experience can benefit from this reference guide      Currency Wars with China and Japan in Western Newsmagazines  
 Damien Ng,2022-02-27 This book explores China's currency wars with its trading partners in four Western newsmagazines Time The Economist L Express and Der Spiegel Based on both quantitative and qualitative approaches the interdisciplinary approach adopted in the research draws on two analytical frameworks from the realm of critical discourse analysis van Leeuwen's socio semantic inventory of social actor representation and van Dijk's concepts of macro rules as the overarching approaches to understand the changing dynamics of international relations and the global economy through Western media The sample in this study consists of 160 texts half of which are focused on China and the other half on Japan across a period of 12 months in 2010 China and in 1987 Japan Through the comparison of Western representation between China and Japan the similarities and differences in their coverage have been revealed as even more striking with regards to global politics and the international economy The findings obtained from the empirical research have revealed that China was not only reported more unfavourably than Japan in terms of depth but also across a broader range of areas spanning economics politics and military affairs It has also emerged that all the four Western newsmagazines tended to centre their coverage on the US and China in 2010 and the US and Japan in 1987 although they did not speak in one collective voice with regard to their coverage of China and Japan      *Disability Studies for Human Services* Debra Harley,Chris Flaherty,2020-12-01 Delivers knowledge critical to understanding the multidimensional aspects of working with varied populations with disabilities This is the only introduction to disability book with an interdisciplinary perspective that offers cross disability and intersectionality coverage as well as a special emphasis on many unique populations Comprehensive and reader friendly it provides current evidence based knowledge on the key principles and practice of disability while addressing advocacy the disability rights movement disability legislation public policy and law Focusing on significant trends the book provides coverage on persistent and emerging avenues in disability studies that are anticipated to impact a growing proportion of individuals in need of disability services Woven throughout is an emphasis on psychosocial adaptation to disability supported by case studies and field based experiential exercises The text addresses the roles and functions of disability service providers It also examines ethics in service delivery credentialing career paths cultural competency poverty infectious diseases and family and lifespan perspectives Reinforcing the need for an interdisciplinary stance each chapter discusses how varied disciplines work together to provide services addressing the whole person Active learning is promoted through discussion boxes self check questions and learning exercises Faculty support includes PowerPoints model syllabi test bank and instructor manual Purchase includes digital access for use on most mobile devices or computers Key Features Provides readers with key knowledge and skills needed to effectively practice in multidisciplinary settings Offers interdisciplinary perspectives on conceptualization assessment and intervention across a broad range of disabilities and client populations Underscores the intersectionality of disability to correspond with trends in education focusing on social justice and underrepresented
