BALANCING UNITY AND DIVERSITY IN EU LEGISLATION

Balancing Unity And Diversity Exit And Voice In The Eu

Mikaela Sundberg

Balancing Unity And Diversity Exit And Voice In The Eu:

The European Union beyond the Crisis Boyka M Stefanova, 2014-11-14 This volume explores institutional and policy developments in the EU and its member states in a parallel examination of citizens views of the effectiveness of crisis response reflected in public trust output legitimacy and satisfaction with democracy Our approach to understanding the crisis posits EU level governance and institutional change national level policymaking and domestic politics as interrelated interdependent domains of political action and public spheres that collectively shape the political landscape of post crisis Europe The volume sheds new light on the relationship among the institutional policy and polity consequences of the crisis The book has two fundamental aims The first is to demonstrate the interconnected nature of European governance domestic reform and democratic politics The unprecedented complexity of the financial sovereign debt economic and social crises in Europe has led to a political crisis that reflects the struggle to effectively address its various causes and effects The second objective is to present a theoretically informed assessment of the consequences of the European crises for state society relations and democratic legitimacy Our analysis of the crisis in a variety of national contexts and European governance highlights the difficulties faced by political decision makers We find that the domestic policy process is selectively affected or disconnected from the process of rule making at the EU level that public opinion still matters in the process of policy formation and EU crisis response and that the salience of the EU agenda in the domestic public sphere increasingly depends on the preferences of political actors Public response to the crisis has become increasingly complex as well ranging from declining trust in the political institutions emerging national stereotypes changing expectations of the EU level of crisis response growing disconnect between political parties and voters and evolving intra regional distinctions across the EU s east west divide

Constitutional Disintegration and Disruption Oliver Garner, 2025-04-02 The United Kingdom s unprecedented withdrawal from the European Union in 2020 may be regarded as the first example of European disintegration This moment however was preceded by decades of disruption as the UK Ireland and Denmark pursued opt outs from the supranational constitutional order Constitutional Disintegration and Disruption Withdrawal and Opt Outs from the European Union provides the first comprehensive analysis of these two phenomena The book presents the European Union as an order that is legitimated by individuals playing a dual role as both nationals of Member States and citizens of the European Union in turn individuals are both democratic subjects and juridical objects within this order The EU Treaties have instituted a triptych for the exercise of constituted constituent power by these individuals Article 49 TEU allowing accession Article 48 TEU enabling amendment and Article 50 TEU as a mechanism for the repatriation of power through withdrawal Opt outs are an iterative anomaly that have arisen through the retention of amendment power by representatives of Member State nationals Reservations of constituent power have been operationalized in Protocols to the Treaties By contrast the withdrawal clause was proactively inserted into the Treaties as a sovereign right for Member State nationals subject to an

orderly supranational procedure for the benefit of all EU citizens The book presents narratives of disruption and disintegration that provide comprehensive historical overviews of how opt outs and withdrawal arose and developed Constitutional Disintegration and Disruption concludes with criticism of the consequences of these phenomena for individuals and proposes reforms to the EU Treaties that would enable citizens to more fully realize their dual role in the European constitutional space

The Future of African-European Relations Dirk Brand,Doris Dialer,Annegret Eppler,Andreas Pattar,2025-08-05 This book explores the future of African European relations with a focus on achieving equity in a global context Drawing on the expertise of policymakers institutional stakeholders scholars and practitioners from both the global south and the global north this contributed book offers unique insights into successful cooperation strategies between Africa and Europe By offering case studies and clear perspectives the book covers topics such as the implementation of public policies the role of culture and languages judicial independence e governance technical cooperation and project management energy crisis economic growth and global health Moving beyond conventional development rhetoric and geopolitical divides this book creates a common narrative for fostering an equitable global society This book goes beneath the general development rhetoric exploring the underlying dynamics of African European societies their local practices and cultures It also critically examines the post pandemic global health architecture and the energy crisis from an African European perspective Additionally it includes a dedicated chapter on the influential role of culture in shaping African European relations

