articulated what it means to pray and thereby understand one's place in a world of individual and communal bodies. The eight women writers discussed—Elizabeth Barrett Browning, Josephine Butler, George Eliot, Elizabeth Gaskell, Dora Greenwell, Felicia Hemans, Adelaide Procter, and Christina Rossetti—provide accounts of prayer that stress that the only way to experience and respond to something of the transcendent is through embracing lived experience and through a recognition of the connectedness of all bodies. In detailing how these writers engage with new ways of thinking about faith, desire, and the material world, Ludlow argues that they offer models for ethical modes of being in the world and pave the way for later theologies of embodiment.

Women Preachers and Prophets through Two Millennia of Christianity Beverly Mayne Kienzle, Pamela J. Walker, 2023-09-01 For nearly two millennia despite repeated prohibitions, Christian women have preached. Some have preached in official settings; others have found alternative routes for expression. Prophecy, teaching, writing, and song have all filled a broad definition of preaching. This anthology, with essays by an international group of scholars from several disciplines, investigates the diverse voices of Christian women who claimed the authority to preach and prophesy. The contributors examine the centuries of arguments grounded in Pauline injunctions against women's public speech and the different ways women from the early years of the church through the twentieth century have nonetheless exercised religious leadership in their communities. Some of them based their authority solely on divine inspiration; others were authorized by independent-minded communities; a few were even recognized by the church hierarchy. With its lively accounts of women preachers and prophets in the Christian tradition, this exceptionally well-documented collection will interest scholars and general readers alike. For nearly two millennia despite repeated prohibitions, Christian women have preached. Some have preached in official settings; others have found alternative routes for expression. Prophecy, teaching, writing, and song have all filled a broad definition.

Christian Modernities in Britain and Ireland in the Twentieth Century John Carter Wood, 2022-12-30 The dramatic social, cultural, and political changes in the twentieth century posed challenges and opportunities to Christian believers in Britain and Ireland. Many, whether in the churches or among the laity, sought to adapt their faith to what was seen as a new, modern world fundamentally different than the one in which Christianity had risen to a position of institutional and cultural dominance. Alongside the more long-term processes of industrialisation, urbanisation, and democratisation, the formative experiences of war and post-war reconstruction, confrontations with totalitarianism, changing relations between the sexes, and engagements with an increasingly assertive secular culture inspired many Christians not only to reconsider their faith but also to try to influence the emerging modernity. The chapters in this volume address various specific topics, from mass politics to sexuality, but are linked by a stress on how Christians played active roles in building modern life in twentieth-century Britain and Ireland. Tensions and ambiguities between religious and secular, and between modern and traditional, make understanding Christian encounters with modernity a valuable topic in the exploration of the complexities of twentieth-century cultural and intellectual history. This book will be of great value to students and scholars in
