CIMA Official Learning System Fundamentals of Financial Accounting Henry Lunt, 2009-07-18 CIMA Official Learning Systems are the only coursebooks recommended by CIMA. Written by a team of experts that include past and present CIMA examiners and markers, they contain everything you need to know. Each book maps to the syllabus chapter by chapter to help you learn effectively and reinforce learning with features including comprehensive coverage of the whole syllabus step by step coverage directly linked to CIMA's Learning Outcomes, up to date examples and case studies, practice questions to test knowledge and understanding, integrated readings to increase understanding of key theories, colour used throughout to highlight key learning points. The Official Learning systems are the only study materials endorsed by CIMA. Key sections written by former examiners for the most accurate up to date guidance towards exam success. Complete integrated package incorporating syllabus guidance, full text recommended articles, revision guides and extensive question practice. **CIMA F1** BPP Learning Media, 2012-09-01 F1 builds on knowledge from paper C2 and introduces tax at a very basic level. It is not based on any tax regime. Financial reporting is a major part of the syllabus. Both single company and group accounts are examined in the two 25 mark questions in section C. New financial reporting topics introduced at this level are group accounts, construction contracts, financial instruments and leases. It has four main sections: The principles of business taxation, The principles of regulation of financial reporting, Preparation of financial statements which conform with IFRS, Consolidated financial statements. The study text concentrates on the key areas of the syllabus taking into account the way in which topics are examined. The text has a step by step approach to producing financial statements and lots of exercises in which you can practice the workings. We guide you through the more problematic topics which can be brought into the preparation of single company and group financial statements and give you plenty of examples. *Fundamentals of Financial Accounting* Henry Lunt, 2006.
