Searching Below the Surface Nakhati Jon, 2022-03-11 We all want to know how the God of the Bible differs from the Islamic Allah How does a covenant keeping God interact in the divine human relationship In what ways does a contract demanding Allah vary from biblical truth This

comparative religious exploration will equip Christians to clarify the difference Searching Below the Surface A Deeper look at Covenant and Contract prepares the reader to present biblical truths by exposing Muslim ideas The book unearths the often unseen perspectives of a covenant God called Yahweh and a deity prone to contract Allah The book seeks to answer these questions How does Yahweh s Oneness promote covenant understanding How do Muslims define the Absolute Oneness of Allah How do the Creation accounts in the Bible and Quran reflect theology In what ways does Islam ignore a covenant ethos What are the implications of covenant and contract when applied to marriage Since covenant marriage patterns divine oneness in how spouses relate and share sacrificially this mode of marriage mirrors the character of the biblical God Marriage in the Bible reflects a relationship found in the divine Godhead and how he interacts with believers Nakhati Jon skillfully searches below the surface to understand the roots of the thinking of our Muslim friends and neighbors and Christians Patrick Cate Ph D In a covenant marriage the husband and wife become one which means more than physical oneness but a mystical spiritual unity that reflects the Trinity of Oneness Nakhati Jon Oneness describes the Islamic idea concerning deity but undermines the ideas of Islamic marriage Nakhati Jon Excerpt On another scorching sweltering day in Central Asia we traveled to the capital in our rented taxi As per custom my wife sat in the back with our kids while I sat in the front chatting with the driver Dust and welcome air flew in through the open windows and we talked loudly to drown out the wind Then the inevitable conversation began Driver Central Asian women are beautiful aren t they My back prickled in response to my wife s almost palpable eye roll Me My wife is beautiful Driver You should get a second wife I felt my wife rethinking pacifism Me Emphatically God is one Therefore I will have only one wife Driver Oh this is true Pause Does your wife speak the language Me Fluently And she doesn t like what you re saying Years later my wife confessed she had ignored the illogic of the One God one wife statement in return for its success as a conversation stopper But in researching I happily discovered my shot at philosophy had been logical after all In fact my bit of accidental wisdom carried foundational truths about Yahweh s nature his relationship with man and his plan for marriage **Tommy Boys, Lesbian Men and Ancestral Wives** Ruth Morgan, Saskia Wieringa, 2005 A vivid portrait of homosexual African women this collection of essays examines and celebrates same sex practices while acknowledging their taboo status in many African cultures From Uganda to Namibia governmental homophobia and female strength are among the thoroughly discussed issues **The Sociology of Religion** George Lundskow, 2008-06-10 Most Sociology of Religion texts are decidedly staid and uninteresting covering contemporary developments which are only contemporary only from a disciplinary perspective They are not contemporary if viewed from the perspective of the religion s practioners in religious and non religious settings The textbooks that attempt to be interesting to undergraduate students often fall short because they either try to cover too much in an encyclopedic format or sacrifice a sociological perspective for a personal one Many use real life examples only superficially to illustrate concepts Lundskow s approach is the opposite students will learn the facts of religion in its great diversity all the most interesting and

compelling beliefs and practices and then learn relevant concepts that can be used to explain empirical observations The book thus follows the logic of actual research investigate and then analyze rather than approaching concepts with no real bearing on how religion is experienced in society This approach using provocative examples and with an eye toward the historical and theoretical not to mention global experience of religion will make this book a success in the classroom The author envisions a substantive approach that examines religion as it actually exists in all its forms including belief ritual daily living identity institutions social movements social control and social change Within these broad categories the book will devote particular chapters to important historical moments and movements leaders and various individual religions that have shaped the contemporary form and effect of religion in the world today **Discover** ,2004 [Demystifying Diversity](#)

In a world where the term Islam is ever increasingly an inaccurate and insensitive synonym for terrorism it is unsurprising that many Muslim youth in the West struggle for a viable sense of identity This book takes up the hotly debated issue of Muslim youth identity in western countries from the standpoint of popular culture It proposes that in the context of Islamophobia and pervasive moral panic young Muslims frame up their identity in relation to external conditions that only see good and bad Muslims on both sides of the ideological fence between Islam and the West Indeed by attempting to break down the good versus bad Muslim dichotomy that largely derives from western media reports as well as political commentary *Muslim Youth in the Diaspora Challenging Extremism through Popular Culture* will enlighten the reader It illuminates the way in which diasporic Muslim youth engage with and are affected by the radical Islamist meta narrative It examines their

popular culture and online activity their gendered sense of self and much more This original book will be of interest to students and scholars interested in the fields of sociology cultural studies and social anthropology It offers a particular focus on Islam for research in youth studies youth culture political radicalisation and religious identity It will also be relevant to the sector of youth and social work where practitioners seek to build cultural bridges with a new generation
