Libros que hay que leer     **El preu de ser mare** Júlia Bacardit, 2020-11-16 Durant els primers anys del segle XXI hi ha hagut un gran augment dels tractaments de reproducció assistida. Les causes són diverses: la caiguda de la fertilitat i el estil de vida i la precarització económica i social entre d'altres. La tecnologia es una benedicció per tant, però implica riscos i incerteses. Molts tractaments exigeixen l's d'altres donants. A diferència del que passa a molts països de la UE a Espanya, la donació es considera nòmnia i així funciona com un doble incentiu: anima moltes dones en situacions precàries a donar vells a canvi d'una compensació d'entre 900 i 1.200 euros i moltes dones i parelles estrangeres viatgen a Espanya per comprar aquests vells. Sense garantia d'anonimatat, les donants s'exposarien a que les criatures nasquides dels seus vells poguessin contactar-les quan fossin majors d'edat, com passa a molts països. El dret a la donació es garantida per la legislación nacional e internacional, i les donacions anònimies les contradueixen. Legalment, cap dona pot donar vells més de tres vegades i el maximum de criaturas que poden nàixer dels seus vells es sis, per no haber cap registre centralitzat que ho controli. Al nostre país, una dona pot donar tantes vegades com vulgui, sigui per altruisme, per la recompensa económica o per totes dues coses, sense gairebé cap control assumint riscos per a la seva salut actual i futura, sense que les clínicas en siguin responsables. Què en fem de les desenes de milers d'embriones congelados que hi ha a Catalunya? Podem parlar de ovidonació o haver en venta? La donació ha de ser una sortida económica desesperada per noies joves i precarias. Haver en venta de replantejarlos es l'imperativo de la maternidad a qualsevol preu o hem de donar via lliure a los de la reproducción asistida.     **MI herramienta de Salud** Dr. Pedro Rodríguez, 2024-09-16 Tras una explicación magistral en 'Qué me pasa Doc', el segundo volumen proporciona cientos de herramientas que permiten dar un giro radical en la salud del lector. Muestra dietas para elaborarlos, protocolos para el manejo del dolor, ejercicios. A partir de una Ruta de trabajo se establece una Diana de autoevaluación y seguimiento. Un sistema que permite al lector clarificar qué puntos son aquellos que debe trabajar para vivir de forma auténtica su Salud. Rodríguez aborda las principales situaciones que suceden en consulta. Este es un auténtico manual de trabajo preparado para responder y recordar todas las dudas consensuadas desde las peticiones que le han hecho sus pacientes. Aporta consejos sobre el autocuidado y la observación de nuestros actos, un trasfondo tras muchas enfermedades. Además, se proporciona desde el libro acceso virtual y gratuito a un Banco virtual con terapia de sonido y la elaboración de las recetas que contiene el libro. El autor ofrece un cajón de herramientas donde introduce el Mandala, una herramienta milenaria para la práctica de la arteterapia y la meditación.