Foreign Relations Federalism Thomas Verellen,2023 Through a comparative analysis of the United States Canada Belgium and the EU this book examines the constitutional framework in which foreign relations are conducted in federal unions In doing so this book contributes to debates on how the EU s foreign affairs constitution should be structured

The Future of the European Union Peter G. Xuereb,2002 **Authoritarian Liberalism and the Transformation of Modern Europe** Michael A. Wilkinson,2021 Oxford Constitutional Theory has rapidly established itself as the primary point of reference for theoretical reflections on the growing interest in constitutions and constitutional law in domestic regional and global contexts The majority of the works published in the series are monographs that advance new understandings of their subject But the series aims to provide a forum for further innovation in the field by also including well conceived edited collections that bring a variety of perspectives and disciplinary approaches to bear on specific themes in constitutional thought and by publishing English translations of leading monographs in constitutional theory that have originally been written in languages other than English Book jacket

A Sociology of the Total Organization Mikaela Sundberg,2016-03-09 Examining the organization of everyday life inside the regiments of the French Foreign Legion this book takes its theoretical point of departure in the notion of the voluntary total organization that is to say an institution that constitutes a geographically delimited place of residence and work in which inmates are voluntarily separated from the outside world leading an enclosed formally administered life Informed by a modified version of Goffman s original concept of

the total institution A Sociology of the Total Organization untangles the Foreign Legion and the ways in which different kinds of social orders interplay there With a focus on regimental life the author characterizes the armed forces not only as a total organization but also as a greedy one seeking undivided loyalty and the incorporation of all social roles within its bounds Against this understanding the book draws on rich ethnographic work to develop the notion of atomistic unity the ideal relational condition that exists in the military in which individuals commit to a unit and articulate ties with individuals on an impersonal basis grounded in the belief in a greater whole A detailed and empirically grounded study of the mechanisms in which the Foreign Legion not only cuts members ties to people outside the organization but also restricts the creation and maintenance of ties among its members this book shows how atomistic unity is not limited to greedy organizations such as the military but applies to a variety of collectivist settings As such it will appeal to scholars of sociology and anthropology with interests in military life social relations social theory and the work of Goffman **Constituting Communities P.**

Mouritsen,2008-02-27 From a cross disciplinary and conceptual perspective this book discusses the political solutions of constitutional patriotism republicanism and liberal nationalism to cultural conflict It places these debates in the context of real national traditions where all civic language inevitably also reflects culture **Constitutional Law and Politics of Secession** Antoni Abat i Ninet,2023-07-31 This collection presents an analysis of the concept of secession and its constitutional accommodation alongside an assessment of the effects of secession in constitutional and international law The work proposes a new approach and insights into the existing literature that fill a gap from multidisciplinary and transdisciplinary perspectives The book approaches the topics of secession constitutionalism and their relationship from both theoretical and empirical perspectives including the analysis of particular secessionist examples such as Catalonia the Basque Country Tigray the Palestinian minority in Israel Bosnia and Herzegovina and the Mapuche Nation from a comparative constitutional perspective Elucidating these issues from different methodological and conceptual perspectives produces novelties in the scientific and constitutional debate The interplay between constitutions constitutional law and secession is indeed explored from philosophical socio legal but also from strict constitutional law outlooks Written by constitutional and public international law experts the book will be of interest to students academics and researchers working in the areas of constitutional law legal theory theory of the state philosophy of law and political science Journal of Singing ,1995 *Bulletin of the Atomic Scientists* ,1967-03 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **World Wise Words - Le vocabulaire anglais pour réussir les examens** Florent Gusdorf,2021-04-13 Edition revue et augment e Con u pour r pondre aux questions d actualit qui se posent au pr parationnaire l tudiant ou l ing nieur World Wise Words rassemble le vocabulaire essentiel et les arguments utiles pour tayer et d velopper sa pens e en anglais Organis autour des probl matiques du 21e si
