Field-collected, sex-specific, individually marked and genotyped female *Parus dominicensis* (27 females) from 1999-2000 breeding colonies (Guam, Mariana Islands) comprising exactly two full generations (1999-2000: first full generation; 2000-2001: second) were used to estimate within-colony (1) mean and (2) SD egg size and (3) mean clutch volume. Within each colony, mean egg volume was calculated as the mean of all eggs laid by all females in the colony. Mean clutch volume was calculated as $\sum(\text{mean egg volume} \times \text{mean clutch size})$ for each colony. Mean clutch size was calculated as the mean of all clutch sizes for all females in the colony. Clutch volume was calculated as the product of mean clutch size and mean egg volume.

Another important finding was that only young people (aged 18 years or under) were able to identify the correct answer that the correct use of the word "unpleasant" is "unpleasantly strong". This finding was surprising, and it might reflect that young people are less likely to be exposed to the word "unpleasant" in its correct use. The study also found that young people are more likely to use the word "unpleasant" in its incorrect use, "unpleasantly strong". This finding was also surprising, and it might reflect that young people are more likely to use the word "unpleasant" in its incorrect use.

Although this is surprising, it is not surprising that the majority of the respondents (about 80 percent) that indicated that they did not understand why the Bush team was concerned at all might actually understand more (or at least more than the media) about what the Bush team had done, but they, for whatever reason, thought that the president or the administration had done nothing. It is also true that the Bush team, with its political and media strategy, thought that they could win comfortably, thus suggesting that spending resources from the very beginning was not a mistake.¹²

E-book: Ethical Obligations and Decision-Making in Accounting: Text and Cases Mintz,2016-04-16
E book Ethical Obligations and Decision Making in Accounting Text and Cases The Big Con Mariana Mazzucato,Rosie Collington,2023-02-23 There is an entrenched relationship between the consulting industry and the way business and government are managed today which must change Mariana Mazzucato and Rosie Collington show that our economies reliance on companies such as McKinsey Boston Consulting Group Bain Company PwC Deloitte KPMG and EY stunts innovation obfuscates corporate and political accountability and impedes our collective mission of halting climate breakdown The Big Con describes the confidence trick the consulting industry performs in contracts with hollowed out and risk averse governments and shareholder value maximizing firms It grew from the 1980s and 1990s in the wake of reforms by both the neoliberal right and Third Way progressives and it thrives on the ills of modern capitalism from financialization and privatization to the climate crisis It is possible because of the unique power that big consultancies wield through extensive contracts and networks as advisors legitimators and outsourcers and the illusion that they are objective sources of expertise and capacity To make matters worse our best and brightest graduates are often redirected away from public service into consulting In all these ways the Big Con weakens our businesses infantilizes our governments and warps our economies Mazzucato and Collington expertly debunk the myth that consultancies always add value to the economy With a wealth of original research they argue brilliantly for investment and collective intelligence within all organizations and communities and for a new system in which public and private sectors work innovatively for the common good We must recalibrate the role of consultants and rebuild economies and governments that are fit for purpose
