Spring in Action Craig Walls, 2018-10-05 Summary Spring in Action 5th Edition is the fully updated revision of Manning's bestselling Spring in Action. This new edition includes all Spring 5.0 updates along with new examples on reactive programming, Spring WebFlux, and microservices. You'll also find the latest Spring best practices including Spring Boot for application setup and configuration. Purchase of the print book includes a free eBook in PDF, Kindle, and ePub formats from Manning Publications. About the Technology: Spring Framework makes life easier for Java developers. New features in Spring 5 bring its productivity-focused approach to microservices, reactive development, and other modern application designs. With Spring Boot now fully integrated, you can start even complex projects with minimal configuration code. And the upgraded WebFlux framework supports reactive apps right out of the box. About the Book: Spring in Action 5th Edition guides you through Spring's core features explained in Craig Walls' famously clear style. You'll roll up your sleeves and build a secure database-backed web app step by step. Along the way, you'll explore reactive programming, microservices, service discovery, RESTful APIs, deployment, and expert best practices. Whether you're just discovering Spring or leveling up to Spring 5.0, this Manning classic is your ticket. What's Inside: Building reactive applications, Spring MVC for web apps, and RESTful web services. Securing applications with Spring Security. Covers Spring 5.0. Over 100,000 copies sold. About the Reader: For intermediate Java developers. About the Author: Craig Walls is a principal software engineer at Pivotal, a popular author, an enthusiastic supporter of Spring Framework, and a frequent conference speaker. Table of Contents: PART 1 FOUNDATIONAL SPRING: Getting started with Spring, Developing web applications, Working with data, Securing Spring, Working with configuration properties. PART 2 INTEGRATED SPRING: Creating REST services, Consuming REST services, Sending messages asynchronously, Integrating Spring. PART 3 REACTIVE SPRING: Introducing Reactor, Developing reactive APIs, Persisting data reactively. PART 4 CLOUD-NATIVE SPRING: Discovering services, Managing configuration, Handling failure and latency. PART 5 DEPLOYED SPRING: Working with Spring Boot Actuator, Administering Spring, Monitoring Spring with JMX, Deploying Spring.

Spring im Einsatz Craig Walls, 2020-01-20 Erstellen reaktiver Anwendungen, Spring MVC für Webanwendungen und RESTful Web Services, Sicherheit für Anwendungen mit Spring Security. Behandelt Spring 5.0. Diese vollständig aktualisierte Ausgabe des Bestsellers Spring in Action enthält alle Spring 5.0 Updates, neue Beispiele für reaktive Programmierung, Spring WebFlux und Microservices. Ebenfalls enthalten sind die neuesten Best-Practice-Methoden für Spring, einschließlich Spring Boot. Das Spring Framework erleichtert Java-Entwicklern die Arbeit. Neue Features in Spring 5 übertragen den produktivitätsorientierten Ansatz auf Microservices, reaktive Entwicklung und andere moderne Anwendungskonzepte. Da Spring Boot nun vollständig integriert ist, können Sie auch komplexe Projekte sofort beginnen und müssen dafür nur minimalen Konfigurationscode schreiben. Das aktualisierte WebFlux-Framework unterstützt dabei reaktive Anwendungen, die sofort einsatzbereit sind. Das Buch führt Sie durch die Kernfunktionen von Spring, die Craig Walls in seinem

ber hmten klaren Stil erkl rt Erstellen Sie Schritt f r Schritt eine sichere datenbankgest tzte Webanwendung Auf dem Weg dorthin lernen Sie reaktive Programmierung Microservices Service Discovery RESTful APIs und die Bereitstellung Deployment von Spring Anwendungen kennen und bekommen au erdem zahlreiche Experten Tipps Ganz gleich ob Sie Spring gerade entdecken oder auf die Version 5 migrieren dieser Klassiker hilft Ihnen dabei AUS DEM INHALT Erste Schritte mit Spring Webanwendungen entwickeln Mit Daten arbeiten Zugriffskontrolle mit Spring Security Mit Konfigurationseigenschaften arbeiten REST Dienste erstellen und konsumieren Nachrichten asynchron senden Spring integrieren Einf hrung in Reactor Reaktive APIs entwickeln Daten reaktiv persistent speichern Service Discovery Konfiguration verwalten Fehler und Latenzzeiten behandeln Mit Spring Boot Actuator arbeiten Spring verwalten Spring mit JMX überwachen Spring bereitstellen Bootstrapping von Spring Anwendungen

