The Nature of Literary Response Clark McPhail,Norman Holland,2017-07-12 In a rare fusion of literary sensibility with psychological research Norman N Holland brings to light important data showing how personality in the fullest sense of character development and identity affects the way in which we read and interpret literature This book will show that readers respond to literature in terms of their own lifestyle character personality or identity By such terms psychoanalytic writers mean an individual s characteristic way of dealing with the demands of outer and inner reality Each new experience develops the style while the pre existing style shapes each new experience The sub title of this book Five Readers Reading reflects the fact that the author a distinguished literary critic worked with five student readers using a battery of psychological tests and extensive interviews to study the ways they reacted to classic short stories by Faulkner Hemingway and others Combining his own interpretation of the stories with his understanding of the readers and their reactions Holland derives four principles that inform literary response He then goes on to show how these principles apply not just to literary

response but to the way personality shapes any experience The book carries Holland's previous studies of creation and responsive recreation forward to a major theoretical statement He rejects the artificial idea that one must think of a text or other event as separate from its perceivers illustrating the dynamics by which perceiver and perceived mutually create an experience For critics and students of the psychology of human behavior this is challenging and seminal reading **Using Critical Theory** Lois Tyson, 2011-11-16 Explaining both why theory is important and how to use it Lois Tyson introduces beginning students of literature to this often daunting area in a friendly and approachable style The new edition of this textbook is clearly structured with chapters based on major theories that students are expected to cover in their studies Key features include coverage of major theories including psychoanalysis Marxism feminism lesbian gay queer theories postcolonial theory African American theory and a new chapter on New Criticism formalism practical demonstrations of how to use these theories on short literary works selected from canonical authors including William Faulkner and Alice Walker a new chapter on reader response theory that shows students how to use their personal responses to literature while avoiding typical pitfalls new sections on cultural criticism for each chapter new further practice and further reading sections for each chapter a useful next step appendix that suggests additional literary titles for extra practice Comprehensive easy to use and fully updated throughout Using Critical Theory is the ideal first step for students beginning degrees in literature composition and cultural studies **Resources in Education** , 2001-10 *The Dark Rose* Erin Kelly, 2013-01-29 A stunning look at human desperation loyalty and absolute terror Suspense Magazine from the acclaimed author of *The Poison Tree* When Erin Kelly burst onto the scene with *The Poison Tree* readers were left breathless and hungry for more Maureen Corrigan at the Washington Post pleaded More please Ms Kelly Quickly A story of secrets and guilt *The Dark Rose* is a mesmerizing follow up that's every bit as chilling and atmospheric as her acclaimed debut Nineteen year old Paul sits in a stark interrogation room across from two police officers What started as petty theft turned into murder only terror and loyalty keep him silent Louisa spends her days roaming a crumbling Elizabethan garden until she meets Paul who is a dead ringer for her long lost love Louisa starts to hope she can find happiness again but neither of them can outrun his violent past **Fairy Tales of Brothers Grimm Comprehension Guide** Emily Fischer, 2000
