significant projects With the advent of PPP and in particular of PFI details of the project life need to be assessed and tied in to funding and operation plans Many of these projects run to millions of pounds and are of high political or social importance so the implications of the life of materials is crucial A fundamental requirement of these procurement routes has been that the whole enterprise should be included within the bid so that a company takes on not only the construction but also the running and maintenance of any building Additionally as sustainability has emerged and grown in importance so has the need for a whole life time costing approach partly driven by governmental insistence At the heart of sustainability is an understanding of what the specification means for the future of the building and how it will affect the environment Whole life costing considers part of this and provides an understanding of how materials may perform and what allowances are needed at the end of their life This book sets out the practical issues involved in the selection of materials their performance and the issues that need to be taken into account The emphasis unlike in other publications is not to formularise or to package the issues but to leave the reader with a clear understanding and a sensible practical way of arriving at conclusions in the future

*Proceedings of the 28th International Symposium on Advancement of Construction Management and Real Estate* Dezhi Li, Patrick X. W. Zou, Jingfeng Yuan, Qian Wang, Yi Peng, 2024-11-27 This book presents the proceedings of CRIOCM 2023 sharing the latest developments in real estate and construction management around the globe The conference was organized by the Chinese Research Institute of Construction Management CRIOCM and Southeast University Written by international academics and professionals the proceedings discuss the latest achievements research findings and advances in frontier disciplines in the field of construction management and real estate covering a wide range of topics including new theory and practice of engineering management smart construction and maintenance green low carbon building and sustainable development big data and blockchain construction and real estate economy real estate finance and investment real estate management and housing policy innovative theory and practice of urban governance land use and urban planning and other related issues The discussions provide valuable insights into the implementation of advanced construction project management and real estate market in China and abroad The book offers an outstanding resource for academics and professionals

Decision-making in International Construction Arbitration Haytham Besaiso, 2023-10-03 This book contributes to the empirical understanding of how arbitrators make their decisions on the substance of commercial disputes arising from international construction projects It is based on in depth interviews with 28 international construction arbitrators and on the analysis of dozens of international construction arbitration awards The combined experience of those who participated in the author's research amounted to hundreds of international construction arbitrations 300 cases in addition to several hundred international commercial arbitrations It presents the results of the first and largest research to be undertaken in this area and it will be useful to arbitration practitioners and scholars and to the wider audience of dispute resolution students practitioners and theorists In turn the book examines to what extent international arbitrators apply the

law as the substantive norm providing an explanation for that and then offers insights into whether arbitrators in fact lean towards commercial and transnational norms to construe the parties contract before discussing to what extent international arbitrators take into account fairness considerations to reach their decisions on the merits of the parties claims The book also examines to what extent international arbitrators apply mandatory rules of foreign law Lastly it provides insight into the effect of arbitrators background characteristics on their decisions Written for arbitration practitioners arbitrators and legal counsel and scholars the book will be useful for both experienced arbitrators and those starting their arbitration career or studying for their arbitration qualification It will also be useful for project professionals involved in contract management and dispute resolution

**Architectural Technology** Stephen Emmitt, 2013-03-25 it gives me great pleasure to support the first ever publication to specifically address the area of research and in particular its relationship with practice in the discipline of architectural technology not only ground breaking because it is the first book of its kind but also because it provides at long last one of the accepted foundations needed to underpin the emerging academic discipline namely a recognised research base CIAT in supporting this publication is aware of the need for books such as this to sustain the process of research informed practice as an aid for both students and those practising within the discipline of architectural technology Norman Wienand MCIAT Vice President Education Chartered Institute of Architectural Technologists Architectural technology is the realisation of architecture through the application of building science forming the constructive link between the abstract and the physical Architectural Technology research and practice demonstrates the importance of research in architectural technology and aims to stimulate further research and debate by enlightening informing and challenging readers Chapter authors address the interplay between research and practice in the field of architectural technology examining the influence of political economic social environmental and technological issues The focus throughout is on creating sustainable buildings that are constructed economically and function effectively and efficiently within their service life cycle The book s mix of chapters and case studies bring together a number of different themes and provides invaluable insights into the world of research from the perspective of those working within the architectural technology field practitioners academics and students The underlying message is that architectural technology is not just a profession it is a way of thinking and a way of acting This is highlighted by contributions from architects and architectural technologists passionate about architectural technology as a field of knowledge Contributions range from the theoretical and polemic to the pragmatic and applied further helping to demonstrate the richness of the field About the Editor Stephen Emmitt is Professor of Architectural Technology at Loughborough University UK and Visiting Professor of Innovation Sciences at Halmstad University Sweden and a member of CIAT s Research Group

