Tongue-Tied Sara Wenger Shenk, 2021-04-06 Are you tongue tied about faith Many Christians easily and eagerly talk about movies sports politics jobs and emotions So why are we tongue tied when it comes to talking about our faith even with each other Even with our kids What renders us incapable embarrassed or hesitant to talk about God In Tongue tied theologian and former seminary president Sara Wenger Shenk investigates the reasons that people who claim the name of Christ are so reluctant to talk about him Recovering an authentic vocabulary of faith and learning to speak in trustworthy captivating ways is an urgent task for followers of Jesus today In an era of dying churches polarizing cultural arguments and environmental and humanitarian crises many people are longing for deep conversations about things that matter We are longing for genuine spiritual connection with a just and loving God By reflecting theologically on biblical wisdom and our

shared humanness Wenger Shenk calls readers to recover the winsome language of Christian faith We don't need to relearn Christianese or brush up on churchy clichés We need a language of faith that is authentic candid and robust enough to last

Christians as Teachers Geoffrey Beech, 2015-12-04 How does teaching Christianly differ from other forms of teaching How might a Christian teach in a biblical way some commonplace set of facts from a mandated secular curriculum This book considers what a biblical approach to teaching may involve as it emerges from a biblically grounded life and what that might look like in the classroom Rather than speaking of integration of faith and learning it starts from a foundation of Christ the Truth and Lord of all and moves to the development of a framework for classroom practice that includes a need to try to see things from God's perspective All truly Christian education is seen therefore as a profoundly biblical pursuit leading to the revelation of God To do this the book explores the underlying theology and principles out of which our education should flow These principles then allow us to examine such areas as the consideration of a Christian way to teach subjects such as geography and mathematics or even what might be distinctive about the way a Christian teacher may do something as mundane as picking up a pencil
