Gastrointestinal Eponymic Signs Steven H. Yale,Halil Tekiner,Eileen S. Yale,Ryan C. Yale,2024-01-16 This book provides a novel method to teach eponymically named physical signs of the alimentary tract and intrabdominal organs The focus is on the historical aspect of the named signs how to perform the sign described by the author and the pathophysiologic mechanisms involved in eliciting a positive test The goal is to guide the reader to appreciate how these bedside signs provide a more profound understanding of the mechanism of disease By doing so they become more than simply rote memorization but an appreciation of how a direct hands on assessment involving observing engaging listening and touching the patient assists in diagnosis Hence these techniques provided the additional benefit of better connecting the practitioner to the patients and maintaining the art of medicine which is rapidly losing its foothold within the medical community This book will serve as a teaching tool for learners teachers and practicing physicians to preserve the art of the physical examination using a form of a case based teaching and learning style approach Illustrations throughout the text provide a visual representation of how to perform the sign The authors believe this method of teaching and learning is more meaningful to the student in that they will be able to associate the name with the person s historical features the sign and its pathophysiologic mechanism s
