## **Diary Of Events Malvern Civic Society:**

*British civic society at the end of empire* Anna Bocking-Welch, 2018-09-25 This book is about the impact of decolonisation on British civic society in the 1960s It shows how participants in middle class associational life developed optimistic visions for a post imperial global role Through the pursuit of international friendship through educational efforts to know and understand the world and through the provision of assistance to those in need the British public imagined themselves as important actors on a global stage As this book shows the imperial past remained an important repository of skill experience and expertise in the 1960s one that was called upon by a wide range of associations to justify their developing practices of international engagement This book will be useful to scholars of modern British history particularly those with interests in empire internationalism and civil society The book is also designed to be accessible to undergraduates studying these areas
