The Politics of Furniture Freddie Floré, Cammie McAtee, 2017-02-10 In many different parts of the world modern furniture elements have served as material expressions of power in the post war era They were often meant to express an international and in some respects apolitical modern language but when placed in a sensitive setting or a meaningful architectural context they were highly capable of negotiating or manipulating ideological messages The agency of modern furniture was often less overt than that of political slogans or statements but as the chapters in this book reveal it had the potential of becoming a persuasive and malleable ally in very diverse politically charged arenas including embassies governmental ministries showrooms exhibitions design schools libraries museums and even prisons This collection of chapters examines the consolidating as well

as the disrupting force of modern furniture in the global context between 1945 and the mid 1970s The volume shows that key to understanding this phenomenon is the study of the national as well as transnational systems through which it was launched promoted and received While some chapters squarely focus on individual furniture elements as vehicles communicating political and social meaning others consider the role of furniture within potent sites that demand careful negotiation whether between governments cultures or buyer and seller In doing so the book explicitly engages different scholarly fields design history history of interior architecture architectural history cultural history diplomatic and political history postcolonial studies tourism studies material culture studies furniture history and heritage and preservation studies Taken together the narratives and case studies compiled in this volume offer a better understanding of the political agency of post war modern furniture in its original historical context At the same time they will enrich current debates on reuse relocation or reproduction of some of these elements Experience Design Patrick Newbery, Kevin Farnham, 2013-08-08

The Digital Is Kid Stuff Josef Nguyen, 2021-12-28 How popular debates about the so called digital generation mediate anxieties about labor and life in twenty first century America The children are our future goes the adage a proclamation that simultaneously declares both anxiety as well as hope about youth as the next generation In *The Digital Is Kid Stuff* Josef Nguyen interrogates this ambivalence within discussions about today's digital generation and the future of creativity an ambivalence that toggles between the techno pessimism that warns against the harm to children of too much screen time and a techno utopianism that foresees these digital natives leading the way to innovation economic growth increased democratization and national prosperity Nguyen engages cultural histories of childhood youth and creativity through

chapters that are each anchored to a particular digital media object or practice Nguyen narrates the developmental arc of a future creative laborer from a young kid playing the island fictions of Minecraft to an older child learning do it yourself skills while reading Make magazine to a teenager posting selfies on Instagram to a young adult creative laborer imagining technological innovations using design fiction Focusing on the constructions and valorizations of creativity entrepreneurialism and technological savvy Nguyen argues that contemporary culture operates to assuage profound anxieties about and to defuse valid critiques of both emerging digital technologies and the precarity of employment for creative laborers in twenty first century neoliberal America

The Aesthetics of Imagination in Design Mads Nygaard Folkmann, 2013-04-12 A theoretically informed investigation that relates the philosophies of aesthetics and imagination to understanding design practice In The Aesthetics of Imagination in Design Mads Folkmann investigates design in both material and immaterial terms Design objects Folkmann argues will always be dual phenomena material and immaterial sensual and conceptual actual and possible Drawing on formal theories

of aesthetics and the phenomenology of imagination he seeks to answer fundamental questions about what design is and how it works that are often ignored in academic research Folkmann considers three conditions in design the possible the aesthetic and the imagination Imagination is a central formative power behind the creation and the life of design objects aesthetics describes the sensual conceptual and contextual codes through which design objects communicate the concept of the possible the enabling of new uses conceptions and perceptions lies behind imagination and aesthetics The possible Folkmann argues is contained as a structure of meaning within the objects of design which act as part of our interface with the world Taking a largely phenomenological perspective that reflects both continental and American pragmatist approaches Folkmann also makes use of discourses that range from practice focused accounts of design methodology to cultural studies Throughout he offers concrete examples to illustrate theoretical points Folkmann's philosophically informed account shows design in all its manifestations from physical products to principles of organization to be an essential medium for the articulation and transformation of culture

Constructions of Media Authorship Christiane Heibach, Angela Krewani, Irene Schütze, 2020-11-23 The author is dead long live the author This paradox has shaped discussions on authorship since at least the 1960s when the dominant notion of the individual author genius was first critically questioned The ongoing discussion has mainly focused on literature and the arts but has ignored nearly any artistic practice beyond these two fields Constructions of Media Authorship aims to fill this gap the volume's interdisciplinary contributions reflect historical and current artistic practices within various media and attempt to grasp them from different perspectives The first part sheds a new light on different artistic and design practices and questions the still dominant view on the individual identifiable author The second part discusses creative practices in literature emphasizing the interrelation of aesthetic discourses and media practices The third part investigates authoring in audiovisual media especially film and TV while the final part turns to electronic and digital media and their collective creativity and hybrid mediality The volume is also an attempt to develop new methodological approaches focusing

on the interplay between various human and non human actors in different media constellations

Neuer Blick auf die Neue Typographie Julia Meer, 2015-12-15 Julia Meer stellt die bisherige Rezeptionsgeschichte des Mythos Neue Typographie in Frage und arbeitet zugleich die frühe Professionalisierung des Grafik Designs auf. Durch eine systematische Auswertung von Fachzeitschriften der Jahre 1900-1933 zeigt sie, dass die Neue Typographie weder neu war noch aufgrund ihrer Modernität abgelehnt wurde. Vielmehr wurde sie früh von den Fachleuten gefördert und zu einem werbewirksamen Stil weiterentwickelt. Damit ging ein Prozess einher, in dem sich einige Protagonisten der Avantgarde von Künstlern zu Designern professionalisierten. Die Studie eröffnet neue Perspektiven auf die Wirkungsweise und Verbreitungsprinzipien von Design und das Selbstverständnis von Designern.

Designing Retail Experience in the 21st Century D.J. Huppertz, 2025-04-03 Covering 2001 to today. Designing Retail Experience in the 21st Century presents readers with a critical cross-disciplinary perspective on retail design, bringing together scholarship from design, architecture, branding, cultural studies, and social studies. Our retail experience has changed profoundly over the past two decades, largely due to the impact of digital technologies. While the rise of smartphones and online commerce threatened to displace bricks and mortar stores, physical shopping has survived and in some cases thrived. Today, the most successful brands design experiences that engage customers both within the physical store and in the digital realm. In this book, D.J. Huppertz analyses how corporations design these experiences, how we interact with them, and how they align with broader social, cultural, and economic changes. Eight case studies reveal how some of the largest global retail chains, including Apple, Amazon, Nike, Zara, IKEA, and LEGO, and smaller chains such as Aesop and Gentle Monster, utilize design to create engaging experiences. Unlike in the past, such corporations consider design in a continuum that extends from architecture and interiors to product and service design, and from website and digital interactions to social media. At the intersection of design and cultural studies, this book provides a critical survey and understanding of design and retail experience in the 21st century.

Wild Things Judy Attfield, 2020-08-20 What do things mean? What does the life of everyday objects reveal about people and their material worlds? Has the quest for the real thing become so important because the high-tech world of total virtuality threatens to engulf us? This pioneering book bridges design theory and anthropology to offer a new and challenging way of understanding the changing meanings of contemporary human

object relations The act of consumption is only the starting point of object s lives Thereafter they are transformed and invested with new meanings and associations that reflect and assert who we are Defining designed things as things with attitude differentiates the highly visible fashionable object from ordinary artefacts that are too easily taken for granted Through case studies ranging from reproduction furniture to fashion and textiles to clutter the author traces the connection between objects and authenticity ephemerality and self identity Beyond this she shows the materiality of the everyday in terms of space time and the body and suggests a transition with the passing of time from embodiment to disembodiment