Guide to Web Development with Java Tim Downey, 2021-04-12 This comprehensive Guide to Web Development with Java introduces the readers to the three tiered Model View Controller architecture by using Spring JPA JSPs and Spring MVC controllers These three technologies use Java so that a student with a background in programming will be able to master them with ease with the end result of being able to create web applications that use MVC validate user input and save data to a database Topics and features Presents web development topics in an accessible easy to follow style focusing on core information first and allowing the reader to gain basic understanding before moving forwards Contains many helpful pedagogical tools for students and lecturers such as questions and exercises at the end of each chapter detailed illustrations chapter summaries and a glossary Uses existing powerful technologies that are freely available on the web to speed up web development such as Spring Boot Spring MVC Spring JPA Hibernate JSP JSTL and Java 1 8 Discusses HTML HTML forms and Cascading Style Sheets Starts with the simplest technology for web development JSP and gradually introduces the reader to more complex topics Introduces core technologies from the outset such as the Model View Controller architecture Includes examples for accessing common web services Provides supplementary examples and tutorials

Insight Turkey / Spring 2021 - Resurge Of Anti-Islam Activity Worldwide , 2021-06-01 Although most European countries deny the existence of anti Islam and anti Muslim sentiment the evidence on the ground demonstrates that racism and hate crimes against Muslims have become widespread and begun to normalize throughout Europe Every passing day racist xenophobic and anti Islam tendencies are further entrenched in European societies and institutions The main concern about the most recent wave of anti Islam is the fact that the mainstream political parties have begun to accept anti Islam as a normal position and to use political discourses of ultranationalist and xenophobic political actors Many Western governments have begun to introduce new laws normalizing anti Islam outlooks in their countries When hostility becomes commonplace and discrimination is internalized all political codes are written accordingly laws are interpreted similarly and social perceptions are shaped in the same mould The process has come to such a point that victimized Muslims are even afraid of complaining about the attacks committed against

them According to a survey published by the EU Agency for Fundamental Rights only 12 percent of Muslims report anti Muslim discrimination cases to officials That is the available data and numbers which are already alarming are only the tip of the iceberg Based upon the above explanations it can be claimed that the anti Islam trend is largely a Western product and that the Western political actors are largely responsible for the resurgence of anti Islam activity in the world To put a stop to this situation European countries and EU institutions such as the European Parliament need to recognize anti Islam attitudes as a form of racism European actors should fight against all kinds of discrimination racism hate crimes and human rights violations as they fight against anti-Semitism The EU should initiate a de-radicalization program in order to re-establish a multicultural Europe Europe should not surrender to far right or far left terrorists otherwise it will continue to lose its moral superiority Moreover unless Europeans take necessary measures against anti Islam European states are destined to lose rationality in their policies This wicked process is similar to a double-edged sword that cuts Muslims and non-Muslim Europeans as well Lastly in this issue I would like to draw attention to the concept of anti Islam which I believe is a better concept to use instead of Islamophobia considering that anti Islam is a more political concept compared with the latter The Western and non-Western perception of Islam is totally political Countries that have large Muslim minorities consider the spread of Islam and the increase of Muslims as a threat to their political projects and their way of life Anti Islam similar to any political perspective that targets all members of a religion or ethnicity is a form of racism With these said the current issue of Insight Turkey brings to its readers four commentaries and six research articles covering anti Islam practices worldwide while focusing on different dimensions of these activities As Muslim communities have been racialized as the Other for decades James Carr provides a comprehensive analysis on how contemporary neoliberal civilizing missions operate at different levels to create neoliberal citizens while penalizing Muslims that refuse to participate In Europe particularly Marcelo Macedo Rizo asserts that the depiction of Islam and Muslims has also been dominated by an Othering He proposes the application of a democratic Alterity to overcome the existing harmful European vision towards Muslims The impact of far right parties activities and the governmental politics of fear in general have resulted in different realities that allowed anti Muslim hatred and actions to increase Within this perspective Farid Hafez explains how the introduction of the notion of political Islam by the Austrian People's Party came to the criminalization of vocal and/or organized Muslims Meanwhile in Italy there is a lack of acknowledgment of Islam and Muslims by the Italian state Domenico Altomonte argues that anti Muslim hatred in Italy allows its citizens to conceive an exclusionary populist discourse and a shared negative view that impedes the enforcement of the right to religious freedom Furthermore Chris Allen analyzes the existence of anti Islam activities in the United Kingdom From a feminist perspective Merref Yard m and Ali H. Seyino lu analyze anti-veil and anti-burqa laws in France by focusing on their historical and social foundations However anti Islam is not only limited to Europe As CJ Werleman asserts the rising violence against Muslims in India has brought Muslims to the brink of genocide in India

