La Position du droit international dans l'ordre juridique congolais et l'application de ses normes Joseph Kazadi Mpiana, 2013-04-04 La République démocratique du Congo est unanimement perçue comme un état de tradition moniste avec primauté du droit international Cependant aux termes d'une analyse critique tant du point de vue de la théorie que de la pratique l'auteur offre une nouvelle approche qui accorde mieux la théorie dualiste La primauté du droit international en droit congolais n'est nullement constitutive d'un rapport hiérarchique mais se traduit par une préférence pas absolue de la norme internationale au détriment de la norme interne Cette approche dualiste s'étend également au droit privé des organisations internationales Au moment où le juge congolais s'internationalise notamment par le biais de l'application du statut de Rome de la Cour pénale internationale et au regard de l'entrée en vigueur en droit congolais du droit découlant de l'OHADA une étude approfondie sur les rapports entre le droit international et le droit congolais s'avère indispensable En plus de la ressource de sa

lecture réaliste des normes constitutionnelles de la RDC en matière de traités et d'actes normatifs des organisations internationales l'ouvrage de Joseph Kazadi Mpiana s'avère un apport de poids pour la jurisprudence congolaise dans l'application du droit international

Corruption and Constitutionalism in Africa Charles M. Fombad, Nico Steytler, 2020-03-12 This is an open access title available under the terms of a CC BY NC ND 4.0 International license. It is offered as a free PDF download from OUP and selected open access locations. This collection of essays focuses on the critical issue of corruption that lies at the heart of the crisis of constitutionalism in Africa. Most anti-corruption measures over the years have been inadequate, serving merely as symbolic gestures to give the impression something is being done. The African Union's declaration of 2018 as the African anti-corruption year belated though it be, is an open recognition by African governments of the impact corruption will have on the continent unless urgent steps are taken. The key objective of this volume is to draw attention to the problem of corruption, the complexity of the situation with all its multi-faceted social, political, economic and legal dimensions, and the need for remedial action.
