weigh the evidence in the following chapters he cannot fail to be delivered from the thraldom of popular credulity and led to seek the truth for himself One Hundred Proofs That the Earth Is Not a Globe William Carpenter, 2019-10-07 For a list of Flat Earth experiments see Experimental Evidence The following is a verbatim copy of the book A Hundred Proofs the Earth Is Not a Globe by William Carpenter 1885 With more than 100 B W illustrations by Valentin Ramon
