The British National Bibliography Arthur James Wells, 2006 **Managerial Economics** Dominick Salvatore, 1989
Business Education Index, 1975 **Managerial Economics in a Global Economy** Dominick Salvatore, 2007 This is the international edition of *Managerial Economics in a Global Economy*. This text uses the theory of the firm as the unifying theme to examine how a firm can make optimal managerial decisions in the face of the constraints. The text introduces a global view and many new exciting topics into managerial economics such as firm architecture, the evolution of the creative firm, Porter's strategic framework, business ethics, electronic commerce, and risk management, and shows how managerial decisions are actually made with more than 140 real world cases. **Books in Print Supplement**, 1994 **Forthcoming Books** Rose Army, 2003 **International Economics** Dominick Salvatore, 2016-01-11 *International Economics* by Dominick Salvatore presents a comprehensive up to date and clear exposition of the theory and principles of international economics. Salvatore presents concepts that are essential for understanding, evaluating, and suggesting solutions to the important international economic problems and issues facing the United States and the rest of the world today and that they are likely to face in the coming years. Neither overly complex nor too simplistic, *International Economics* helps readers see the immediate relevance of the material and contains an unparalleled number of real world applications and examples. International trade is as old as nations. During the last five decades, however, advances in technology and transportation have changed the scope and method of international trade. Disputes rage about the effects of these changes; advocates for different positions offer argument but little factual or theoretical analysis. *Globalization* offers all the information readers need to sort out the arguments. Written with the highest degree of scholarship, intended for college students or working professionals, the encyclopedia provides both introductory material to broad economic, legal, political, and environmental theory and in depth analysis of how theory interacts with practice in the framework of global trade. A trader in New York can in a matter of seconds execute a billion dollar currency transaction in Hong Kong. What does this transaction mean to New Yorkers, to residents of Hong Kong, and to the rest of the world? This book gives readers the tools to answer those questions. **Books in Print**, 1991 *CFA Program Curriculum 2019 Level I Volumes 1-6 Box Set* CFA Institute, 2018-08-27 Clear, concise instruction for all CFA Program Level I concepts and competencies for the 2019 exam.