Development and Investment in Infrastructure in Developing Countries: A 10-Year Reflection Innocent Musonda,Erastus Mwanaumo,Adetayo Onososen,Retsepile Kalaoane,2024-12-20 Development and Investment in Infrastructure in Developing Countries A 10 Year Reflection includes the contributions to the 10th International Conference on Development and Investment In infrastructure DII 2024 Livingstone Zambia 24 26 July 2024 The papers discuss evaluate and devise ways of maximising the benefits of infrastructure development and achieve outputs that will inform policy and wider development goals This Open Access book is invaluable to leaders researchers practitioners and stakeholders involved or interested in infrastructure development in developing countries

**Unpacking the Decent Work Agenda in Construction Operations for Developing Countries** Tirivavi Moyo,Gerrit Crafford,Fidelis Emuze,2023-06-07 Low construction labour productivity and the inadequate welfare of construction workers are consistent challenges in developing countries These challenges are partially due to shortcomings situated in the Decent Work Agenda This book proposes ways of sustaining construction labour productivity through fulfilling the Decent Work Agenda This is a unique area of focus that is essential to fulfilling the broader and global aspects of decent work sustainability and construction labour productivity Also the focus of this book is on contributing to the plight of construction workers whose treatment is significantly unsound The construction industry needs to develop a humanistic face and contribute to the UN s sustainable development goal of achieving full and productive employment and decent work for all women and men To achieve this construction companies are encouraged to implement corporate social responsibility strategies by equipping workers of different educational levels with knowledge and skills that can be transferred to benefit themselves and their communities Thus establishing structured on the job training that incorporates sustainability learning objectives to achieve workers safety on sites is essential The book advocates for decency in the workplace through people centred management sustainability learning of skilled and semi skilled construction workers and decent working conditions It will be of interest to construction industry policymakers construction professionals academics and students of sustainable development and developing economies

Sustainable Design and Manufacturing 2014 Part 2 R. Setchi,R.J. Howlett,M. Naim,H. Seinz, **Dissertation Research and Writing for Construction Students** Shamil Naoum,2012-05-23 Aimed specifically at students on BSc and taught Masters programmes who are embarking on research for the first time this book is clear with explanatory text supported by numerous examples illustrating good practice

*Building Maintenance Processes and Practices* Abdul Lateef Olanrewaju, Abdul-Rashid Abdul-Aziz, 2014-11-14 This book is designed to be an inclusive for the best practice approach to building maintenance management where the processes procedures and operational systems meet a high standard of professional and academic competence It offers a different perspective on building maintenance management by presenting the schematic building maintenance value chain model and its implementation in Malaysian university buildings The findings show an improvement to building performance lower maintenance cost building sustainability and increased maintenance service user satisfaction The learning outcomes and summaries provided for each chapter and the extensive use of tables and figures add to the readability of the text Though the book is based on data from Malaysia it is useful for a much wider audience and the informal writing style makes it an interesting reference source This book is valuable for readers who are practitioners professionals and for academic institutions that offer courses in the building field including architecture quantity surveying civil engineering building and facility management property management real estate It will also be of interest to governments and others involved in the construction industry

