The White Tiger Aravind Adiga, 2008. *The White Tiger* is a compelling first novel about the new India that is growing roots all around us in unexpected and often ominous ways. Compelling, angry, and darkly humorous, *The White Tiger* is an unexpected journey into a new India. Aravind Adiga is a talent to watch. Mohsin Hamid, Booker Shortlisted Author of *The Reluctant Fundamentalist*. In *The Grand Illusions* of a rising India, Aravind Adiga has found a subject Gogol might have envied. With remorselessly and delightfully mordant wit, *The White Tiger* anatomizes the fantastic cravings of the rich. It evokes too, with startling accuracy and tenderness, the no less desperate struggles of the deprived. Pankaj Mishra: Unlike almost any other Indian novel you might have read in recent years, this page-turner offers a completely bald, angry, unadorned portrait of the country as seen from the bottom of the heap. There's not a sniff of saffron or a swirl of sari anywhere. Narrated by Balram, a self-styled entrepreneur who has murdered his employer, the book follows his progress from child labourer via humiliation as a servant and driver to a mysterious new life in Bangalore. Balram himself is an enticing figure whose reasons for murder become completely understandable by the end. But even more impressive is the nitty-gritty of Indian life that Adiga unearths: the corruption, the class system, the sheer petty viciousness. The Indian Tourist Board won't be pleased, but you'll read it in a trice and find yourself gripped. Sunday Times, London.

Literature and the Creative Economy Sarah Brouillette, 2014-04-15. This book contends that mainstream considerations of the economic and social force of culture, including theories of the creative class and of cognitive and immaterial labor, are indebted to historic conceptions of the art of literary authorship. It shows how contemporary literature has been involved in and has responded to creative economy phenomena, including the presentation of artists as models of contentedly flexible and self-managed work, the treatment of training in and exposure to art as a pathway to social inclusion, the use of culture and cultural institutions to increase property values and support for cultural diversity as a means of growing cultural markets. Contemporary writers have tended to explore how their own critical capacities have become compatible with or even essential to a neoliberal economy that has embraced art's autonomous gestures as proof that authentic self-articulation and social engagement can and should occur within capitalism. Taking a sociological approach to literary criticism, Sarah Brouillette interprets major works of contemporary fiction by Monica Ali, Aravind Adiga, Daljit Nagra, and Ian McEwan alongside government policy, social science, and theoretical explorations of creative work and immaterial labor.
