**The Politics of Prostitution** Joyce Outshoorn, 2004-01-08 The most effective way to deal with

prostitution has always been hotly debated by governments and women's movements alike. Feminists want it abolished or regulated as sex work; governments have to safeguard public health and order. This book, first published in 2004, shows how women's movements in Western Europe, North America, and Australia have affected politics on prostitution and trafficking of women since the 1970s, asking what made them successful in some countries but a failure in others. It also assesses whether government institutions to advance the status of women, so-called women's policy agencies, have played a key role in achieving policy outcomes favourable to movement demands. Written by an international team of experts and based on original sources, all chapters follow the same framework to ensure comparability. The final chapter offers an overall comparison, identifying what makes women's movements successful and women's agencies effective, presenting the case for state feminism.

**Roughing it in the Suburbs** Valerie J. Korinek, 2000-01-01. Korinek shows that rather than promoting domestic perfection, Chatelaine did not cling to the stereotypes of the era but instead forged ahead, providing women with a variety of images, ideas, and critiques of women's role in society.

**Feminist Democratic Representation** Karen Celis, Sarah Childs, 2020-09-10. Popular consensus has long been that if enough women are present in political institutions, they will represent women's interests. Yet many believe that differences among women, disagreeing about what is in their interest, fatally undermine both the principle and the practice of women's group representation. In this book, Karen Celis and Sarah Childs redress women's poverty of political representation with a new feminist account of democratic representation. Rather than giving up on women's group representation, Celis and Childs re-think and re-design representative institutions, taking women's differences, both ideological and intersectional, as their starting point. Feminist Democratic Representation considers a broad spectrum of contemporary problematics: abortion, prostitution, sex work, Muslim women's dress, and Marine Le Pen, to discuss women's under- and misrepresentation and the good, bad, and the ugly representative. As problem-driven scholars firmly grounded in feminist and democratic empirical and theoretical political science, Celis and Childs imagine what good representation for women in all their diversity could look like: representation as it should be. To realize this ideal in today's established representative democracies, they present a second-generation feminist design for parliaments and legislatures, underpinned by a re-thinking of feminist and democratic principles. Celis and Childs conceive of representation as a range of dimensions and shift the focus in women's group representation from feminist outcome to feminist process. Inclusive, responsive, and egalitarian representation for all women demands a new category of representatives in parliaments: the affected representatives of women, who are epistemologically and experientially close to differently affected women. Affected representatives passionately advocate within political institutions and publicly hold elected representatives to account. Feminist processes of representation have wide effects and deepen relationships between women and their democratic institutions. Against the more fashionable tide of post-representative politics, Feminist Democratic Representation argues not simply for more but significantly better representation. **The**

**Feminist Activism in the Supreme Court** Christopher P. Manfredi, 2004 Since 1980 the Canadian women's movement has been an active participant in constitutional politics and Charter litigation This book through its focus on the Women's Legal Education and Action Fund LEAF presents a compelling examination of how Canadian feminists became key actors in

developing the constitutional doctrine of equality and how they mobilized that doctrine to support the movement's policy agenda. The case of LEAF, an organization that has as its goal the use of Charter litigation to influence legal rules and public policy, provides rich ground for Christopher Manfredi's keen analysis of legal mobilization. In a multitude of areas such as abortion, pornography, sexual assault, family law, and gay and lesbian rights, LEAF has intervened before the Supreme Court to bring its understanding of equality to bear on legal policy development. This study offers a deft examination of LEAF's arguments and seeks to understand how they affected the Court's consideration of the issues. Perhaps most important, it also contemplates the long-term effects of the mobilization and considers the social impact of the legal doctrine that has emerged from LEAF cases. A major contribution to law and society studies.

**Feminist Activism in the Supreme Court** is unparalleled in its analysis of legal mobilization as an effective strategy for social movements. It will be widely read and welcomed by legal scholars, political scientists, lawyers, feminists, and activists.

**Feminist Media** Claire Sedgwick, 2020-08-07

**Feminist Media: From the Second Wave to the Digital Age** analyses the relationship between second-wave feminist media production and capitalism, as well as identifying the tradition that can be drawn between second-wave feminism, Riot Grrrl, and feminist blogging today. There has been a recent re-evaluation of the importance of second-wave feminist media demonstrated by the digitization of *Spare Rib* by the British Library in 2015. However, up until now, research on the magazine has been limited. This book analyses the relationship between *Spare Rib* and the capitalist publishing industry, comparing it to American feminist magazine *Ms*. The book argues that it is important to understand the cultural economies of the magazines, as this had an impact on the assumed readership of the magazines, therefore having an impact on the issues that were privileged. The second half of the book charts a crucial and often overlooked link between feminist media production in the second wave and more contemporary forms of feminist media activism.
