Pastoral Aesthetics Nathan Carlin, 2019-03-06 It is often said that bioethics emerged from

theology in the 1960s and that since then it has grown into a secular enterprise yielding to other disciplines and professions such as philosophy and law During the 1970s and 1980s a kind of secularism in biomedicine and related areas was encouraged by the need for a neutral language that could provide common ground for guiding clinical practice and research protocols Tom Beauchamp and James Childress in their pivotal *The Principles of Biomedical Ethics* achieved this neutrality through an approach that came to be known as principlist bioethics In *Pastoral Aesthetics* Nathan Carlin critically engages Beauchamp and Childress by revisiting the role of religion in bioethics and argues that pastoral theologians can enrich moral imagination in bioethics by cultivating an aesthetic sensibility that is theologically informed psychologically sophisticated therapeutically oriented and experientially grounded To achieve these ends Carlin employs Paul Tillich's method of correlation by positioning four principles of bioethics with four images of pastoral care drawing on a range of sources including painting fiction memoir poetry journalism cultural studies clinical journals classic cases in bioethics and original pastoral care conversations What emerges is a form of interdisciplinary inquiry that will be of special interest to bioethicists theologians and chaplains *Catholic Bioethics and Social Justice* M. An internationally renowned palliative care physician offers guidance on living with a terminal illness Based on research funded by the Soros Foundation and extensive interviews with dying people A profound and practical book about living with a terminal illness over a long period of time It offers guidance solace and helpful strategies for people who are terminally ill their families and caregivers Facing death results in more fear and anxiety than any other human experience Western medicine has accomplished a great deal in addressing physical pain and controlling symptoms for people with a terminal illness but much slower progress has been made in understanding and alleviating psychological and spiritual distress In *What Dying People Want* Dr David Kuhl begins to bridge that gap He does so by addressing end of life realities physical psychological and spiritual through his own experiences as a doctor and through the words and experiences of people who know that they are dying He presents ways of addressing the pain of finding new life in the process of dying and of understanding the inner reality of living with a terminal illness He acknowledges the despair and recognizes the desire for hope and meaning Dr Kuhl also makes the provocative case that insensitive communication by doctors creates more suffering for patients than either the illness or the knowledge of impending death and offers both the

dying and their caregivers guidance on preventing painful interactions He provides ways of speaking about difficult topics with physicians family members friends and those who have a terminal illness This book started with a research question What is the daily experience of living with a terminal illness How does that experience affect your sense of self your relationship with others and your understanding of the spiritual Many of those I interviewed asked me to share what they had given me with others who would follow those with a terminal illness as well as their friends and family members who would care for them and about them They asked specifically that I write a book for a general audience and not only for my colleagues in the medical profession This is the book that grew out of that research Dr David Kuhl **What Dying People Want** David Kuhl, 2003-07-10 Facing death results in more fear and anxiety than any other human experience Though much has been done to address the physical pain suffered by those with a terminal illness Western medicine has been slow to understand and alleviate the psychological and spiritual distress that comes with the knowledge of death In What Dying People Want Dr David Kuhl begins to bridge that gap by addressing end of life realities practical and emotional through his own experiences as a doctor and through the words and experiences of people who knew that they were dying Dr Kuhl presents ways of finding new life in the process of dying understanding the inner reality of living with a terminal illness and addressing the fear of pain as well as pain itself He also offers concrete guidance on how to enhance doctor patient relationships and hold family meetings and provides an introduction to the process of life review It is possible to find meaning and peace in the face of death What Dying People Want helps us learn to view the knowledge of death as a gift not a curse New Times
