Civics Government And Economics In Action Teachers Edition:

Philosophy of Education in the Era of Globalization Yvonne Raley, Gerhard Preyer, 2009-12-04 Terrorism ethnocentrism religious tension competition over limited resources war these are just a few of the problems and challenges that have emerged in today's global economy Globalization both implies and requires economic interdependence and this should bring with it a heightened sense of the interconnectedness of the participating societies But unfortunately as recent events indicate rather than our having formed a global community today's society is more fragmented than ever In light of this education faces some formidable new challenges How do we prepare future citizens for the world they will live in How do we teach future generations to embrace the paradox of accepting the value of multiculturalism despite the conflicts it has produced How do we instill religious tolerance in a time when fundamentalism has become inextricably tied with terrorism How do we promote economic growth in the face of overpopulation and its depletion of resources The authors of this collection of essays explore these and related challenges and they suggest some novel ways of dealing with them Reading Actively in Middle Grade Social Studies Don K. Philpot, 2019-08-14 Middle grade students can learn a great deal about themselves and their world by reading informative texts in social studies courses These texts will focus on important topics in history geography civics government and economics and offer students a range of perspectives on past and present social events But reading is a complex act and most students need specific reading related support to understand assigned texts in middle grade social studies courses This book focuses on the cyclical nature of reading the actions proficient readers engage in to understand social studies textbooks and other informational texts and the instructional support that teachers can provide to enhance middle grade students learning of social studies content through reading Three associated questions will be addressed in this book What actions do proficient readers engage in to understand assigned course texts What do these actions entail and how do they relate to each other What teacher mediated practices best support middle grade students development as proficient readers and enhance their learning of course content through reading **Resources in Education**, 2001-10 Teaching Civic Literacy Projects Shira Eve Epstein, 2014 This practical resource shows teachers how to enact robust forms of civic education in today's schools Both instructive and thought provoking it will inspire teachers to craft curricula addressing a wide range of genuine civic problems such as those related to racial discrimination environmental damage and community health Dividing civic literacy projects into three key phases problem identification problem exploration and action the author provides concrete examples from upper elementary middle and high school classrooms to illustrate and analyze how each phase can unfold The projects ultimately provide opportunities for youth to participate in civic life while they develop essential literacy skills associated with reading writing and speaking The final chapter outlines a curriculum design process that will result in coherent and meaningful civic literacy projects driven by clear goals It includes practical tools such as a sample unit timeline an assessment chart and student worksheets that can be

modified for immediate use Shira's work offers us a reflection of democratic practice in the classroom through the teaching of critical reading persuasive writing and deliberation In *Teaching Civic Literacy Projects* Shira invites us all to contemplate the depth of the democratic project and the possibility that schools can help uphold our democratic ideals From the Foreword by Celia Oyler professor Teachers College Columbia University This book is a gem Shira Epstein has provided invaluable assistance for teachers interested in engaging their students in the political and civic spheres in ways that build crucial literacy skills The combination of a powerful framework and rich and detailed case studies provides readers with a clear vision and helpful specific guidance for creating robust civic learning experiences for young people Diana Hess senior vice president Spencer Foundation and professor University of Wisconsin Madison Excellent civic education means encouraging young people to identify and define problems and take action That is challenging in our era of political polarization and narrow definitions of education Shira Eve Epstein provides the best practical guide for teachers who want their students to confront social problems Peter Levine Lincoln Filene Professor of Citizenship Public Affairs Tufts University
