Privilege and Punishment Matthew Clair, 2022-06-21 How the attorney client relationship favors the privileged in criminal court and denies justice to the poor and to working class people of color The number of Americans arrested brought to court and incarcerated has skyrocketed in recent decades Criminal defendants come from all races and economic walks of life but they experience punishment in vastly different ways Privilege and Punishment examines how racial and class inequalities are embedded in the attorney client relationship providing a devastating portrait of inequality and injustice within and beyond the criminal courts Matthew Clair conducted extensive fieldwork in the Boston court system attending criminal hearings and interviewing defendants lawyers judges police officers and probation officers In this eye opening book he uncovers how privilege and inequality play out in criminal court interactions When disadvantaged defendants try to learn their legal rights and advocate for themselves lawyers and judges often silence coerce and punish them Privileged defendants who are more likely to trust their defense attorneys delegate authority to their lawyers defer to judges and are rewarded for their compliance Clair shows how attempts to exercise legal rights often backfire on the poor and on working class people of color and how effective legal representation alone is no guarantee of justice Superbly written and powerfully argued Privilege and Punishment draws needed attention to the injustices that are perpetuated by the attorney client relationship in today s criminal courts and describes the reforms needed to correct them *Interrupting*

Crime, Inequality and Power Eileen B. Leonard, 2015-04-10 Crime Inequality and Power challenges the dominant definitions of crime and the criminal through its uniquely comparative approach In this book Eileen Leonard analyzes multiple forms of criminal behavior in the United States including violence sexual assault theft and drug law violations whilst also asking readers to consider the parallels between crimes that are rarely thought comparable Leonard's juxtaposition of familiar street crimes such as car theft alongside large scale corporate theft vividly exposes profound inequalities in the way crime is defined and the treatment it receives within the criminal justice system Leonard's analysis also reveals the underlying inequalities of race class and gender which enable the perpetuation of such crimes as well as calling into question the reality of fundamental American ideals of fairness and equal justice Moreover the book questions whether current policies that punish street crime excessively while minimizing the crimes of the powerful fail to keep the public safe A broader consideration of crime and the inequalities that underlie it offers a fresh opportunity to rethink public policies and enduring issues of crime and criminal justice Challenging the many persistent inequalities in the perception of and response to crime this critique of American crime and punishment will be of interest to undergraduate and postgraduate students as well as scholars in the fields of criminology sociology and law
