Stating the Sacred Michael J. Walsh, 2020-02-25 China's constitution explicitly refers to its sovereign domain as sacred territory. Why does an avowedly secular state make such a claim and what does this suggest about the relations between religion and the nation state? Focusing primarily on China, *Stating the Sacred* offers a novel approach to nation state formation, arguing that its most critical element is how the state sacralizes the nation. Michael J. Walsh explores the religious and political dimensions of Chinese state ideology, making the case that the sacred is a constitutive part of modern China. He examines the structural connection among texts, constitutions, legal codes, national histories, ostensibly universal and normative categories, race, religion, citizenship, freedom, human rights, and territoriality, the integrity of sovereignty and control over resources, and people, showing how they are bound together by the sacred. Considering a variety of what he refers to as theopolitical techniques, Walsh argues that nation states undertake sacralization in order to legitimate the violence of establishing and expanding their sovereignty. Ultimately, territorialization is a form of sacralization, and the foundational role of the sacred makes all nation states religious states. *Stating the Sacred* offers new ways of understanding China's approach to legality, control of the populace, religious freedom, human rights, and the structuring of international relations, and it raises existential questions about the fundamental nature of the nation state.

Servanthood of Song Stanley R. McDaniel, 2024-05-23 *Servanthood of Song* is a history of American church music from the colonial era to the present. Its focus is on the institutional and societal pressures that have shaped church song and have led us directly to where we are today. The gulf which separates advocates of traditional and contemporary worship, Black and White, Protestant and Catholic, is not new. History repeatedly shows us that ministry to be effective must meet the needs of the entire worshipping community, not just one segment, age group, or class. *Servanthood of Song* provides a

historical context for trends in contemporary worship in the United States and suggests that the current polemical divisions between advocates of contemporary and traditional classically oriented church music are both unnecessary and counterproductive. It also draws from history to show that to be the powerful component of worship it can be music whatever the genre must be viewed as a ministry with training appropriate to that Servanthood of Song provides a critical resource for anyone considering a career in either musical or pastoral ministries in the American church as well as all who care passionately about vital and authentic worship for the church of today *Copyright Class Struggle* Hannibal Travis, 2018-10-04