and Kashmir As mentioned previously anti Islam is mainly politically constructed This can be understood better when taking into consideration Kristin VandenBelt s research which compares the experience of Muslims in Europe and Latin America Denmark and Argentina respectively Media is another actor which augments anti Islam activities and discourse Within this perspective Ali Murat Yel s research article brings attention to Turkish media representation of Islam and its impact on the social antagonization Furthermore Sahar Khamis commentary focuses on the social media and concludes with a few thoughts on what needs to be done to ensure the success and continuation of efforts to counter Islamophobia Besides the pieces that cover the resurgence of anti Islam worldwide this issue also includes a number of articles that discuss some important issues Burhanettin Duran on the tenth anniversary of the Arab Uprising provides a general framework of the developments in the region Elmar Mustafayev looks at the stance of France on the Second Karabakh war between Armenia and Azerbaijan from the angle of the norms and values of the EU Migration has been the subject of the political developments in Europe lately Within this context brahim rdem and Yavor Raychev examine the use of coercive engineered migration as a hybrid threat during the 2015 EU refugee crisis Lastly Burak K rk in his article questions the state sponsoring of the terrorist operations of the Armenian Secret Army for the Liberation of Armenia and the Justice Commandos of the Armenian Genocide At a time when anti Islam activities are resurging and the Muslim voices are kept down this issue of Insight Turkey aims to present and to provide the verity to its readers through an extensive and rich framing of the ongoing anti Islam practices worldwide We hope that this issue contributes to increase awareness about anti Islam activities in today s world

The Environmental Policy Paradox (1-download) Zachary A. Smith, 2015-09-25 This book examines environmental policy in the United States in air water land use agriculture energy waste disposal and other areas It discusses the legal processes that come into play when citizens pursue environmental policy goals in the courts

Encyclopedia of Information Science and Technology, Fifth Edition Khosrow-Pour D.B.A., Mehdi, 2020-07-24 The rise of intelligence and computation within technology has created an eruption of potential applications in numerous professional industries Techniques such as data analysis cloud computing machine learning and others have altered the traditional processes of various disciplines including healthcare economics transportation and politics Information technology in today s world is beginning to uncover opportunities for experts in these fields that they are not yet aware of The exposure of specific instances in which these devices are being implemented will assist other specialists in how to successfully utilize these transformative tools with the appropriate amount of discretion safety and awareness Considering the level of diverse uses and practices throughout the globe the fifth edition of the Encyclopedia of Information Science and Technology series continues the enduring legacy set forth by its predecessors as a premier reference that contributes the most cutting edge concepts and methodologies to the research community The Encyclopedia of Information Science and Technology Fifth Edition is a three volume set that includes 136 original and previously unpublished research chapters that present multidisciplinary research and expert insights into new methods and

processes for understanding modern technological tools and their applications as well as emerging theories and ethical controversies surrounding the field of information science Highlighting a wide range of topics such as natural language processing decision support systems and electronic government this book offers strategies for implementing smart devices and analytics into various professional disciplines The techniques discussed in this publication are ideal for IT professionals developers computer scientists practitioners managers policymakers engineers data analysts and programmers seeking to understand the latest developments within this field and who are looking to apply new tools and policies in their practice Additionally academicians researchers and students in fields that include but are not limited to software engineering cybersecurity information technology media and communications urban planning computer science healthcare economics environmental science data management and political science will benefit from the extensive knowledge compiled within this publication
