**Driver License Manuals Best Practices** Deborah Meyers ((Of Partners In Brainstorms, Inc.)), 2005 Each motor vehicle jurisdiction in the United States has an established process by which it assesses the required knowledge of driver license applicants to determine whether they are able to operate their vehicles safely and thus qualify for a driver's license Corollary to that assessment process is the jurisdiction's responsibility to provide drivers with the information for which they are to be held responsible during the licensing exam and subsequently while operating their vehicle on our nation's roadways The primary means of providing this information to drivers is the jurisdiction's basic driver license manual This study was directed at identifying best practices with regard to the basic driver license manuals produced by motor vehicle jurisdictions To identify best practices three types of information sources were consulted 1 driver license manuals produced by motor vehicle jurisdictions throughout the country 2 driver safety information produced by relevant government agencies and private organizations and 3 research news education and popular literature Of 212 knowledge items recommended by the American Association of Motor Vehicle Administrators AAMVA for inclusion in driver manuals 119 were addressed by a majority 51% or more of the manuals reviewed and are considered best practices in subject matter content Additional topics that should be considered best practices in subject matter content are intersection safety particularly with regard to red light running sharing the road with trucks particularly emphasis on their No Zones road rage and aggressive driving driver distraction seatbelt usage

particularly with regard to the jurisdiction's primary or secondary seatbelt laws and following distance with emphasis on the need for a three or four second gap With regard to factors other than subject matter content it was found that most jurisdictional manuals 77% are smaller than the 8 1 2 in x 11 in size of the Arizona manual with 48% opting for the compact 5 1 2 in x 8 1 2 in More than half the jurisdictions produce a version of the manual in Spanish and more than a third of the jurisdictions produce a specialized driver manual directed at teen learners and their parents and encouraging parents active involvement in their teen's learning process Japanese for Travelers Phrasebook & Dictionary Scott
