writing Let me be upfront with you unless you re some kind of genius in my experience as a native Chinese and as a Chinese  
language teacher there are absolutely no shortcuts You can only learn writing Chinese by writing pen on paper once twice  
again and again not only for the sake of practicing but for communicating as well Writing short paragraphs describing your

characters organized by their 75 radicals and 287 highly frequently used words that can be written with these characters  
making your study experience very practical It s perfectly suited to be used both as a study guide and as a reference When
