Early Modern Genres of History Emil Nicklas Johnsen, Ina Louise Stovner, 2024-05-02 Bringing together an international group of literary scholars intellectual historians and cultural historians this book discusses history in its various forms either as texts or images in the early modern period 1500 1800 Early Modern Genres of History explores different genres and representational modes regarded as history before history became a scientific discipline during the nineteenth century It does not seek to show how the modern discipline of history as an academic study developed but rather to examine the ways in which historical texts and images became part of a wider field of early modern knowledge formations This volume demonstrates how history was connected to the developments in the public sphere how antiquarian historians used genres in their work how history evolved and functioned in the visual field and how historical genres travelled across different contexts Overall Early Modern Genres of History reveals how the diversity of historical representations in the early modern period has contributed to the broader foundations of history as it is understood in the twenty first century This volume is of great use to upper level undergraduates postgraduates and scholars interested in early modern Europe and the history of knowledge across both the history and literature disciplines The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons CC BY 4.0 license

Frontiers of History Donald R. Kelley, 2006-01-01 In 1764 65 the irrepressible playwright Beaumarchais travelled to Madrid where he immersed himself in the life and society of the day Inspired by the places he had seen and the people he had met Beaumarchais returned home to create *The Barber of Seville* and *The Marriage of Figaro* plays that became the basis for the operas by Rossini and Mozart that continue to delight audiences today This book is a lively and original account of Beaumarchais's visit to Madrid he never went to Seville and a re-creation of the society that fired his imagination Drawing on Beaumarchais's letters and commentaries translated into English for the first time Hugh Thomas investigates the full range of the playwright's activities in Madrid He focuses particular attention on short plays that Beaumarchais attended and by which he was probably influenced and he probes the inspirations for such widely recognized characters as the barber valet Figaro the lordly Count Almaviva and the beautiful but deceived Rosine Not neglecting Beaumarchais's many other pursuits ranging from an endeavour to gain a contract for selling African slaves to an attempt to place his mistress as a spy in the bed of King Charles III Lord Thomas provides a highly entertaining view of a vital moment in Madrid's history and in the creative life of the energetic Beaumarchais

Indocentric research paradigm that informed the colonial recovery of the ancient past in Central and Southeast Asia Ancient India was postulated as the fount of an expansive classicism an actor in world history on a par with ancient Greece and Rome Under the Greater India movement the scholarly quest for India in Asia became tied to anti colonial pedagogical nationalist and Asianist agendas Yet although it provided a potent anti colonial imaginary the movement also bolstered visions of Indian exceptionalism and energized Hindu nationalist ideas of India as a civilizing colonizing power Speaking directly to debates that define and divide India today this is essential reading for those interested in the legacies of Orientalist scholarship and interwar visions of Indian internationalism This title is part of the Flip it Open Programme and may also be available Open Access Check our website Cambridge Core for details *Bulletin of New Books, No.-- ,1869* Contemporary Studies on Modern Chinese History II Zeng Yeying,2020-10-29 The study of modern Chinese history has developed rapidly in recent decades and has seen increased exploration of new topics and innovative approaches Resulting from a special issue of Modern Chinese History Studies this volume is devoted to showcasing the healthy development of Chinese modern history studies and has already been revised twice in the original language This volume exhibits major achievements on the study of modern Chinese history and shows how the role of history was in debate transformation and re evaluation throughout this tortuous yet prosperous period Articles on seven different topics are collected from over ten prominent historians in order to represent their insights on the developmental paths of Chinese historical studies Drawing on a large number of case studies of critical historical events such as imperial China and the Chinese Workers Movement this volume sets out to explore topics such as the history of Sino foreign relations as well as the history of workers movements and youth movements This book will be a valuable reference for scholars and students of Chinese history *History of Thoughts in the Qing Dynasty* Li Shi, The book is the volume of History of Thoughts in the Qing Dynasty among a series of books of Deep into China Histories The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c 1600 1046 BC and the Bamboo Annals 296 BC describe a Xia dynasty c 2070 1600 BC before the Shang but no writing is known from the period The Shang ruled in the Yellow River valley which is commonly held to be the cradle of Chinese civilization However Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River These Yellow River and Yangtze civilizations arose millennia before the Shang With thousands of years of continuous history China is one of the world s oldest civilizations and is regarded as one of the cradles of civilization The Zhou dynasty 1046 256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule The central Zhou government began to weaken due to external and internal pressures in the 8th century BC and the country eventually splintered into smaller states during the Spring and Autumn period These states became independent and warred with one another in the following Warring States period Much of traditional Chinese culture literature and philosophy first developed during those troubled times In 221 BC Qin Shi Huang conquered the various warring states and created for himself the title

of Huangdi or emperor of the Qin marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty (206 BC–220 AD). Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men well-versed in calligraphy, history, literature, and philosophy were carefully selected through difficult government examinations. China's last dynasty was the Qing (1644–1912), which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace and periods of war and failed statehood, the most recent being the Chinese Civil War (1927–1949). China was occasionally dominated by steppe peoples, most of whom were eventually assimilated into the Han Chinese culture and population. Between eras of multiple kingdoms and warlordism, Chinese dynasties have ruled parts or all of China. In some eras, control stretched as far as Xinjiang and Tibet, as at present. Traditional culture and influences from other parts of Asia and the Western world, carried by waves of immigration, cultural assimilation, expansion, and foreign contact, form the basis of the modern culture of China.

Encounters Old and New in World History Alan Karras, Laura J. Mitchell, 2017-06-30. This collection of essays asserts the specific value of world history research and teaching, showing how the field contributes to the larger historical profession and offering concrete suggestions to develop more interaction between the academy and the public. The twelve contributors, each with their own academic areas of interest, are experienced scholars and classroom teachers. Uniting them together in this volume is their professional relationship with Jerry H. Bentley (1949–2012). This shared connection served as a catalyst to showcase Bentley's enduring legacy: a commitment to investigating large-scale questions with detailed empirical evidence that explains the human condition, documenting both patterns of similarity and difference in ways that account for regional and temporal variations. The volume continues Bentley's meticulous attention to world historical methods, focus on scale, cross-cultural encounter, comparison, periodization, critical geography, and interdisciplinarity. *Encounters Old and New in World History* responds to provocations that Jerry Bentley tendered in his scholarship and through his professional activities. Contributors interrogate the institutional settings, disciplinary proclivities, methodological choices, and diverse source bases of world history research and teaching. Several essays address the ways in which present-day concerns influence research on local and global scales. Other essays pay particular attention to the production and circulation of knowledge across regional, temporal, and class boundaries, as well as between the academy and the wider public. Claiming the centrality of globally informed and focused approaches to historical inquiry, researchers continue the conversations that Bentley carried on through his own scholarship, teaching, editing of the *Journal of World History*, participating in public forums, and contributing to public discussions about the place of history in understanding today's global integration. The stakes involved in asking questions about the shared history of humankind continue to increase in the current era of intensified globalization. It is incumbent

upon scholars with the skills to work across linguistic geographic temporal and disciplinary boundaries to show the ways that cross cultural encounters happened historically and to point out how such interactions play out in the institutions classrooms and public debates where historical interpretations are created and shared New Guinea & Polynesia John Moresby,1876
