The Road from Eden John Barber, 2008

Hauerwas the Peacemaker? Nathan Scot Hosler, 2020-04-14 War has been abolished in Christ is a strong claim by theologian Stanley Hauerwas Wars however continue to rage and historic numbers of people are displaced globally Despite critics assessments that Hauerwas contributes to Christians disengaging his work provides certain tools for the work of peacebuilding In this work Hauerwas s contribution to peacemaking as a part of his ecclesiology and broader theological ethical work will be assessed Hauerwas s peacemaking within his work stands within the context of ecclesiology and related themes of witness and Christology The possibilities of his work on peacemaking to extend to peacebuilding practice and foreign policy formation are explored and a critique is leveled regarding his engagement with racial justice Additionally certain practices of reading in theology and training in this language are extrapolated to engage the task of policy formation and analysis in contexts where religion is an active factor This study concludes that Hauerwas s theological ethics of peacemaking makes a valuable contribution but must be extended into specific practices

Zusammenbestehbarkeiten Friedemann Voigt, 2024-12-16 Dieser Band würdigt anlässlich des 100. Todestages von Ernst Troeltsch am 1. Februar 2023 sein Denken und zieht eine Zwischenbilanz der internationalen Troeltsch-Forschung. Vor allem durch die inzwischen weit fortgeschrittene Kritische Gesamtausgabe der Schriften Troeltschs ist ein umfassender und in mancher Hinsicht auch neuer Blick auf den protestantischen Theologen, Kulturhistoriker, Philosophen und politischen Denker möglich geworden. Dieser Band bietet einen Querschnitt durch das Werk Troeltschs und legt dabei ein besonderes Augenmerk auf die Gebiete, welche durch die Kritische Gesamtausgabe und die sie begleitende Forschung in den letzten Jahren neue Belebung erfahren haben: Religionsphilosophie, Christentum und Kulturgeschichte sowie Politik. Building World Order

Mark R. Amstutz, 2025-04-01 International relations theorist Amstutz describes how values and perspectives from Christianity can help advance a more humane global order. After highlighting key features of the nation-state and of global society, he illustrates the role of Christian values in international relations with case studies exploring three contemporary global problems: migration, development, and climate change. Amstutz contends that a Christian worldview focused on the dignity and rights of the individual as well as an emphasis on the common good can contribute to peace, prosperity, and justice in the international community. The topic of global order is now more important than ever, given that the rules-based global order established at the end of World War II is under great stress, as witnessed in current wars in Gaza and Ukraine and the emergence of far-right regimes in Hungary, Turkey, and perhaps even France. Despite significant improvement in living conditions worldwide, the international community continues to face many global problems, including failing states, domestic and interstate violence, persistent poverty, growth in refugees, mass migration, climate change, and global economic instability. Most importantly, the contemporary liberal order is facing major opposition from authoritarian states. The contemporary challenge to the liberal order gives rise to urgent questions: Will the liberal global order be replaced by a more chaotic, power-based order? Is there a better way to organize the world than the existing UN-based nation-state system? How can the liberal international system be renewed? Can fragile states be strengthened? What contribution can a Christian perspective bring to the task of renewing global order? Amstutz argues that the advance of international justice and global order needs to be based on the nation-state, the basic building block of our contemporary international community. Most initiatives to improve the international community are rooted in political idealism or utopian thought and presume a shift from state sovereignty towards world governance. This study, by contrast, assumes that any improvement in world order will necessarily depend on the ongoing role of the sovereign state. In advancing global peace and prosperity, three tasks are vital: first, strengthen weak, fragile states; second, increase the number of constitutional democratic states; and third, strengthen international cooperation in addressing shared global problems. Christian values and perspectives, Amstutz claims, can

contribute to a better world by helping to structure the moral analysis of issues and by inspiring action that advances the common good

Retrieving the Natural Law J. Daryl Charles, 2008-04-14 J Daryl Charles argues that a traditional metaphysics of natural law lies at the heart of the present reconstructive project and that a revival in natural law thinking is of the highest priority for the Christian community as we contend in rather than abdicate the public square Nowhere is this more on display than in the realm of bioethics where the most basic moral questions human personhood human rights versus responsibilities the reality of moral evil the basis of civil society are being debated from publisher description

Embodied Existence Pavol Bargar, 2023-05-04 This book makes a case from an ecumenical Christian perspective for a theological anthropology and a missiology that are based on the essential significance of story body imagination and relationality in order to understand what it means to be human vis vis God the other and creation Such an interpretation moreover enables seeking and pursuing a common life for the whole creation in the force field of God's radical and transformative reign To advance its argument it engages contemporary culture including cinema and to a lesser extent fiction and music

In the World, But Not of the World Andrew L. Fitz-Gibbon, 2000-01-01 In the World But Not of the World explores the threefold tension among Alasdair MacIntyre s prognosis for Western society the desires of some for a social transformation with a Christian moral vision at the sacred centre and a baptist understanding of Christianity as essentially voluntary non sacralist discipleship Andrew Fitz Gibbon uses five contemporary Christian social thinkers from different traditions as conversation partners Through his examination of these thinkers Fitz Gibbon explores how the church may continue to truthfully narrate the Christian story in the midst of the moral tensions of late capitalist Western society His creative conclusion is that the church at the beginning of the twenty first century can move toward a resolution of the central tension of being in the world but not of the world through a synthesis of the believers church tradition and an affirmation of communitarian liberal democracy

Reading Scripture as the Church Derek W. Taylor, 2020-09-22 The Bible is meant to be read in the church by the church as the church Following the example of Dietrich Bonhoeffer Derek Taylor argues that we should regard the reading of Scripture as an inherently communal exercise of discipleship In conversation with other theologians Taylor shares how this approach to Scripture can engender a faithful hermeneutical community
