How to Develop your Occult Powers Swami Panchadasi, 2021-08-24 In preparing this series of lessons for students of Western lands I have been compelled to proceed along lines exactly opposite to those which I would have chosen had these lessons been for students in India This because of the diametrically opposite mental attitudes of the students of these two several lands The student in India expects the teacher to state positively the principles involved and the methods whereby these principles may be manifested together with frequent illustrations generally in the nature of fables or parables serving to link the new knowledge to some already known thing The Hindu student never expects or demands anything in the nature of proof of the teachers statements of principle or method in fact he would regard it as an insult to the teacher to ask for the same Consequently he does not look for or ask specific instances or illustrations in the nature of scientific evidence or proof of the principles taught He may ask for more information but solely for the purpose of bringing out some point which he has not grasped but he avoids as a pestilence any question seeming to indicate argument doubt of what is being taught him or of the nature of a demand for proof or evidence The Western student on the other hand is accustomed to maintaining the skeptical attitude of mind the scientific attitude of doubt and demand for proof and the teacher so understands it Both are accustomed to illustrations bringing out the principles involved but these illustrations must not be fanciful or figurative they must be actual cases well authenticated and vouched for as evidence In short the Western teacher is expected to actually prove to his students his principles and methods before he may expect them to be accepted This of course not from any real doubt or suspicion of the veracity or ability of the teacher but merely because the Western mind expects to question and be questioned in this way in the process of teaching and learning Consequently in this series of lessons I have sought to follow the Western method rather than the Hindu So far as is possible I have avoided the flat positive statement of principles and methods and have sought to prove each step of the teaching Of course I have been compelled to assume the existence of certain fundamental principles in order to avoid long and technical metaphysical and philosophical discussions I have also had to content myself with the positive flat assertion of the existence of the Astral Plane Akashic Records Prana etc which are fundamental postulates of Hindu philosophy and occult science for these are established solely

by the experience of those who are able to function on the higher planes themselves But beyond this I have sought to prove by direct and positive evidence adapted to the Western mind every step of my teaching and methods **The Psychic**
