Jung's Liber Novus Thomas Kirsch, George Hogenson, 2017-09-19 In 2009 WW Norton published The Red Book a book written by Jung in 1913 1914 but not previously published Snippets of information about the likely contents of the Red Book had been in circulation for years and there was much debate and eager anticipation of its publication within the Jungian field and the larger reading public In 2010 a conference was held at the San Francisco Jungian Institute which brought together an international group of distinguished scholars in analytical psychology to explore and address critical contextual aspects of The Red Book and to debate its importance for current and future Jungian theory and practice The Red Book Reflections on C G Jung s Liber Novus is based on that conference the individual papers have been thoroughly revised and updated for this book and address some of the important questions and issues that were raised at that conference in response to the presentation of these papers As yet there has been very little published about The Red Book The Red Book Reflections on C G Jung s Liber Novus will contribute to setting the agenda for further research both scholarly and clinical in response to Jung s account of his experiences between 1913 1914 when arguably the future course of his entire project was set in motion This book will be essential reading for any Jungian interested in the importance of The Red Book analytical psychologists trainee analysts those with an interest in the history of ideas and historians **The Collected Works of C.G. G. Jung, 2012-12-17 A portable edition of the famous Red Book text and essay The Red Book published to wide acclaim in 2009 contains the nucleus of C G Jung s later works It was here that he developed his principal theories of the archetypes the collective unconscious and the process of individuation that would transform psychotherapy from treatment of the sick into a means for the higher development of the personality As Sara Corbett wrote in the New York Times The creation of one of modern history s true visionaries The Red Book is a singular work outside of categorization As an inquiry into what it means to be human it transcends the history of psychoanalysis and underscores Jung s place among

Memories, Dreams, Reflections Carl Gustav Jung, 1965 In the spring of 1957 when he was eighty one years old C G Jung undertook the telling of his life story At regular intervals he had conversations with his colleague and friend Aniela Jaff and collaborated with her in the preparation of the text based on these talks On occasion he was moved to write entire chapters of the book in his own hand and he continued to work on the final stages of the manuscript until shortly before his death on June 6 1961 Page 4 of cover

Collected Works of C. G. Jung, Volume 12 C. G. Jung, 2014-03-01 Jung's landmark account of the connections between alchemy its symbolism the collective unconscious and modern psychology Psychology and Alchemy is one of Jung's most influential works In a prefatory note he says In this present study of alchemy I have taken a particular example of symbol formation extending in all over some seventeen centuries and have subjected it to intensive examination linking it at the same time with an actual series of dreams recorded by a modern European not under my direct supervision and having no knowledge of what the symbols appearing in the dream might mean It is by such intensive comparisons as this and not one but many that the hypothesis of the collective unconscious of an activity in the human psyche making for the spiritual development of the individual human being may be scientifically established This is the second completely revised edition The book features 270 illustrations drawn largely from old alchemical books and manuscripts many of which were in Jung's personal collection