Constructing Professional Discourse Concepción Orna-Montesinos, 2012-01-17 This book explores the fascinating role that language plays in the construction of non verbal objects by mapping out the ontological meaning of the specialised concepts and the domain specific knowledge embedded in them In doing so it provides a comprehensive linguistic insight into the discourse of professional domain specific communities and hence into the communication practices and procedures of those communities In this respect the book offers a response to the claims made by many of the most influential applied linguists today such as Vijay Bhatia 1993 2004 John Swales 1990 2004 or Ken Hyland 2002 among others who have consistently defended the need for applied linguistic research into the textual generic and social perspectives on the under researched interrelatedness of the discursive and professional practices of a discipline Specifically this book provides readers with an integrative multi perspective approach to the study of professional domain specific discourses While it mainly draws on the tenets of genre theory and discourse semantics it also nurtures from the theoretical and empirical foundations of applied linguistics cognitive linguistics corpus linguistics and ontological engineering The book starts from the analysis of domain specific texts as final written products with specific lexico grammatical semantic and rhetorical features to later enquire into the written products as textual artefacts closely linked to the social context of production and interpretation of the text This integrative approach provides fresh new insights into the way the processes of writing are affected by the community specific institutional and socio historical circumstances in which domain specific texts are produced

Mentorship Strategies in Teacher Education Dikilitas, Kenan, Mede, Enisa, Atay, Derin, 2018-05-18 Mentoring in teacher education has been a key issue in ensuring the healthy development of teacher learning Variety in the actualization of mentoring can lead to the exposition of new qualities and the evolving roles that mentors might undertake Mentorship Strategies in Teacher Education provides emerging research on international educational mentoring practices and their

implementation in teacher education While highlighting topics such as e mentoring preservice teachers and teacher program evaluation this publication explores the implementations and implications that inform the existing practices of teacher education mentoring This book is a vital resource for researchers educators and practitioners seeking current research on the understanding and development of existing mentorship strategies in a variety of fields and disciplines **Lean Construction Management** Shang Gao,Sui Pheng Low,2014-05-23 The book presents a mixed research method adopted to assess and present the Toyota Way practices within construction firms in general and for firms in China specifically The results of an extensive structured questionnaire survey based on the Toyota Way styled attributes identified were developed and data collected from building professionals working in construction firms is presented The quantitative data presented in the book explains the status quo of the Toyota Way styled practices implemented in the construction industry as well as the extent to which these attributes were perceived for lean construction management The book highlights all the actionable attributes derived from the Toyota Way model appreciated by the building professionals but alerts the readers that some attributes felled short of implementation Further findings from in depth interviews and case studies are also presented in the book to provide to readers an understanding how these Toyota Way practices can be implemented in real life projects Collectively all the empirical findings presented in this book can serve to enhance understanding of Toyota Way practices in the lean construction management context The readers are then guided through to understand the gaps between actual practice and Toyota Way styled practices and the measures that they may undertake to circumvent the challenges for implementation The book also presents to readers the SWOT analysis that addresses the strengths weaknesses opportunities and threats towards the implementation of the Toyota Way in the construction industry The book prescribes the Toyota Way model for use in construction firms to strategically implement lean construction management The checklist presented in the book enables readers to draw lessons that may be used additionally as a holistic assessment tool for measuring the maturity of firms with respect to their Toyota Way implementation Consequent to this management would then be in a better position to develop plans for Toyota Way implementation by focusing on weak areas strengthening them and thus increasing the likelihood of success in the implementation of the Toyota Way In a nutshell this book provides a comprehensive and valuable resource for firms not only in the construction industry but also businesses outside of the construction sector to better understand the Toyota Way and how this understanding can translate to implementation of lean construction business management to enhance profitability and survivability in an increasingly competitive global market place *ECPPM 2022 - eWork and eBusiness in Architecture, Engineering and Construction 2022* Eilif Hjelseth,Sujesh F. Sujana,Raimar J Scherer,2023-03-29 ECPPM 2022 eWork and eBusiness in Architecture Engineering and Construction contains the papers presented at the 14th European Conference on Product Process Modelling ECPPM 2022 Trondheim Norway 14 16 September 2022 and builds on a long standing history of excellence in product and process modelling in the construction
