Russian Chess:

The Case of the Russian Chessboard Charlie Roxburgh, 2011-10-07 Mr Holmes save my sister from whatever nameless horror has just driven this friend of ours to her death It is late on a foggy November afternoon and a desperate young woman arrives at Baker Street imploring Sherlock Holmes to help her She is terrified about what may be going on inside a secretive London refuge for Russian exiles where her sister works And so begins a frightening case which deeply strains both Holmes and Watson because of dreadful consequences of failure and the mystifying nature of the forces against them The case leads into strange territory Into the circles of Victorian London s radicals and idealists where early feminists and socialists rub shoulders with exiled foreign revolutionaries To a utopian anarchist commune in Essex wilderness which imitates Tolstoy s farm communes in Russia Into the dark political world from which London s Russian exiles have fled The trail leads on to one shocking discovery after another as Holmes unravels a conspiracy as evil and twisted as a labyrinth in hell Lengthwise The Case of the Russian Chessboard totals three original Sherlock Holmes Short Stories Narrated by Dr Watson the tale respects Sherlock Holmes traditions and 1890s historical facts Mingling mystery with gaslight it offers a gripping atmospheric and thought provoking read

My Chess Hans Ree, 2013-10-07 The Ideal Chess Journalist During his active chess career Hans Ree battled with almost all the great chessplayers including eight world champions from Max Euwe to Anatoly Karpov My Chess is not only about them but also about other players and writers from the past who are admired by Ree This book gives a personal view of Ree s own world of chess and therefore less prominent players also appear such as a schoolmate with whom he played an endless series of matches or the anonymous A6648 who played more than a half million games on the Internet Chess Club In addition the question is finally answered why the great Dutch author W F Hermans designed a chess set made of cigarette lighters but did not want to play chess Though the game of chess and its practitioners are certainly not idealized this book is in the first place a loving description of a world brimming with striking personalities and an inexhaustible source of stories About the Author Grandmaster Hans Ree 1944 is a four time Dutch champion and represented his country from 1966 through 1994 in every chess Olympiad From 2001 2007 he was the wearer of the Euwe Ring an award for outstanding service to Dutch chess He writes about chess in NRC Handelsblad New in Chess magazine and on the American website Russell Enterprises com Internationally he is considered to be one of the best chess writers of his era A grandmaster excellent writer and careful researcher who doesn t seek out controversy but is equally unafraid to plumb the sometimes

continuity of Russian policies during the early modern period 1450 1800 and that those policies coincided with those of other successful contemporary Eurasian polities The continuities occurred in the midst of constant change but neither one nor the other continuities or changes alone can account for Russia's success Instead Russian rulers from Ivan III to Catherine II with their hub advisors managed to sustain a balance between the two During the early modern period these Russian rulers invited into the country foreign experts to facilitate the transfer of technology and know how mostly from Europe but also from Asia In this respect they were willing to look abroad for solutions to domestic problems Russia looked westward for military weaponry and techniques at the same time it was expanding eastward into the Eurasian heartland The ruling elite and by extension the entire ruling class worked in cooperation with the ruler to implement policies The Church played an active role in supporting the government and in seeking to eliminate opposition to the government
